Our reputation has been built up by furnishing seeds of the best quality as to purity and germination, and we shall always endeavor to furnish the Best Seeds that can be procured and make prices as reasonable as possible.

HUNKEL’S SEEDS.

ILLUSTRATED CATALOG
SEASON OF 1911
INFORMATION FOR PURCHASERS.

OUR PART—READ IT.

We Pay Postage on all the seeds quoted by the packet, ounce, quarter pound and pound, and on plants and bulbs (unless otherwise noted), and upon all goods quoted in this catalog as POSTPAID. Pints, quarts, pecks and bushels are sent at purchasers expense unless enough money is remitted to pay postage or express. BY EXPRESS OR FREIGHT always means that the purchaser pays all transportation charges. We Guarantee Safe Arrival of all seeds provided you have given due care to observe faithfully your part, as stated on this page. BE SURE TO READ IT.

We Use Every Effort Possible in the selection of our seeds, and feel justified in saying that all our SEEDS are the PUREST and BEST to be found, but at same time there being so many things beyond the control of man that spoil the best seeds and cause poor crops, that it is impossible to guarantee seeds. Therefore, while we exercise great care to have all seeds pure and reliable, we sell no seeds with warranty expressed or implied in any respect, and we are not in any way responsible for the crop. If the purchaser does not accept the seeds on these terms, they must be returned at once, and any money that has been paid for same will be refunded.

Liberal Discounts—We offer the following inducements to those wishing to purchase seeds in packets: Select packets to the value of $1.15 and send us $1.00; for $2.35 send $2.00; for $3.60 send $3.00; for $4.85 send $4.00; for $6.15 send $5.00; for $12.50 send $10.00; for $25.00 send $22.00. The seeds will be sent by mail, postpaid, but these low rates apply to seeds in packets only, and not to catalogues, prices, and not to seeds by weight or measure.

YOUR PART—READ IT.

Use the Order Sheet. In each copy of our catalog we place an order sheet. It will aid us greatly if you will make your order out upon it, using one line for each article ordered, and as far as possible write them in the way they are catalogued, beginning at the front. We will gladly furnish you additional order sheets if you write for them.

Order Early. We are prepared to fill your order as soon as this catalog reaches you. So please order early. You will aid us and get “quicker service” by doing this.

How to Pay. Money may be sent at our risk in the following manner: P. O. Money Order, Bank Draft or Chicago, New York or Milwaukee Expresi Money Order, or Registered Letter. Money sent in any other way is entirely at risk of sender. Postage Stamps in small amounts are taken as cash, but they must be sent so they will not stick together. If local checks are sent, add 5 cents to cover cost of collection.

Sign Your Name. Name and address should be written as plainly as possible and care exercised to have Post Office, County and State in full. If your express office or freight depot has a different name from your post office, give that also. This is very important, as we cannot send goods if we do not know where to send them.

Before Mailing Your Order be sure that you know whether you or we pay the transportation charges. Remember that all goods quoted “By Express or Freight” travel at purchasers expense.

Prepaid Stations. Many small railroad stations are PREPAID stations, and the railroads will not accept freight for such points unless charges are fully prepaid. It will save delay if you ascertain if your station is a prepaid one before sending your order and include enough money to cover freight charges if it is.

In Ordering Goods forwarded by freight or express be sure to write plainly your express or freight office, county and state in full, giving the express or railroad company your preference to have them sent by. This saves time and delay here and disappointment at your end of the line.

In Case of Delay, Write Us. It sometimes happens that an order is lost in coming to us, or the goods, in going to the customer. Therefore, if any who order do not hear from us within a reasonable length of time, they should send a duplicate order, naming the date on which the former one was sent, and the amount of money enclosed, and in what form. This will enable us to investigate the matter and fill the duplicate order quickly.

DEUTSCHE CORRESPONDENDE—Alle Bestellungen und Correspondenzen in deutscher Sprache werden mit Sorgfalt ausgearbeitet.

IT IS IMPORTANT THAT YOU READ ALL OF ABOVE.

G. H. HUNKEL CO.,

MILWAUKEE, WISCONSIN.
If you are a Market-Gardener, Trucker or Florist, write for our Wholesale Catalog. It will be mailed free upon application.
HUNKEL’S TESTED
VEGETABLE SEEDS.

Fresh—Pure—Reliable.

In the following pages we have endeavors to list the
cream of all varieties known, weeding out many that are
still advertised by other seedsmen, but which we consider
unworthy of cultivation. We take great pains each season
to inform ourselves fully as to the real merits of any new
or superior varieties offered, and our customers may rest
assured, if any much-puffed variety is not listed in our
catalog, that we have tested it and found it wanting. We
list only such varieties as we know will prove profitable
to our customers.

ARTICHOKE.

Large Green Globe—The best sort for general use. Buds large, nearly round;
scales pale green, shading to violet at the base; very thick and fleshy. This is the
Artichoke that the French relish so very highly. Pkt. 5c; oz. 30c.

ASPARAGUS.

One Ounce to 50 Feet of Drill.

Soak seeds about 24 hours before sowing. Sow as early in the
spring as the ground can be worked. In good rich soil, in drills
one foot apart, then cover with earth from ½ to ¾ inch deep.
Cultivate frequently between rows, to keep the soil loose and
weeds down. Transplant to permanent beds the second year.
These beds are prepared by trenching to a depth of 2 feet and
working in liberal quantities of manure. The beds should be
2 feet apart and 3 feet wide, and 3 rows only should be planted
in each, the plants being placed about 1½ inches apart in the
rows. Spread the roots carefully and cover with about 6 or 8
inches of soil. They succeed best in a sandy soil.

Conover’s Colossal—A mammoth sort, frequently sending up
15 to 20 sprouts from 1 to 1½ inches in diameter, from a single
plant. Color, deep green; quality good. Pkt. 5c; oz. 10c; ¼ lb. 15c; lb. 45c.

Palmetto—in earlier and more productive variety than the
preceding. Pkt. 5c; oz. 10c; ¼ lb. 15c; lb. 50c.

Harr’s Mammoth—The largest growing variety of all, stalks
frequently growing an inch thick and pure white in color. Pkt.
5c; oz. 10c; ¼ lb. 15c; lb. 55c.

Columbian Mammoth White—This is a most distinct variety
The stalks are large, produced abundantly and early. They are
pure white and remain so as long as fit for use, without earthing
up or any other artificial blanching. Pkt. 5c; oz. 10c; ¼ lb. 25c;
1b. 60c.

ASPARAGUS PLANTS.

Any of the above varieties, 2-year-
old plants, per dozen, 25c; 100, $1.25;
postpaid. By express at purchaser’s
expense, per dozen, 20c; 50, 50c; 100,
75c; 1000, $6.00.
BEANS—DWARF OR BUSH.

Plant after danger of frost is past, in rich, mellow loam, or highly manured soil, finely pulverized. They usually yield best when planted 4 to 6 inches apart in two and one-half to three foot rows. Keep the ground moist, and cultivate thoroughly, being careful not to work among nor handle plants when wet or damp with rain or dew. The pole varieties should be planted in hills about four feet apart, dropping 3 or 5 seeds in each hill. The depth of about 1 inch.

WAX OR BUTTER VARIETIES:

Wardwell's Kidney Wax—One of the earliest, hardiest and most productive of all the wax beans. A week earlier than the Golden Wax and a far better Tender. Almost entirely free from rust and disease. Vines are strong and hardy, bearing a large crop of long flat, nearly straight, very white and wax like, handsome pods. These are very brittle and entirely stringless, of a rich buttery flavor and always command a ready sale, making it one of the most profitable varieties for the market gardener. The seed is large kidney shaped, white, with markings of reddish purple around the eyes. Pkt. 5c; pt. 15c; (by mail 25c); qt. 25c; (by mail 40c); ½ pk. 90c; pk. $1.60; bu. $6.00.

Davis Wax—This is the most hardy and productive wax podded bean in cultivation. The pods are invariably long, white, straight and handsome. The vine is rustless, and very vigorous, bearing its beautiful pods near the center in clusters. When young, the pods are brittle, crisp and tender. The seed is kidney shaped, clear white, and far superior to the common white bean when baked or cooked. One of the best for shipping as snap beans, and of greatest value to the market gardener. The length, uniformly perfect shape, and fine color of the pods, and the clear white seed, make this one of the best for canners. Pkt. 5c; pt. 15c; (by mail 23c); qt. 25c; (by mail 40c); ½ pk. 90c; pk. $1.60; bu. $6.00.

Hodson Wax—This is a new rather late season, wonderfully prolific Wax Bean. It is a remarkably vigorous grower, almost entirely free from rust, and is loaded with long, straight, handsome pods, which somewhat resemble the pods of the Davis Wax, but are plumper, straighter and longer, averaging 7 inches in length, of a clean, bright yellow color, all of which combined make it the most attractive Wax Bean on the market. The beans are brittle, tender, of fine texture and excellent flavor, and if picked before too old, are stringless, with very little fibre. The Hodson Wax Bean yields from 20 to 30 per cent more than any other Wax Bean. It is an excellent bean for the market gardener and is unsurpassed for the market gardener as a main crop sort. Pkt. 5c; pt. 15c; (by mail 23c); qt. 25c; (by mail 40c); ½ pk. 90c; pk. $1.60; bu. $6.00.

Rustless Golden Wax—A very early variety and a good producer, excellent quality and entirely rustless, besides being very crisp and tender. It is a good shipper as it keeps long after picking. Pkt. 5c; pt. 15c; (by mail 23c); qt. 25c; (by mail 40c); ½ pk. 90c; pk. $1.60; bu. $6.00.

Currie's Rust-Proof Wax—A very productive and good all round bean. It is absolutely Rust-Proof. The pods are long, flat, and very tender and of the finest quality. Pkt. 5c; pt. 15c; (by mail 23c); qt. 25c; (by mail 40c); ½ pk. 90c; pk. $1.60; bu. $6.00.

Improved Golden Wax—This is an improvement on the old Golden Wax and is the standard variety for general use. The pods grow long, nearly straight, broad, flat, and are clear yellow in color. Pkt. 5c; pt. 15c; (by mail 23c); qt. 25c; (by mail 40c); ½ pk. 90c; pk. $1.60; bu. $6.00.

Extra Early Challenge Black Wax—Extremely early, about a week earlier than any other Wax variety, and considered very desirable for first crop. The plants are handsome, and very productive. Round pod. Pkt. 5c; pt. 15c; (by mail 23c); qt. 25c; (by mail 40c); ½ pk. 90c; pk. $1.60; bu. $6.00.

WE KNOW BEANS as well as other seeds, and we also know that Seeds have to be selected and bred with equal care and intelligence as does live stock. Our seeds are pedigreed, and will produce the right kind; they are fresh, pure, and true to name. The Recollection of QUALITY Remains Long after PRICE is Forgotten.
BEANS—CONTINUED.

GREEN PODDED VARIETIES.

Burpee's Stringless Green Pod—This bean combines in itself the chief merits of all other varieties, viz.: unusual hardness, extreme earliness, and wonderful productiveness, with pods of handsome appearance and finest quality. It is extremely hardy, having stood frosts that killed all other varieties of beans. For the market or home garden no other green podded bean is so satisfactory, while with frequent planting fine pods may be had in constant succession from spring until cut off by heavy frosts in the fall. They are of a bright scarlet, very round and straight, six inches long, solidly meaty, tender, brittle as a pipe stem, of finest quality and entirely stringless, even when fully matured. Pkt. 5c; pt. 15c (by mail 22c); qt. 25c; (by mail 40c); 1/2 pk. 75c; pk. $1.25; bu. $5.50.

Improved Extra Red Valentine—Usually ready to pick about 8 days after planting. The pods are fleshy, crisp and tender. Pkt. 5c; pt. 15c (by mail 22c); qt. 25c; (by mail 40c); 1/2 pk. 75c; pk. $1.25; bu. $5.40.

Extra Early REFUGEE—A type of the old Refugee, but maturing two weeks earlier. The pods are very fleshy, and of fine quality, vines small but stand up well. Pkt. 5c; pt. 15c (by mail 22c); qt. 25c; (by mail 40c); 1/2 pk. 75c; pk. $1.25; bu. $5.50.

Longfellow—The pods of this new bean are about 6 inches long, pale soft green, straight and round, of delicious flavor; extremely early and abundant bearer. Pkt. 5c; pt. 15c (by mail 22c); qt. 25c; (by mail 40c); 1/2 pk. 75c; pk. $1.40; bu. $5.00.

Early Mohawk—Early and productive, bearing flat pods averaging 6 inches in length, of excellent quality. Pkt. 5c; pt. 15c (by mail 22c); qt. 25c; (by mail 40c); 1/2 pk. 75c; pk. $1.25; bu. $4.50.

Refugee, or 1000 to 1—Not as early as the preceding varieties, but excellent for main crop. The pods are fleshy, green, nearly round, quite fleshy, brittle and mild in flavor. Pkt. 5c; pt. 15c (by mail 22c); qt. 25c; (by mail 40c); 1/2 pk. 75c; pk. $1.25; bu. $4.50.

Improved Navy, (Boston Pole Bean)—A very productive and prolific variety. As a shell bean or for baking it excels all the other varieties. Pkt. 5c; pt. 12c; qt. 20c (by mail 22c); qt. 25c (by mail 35c); 1/2 pk. 65c; pk. $1.00; bu. $2.50.

White Marrow—Extensively grown for sale as a dry bean for winter use; excellent shelled. Pkt. 5c; pt. 12c (by mail 20c); qt. 20c (by mail 35c); 1/2 pk. 65c; pk. $1.00; bu. $2.50.

English, or Broad Windsor—Also known as Horse Beans. Stock erect, strong and shrubby. The bean is large, broad, and flat; it is best green shelled. A very popular table vegetable in Europe. Pkt. 5c; pt. 15c; (by mail 22c); qt. 25c; (by mail 40c); 1/2 pk. 80c; pk. $1.50; bu. $5.75.

POLE OR RUNNING VARIETIES.

Early Golden Cluster Wax—Comes into use about a week later than the Dwarf Golden Wax. The pods are beautifully golden, 6 to 8 inches long and are borne in clusters in the greatest profusion. Crisp and tender and a very desirable variety. Pkt. 5c; pt. 15c; (by mail 22c); qt. 25c; (by mail 40c); 1/2 pk. 75c; pk. $1.00; bu. $2.75.

Kentucky Wonder, or Old Homestead—An early green podded variety. The vines are vigorous and enormously productive, bearing great clusters of pods, which cover the entire plant. The pods are very large, entirely stringless, and cook tender and delicious. Pkt. 5c; pt. 15c; (by mail 22c); qt. 25c; (by mail 40c); 1/2 pk. 1.00; bu. $3.75.

Lazy Wife—The finest flavored of all the “snap-shorts.” The pods of medium dark-green color, are produced in great abundance and measure from four to five inches in length. They are fleshy and entirely stringless. The pods retain their rich, tender, and stringless qualities until nearly ripe, and at all stages are peculiarly luscious. Each pod contains from six to eight round white beans, which make excellent winter shell beans. Pkt. 5c; pt. 15c; (by mail 22c); qt. 20c; (by mail 35c); 1/2 pk. 65c; pk. $1.00; bu. $2.50.

Scarlet Runner—A rapid grower, cultivated both for table and ornamental use. The pods have a very fine flavor when cooked as snaps when three-quarters grown. The bean which is large and handsomely variegated with purple and black. Pkt. 5c; pt. 20c (by mail 22c); qt. 30c; (by mail 45c); 1/2 pk. 1.00; pk. $1.50; bu. $5.75.

POLY LIMA BEANS.

Klug of the Garden—A strong and rapid grower. It sets its pods early and produces abundantly throughout the season. The pods measure from 5 to 8 inches and are well filled with beans of excellent quality. Pkt. 5c; pt. 15c; (by mail 22c); qt. 25c; (by mail 40c); 1/2 pk. 75c; pk. $1.75; bu. $6.50.

Ford's Mammoth Lima—The largest and most productive Lima Bean. The pods grow to an average length of 8 inches and are produced in clusters. Each pod contains from five to seven beans of excellent quality, either green or dry. It is a very prolific variety, commencing to produce early in the season and continuing until frost. Pkt. 5c; pt. 15c; (by mail 23c); qt. 30c; (by mail 45c); 1/2 pk. 50c; pk. $1.75; bu. $6.50.

BUSH LIMA BEANS.

Henderson—The earliest and most productive of all the Bush Limas, coming into use directly after the Green and Wax podded sorts. It is of true bush form and grows a very fine length of pods. Pkt. 5c; pt. 15c; (by mail 23c); qt. 30c; (by mail 45c); 1/2 pk. 50c; pk. $1.75; bu. $6.50.

Burpee's Bush Lima. Every Poultry Raiser should have a Copy of Our Poultry Supply Catalog.
BEETS.

Select for these a light, well-enriched soil. As early in the spring as the ground can be cultivated, sow seed thinly in drills about a foot apart, covering to a depth of about one inch. When large enough to handle, thin out plants to about 6 inches apart. 1 oz. to 50 feet of drill; 5 to 6 lbs. to the acre in drills.

Crosby's Egyptian—The earliest beet in the market. It is a selection of the old early Egyptian, but it is somewhat thicker, giving it a more desirable shape. It is dark red, almost black in color, sweet and tender, and of the finest quality. It may be sown out as late as July and still mature. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 60c; postpaid. By express, lb. 50c; 5 lbs. $2.25.

Edmond's Early—The roots are of good form, round, with only one single tap root; the flesh is deep blood red color and very sweet and tender. They can be planted very closely, as they do not grow large or coarse, and have a very small top. Very fine for table use. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 60c; postpaid. By express, lb. 50c; 5 lbs. $2.25.

Early Eclipse—The roots are nearly globular and smooth, without one single tap root and a very small collar. The flesh is dark red, slightly zoned, very sweet, crisp and tender, especially when young. Pkt. 5c; oz. 10; ¼ lb. 20c; lb. 60c; postpaid. By express, lb. 50c; 5 lbs. $2.25.

Crimson Globe—A handsome early or main crop variety of medium size, almost globe-shaped and entirely free from rootlets, leaving the skin smooth. The roots average 10 inches in circumference; the foliage is small and of a rich bronze purple color. The flesh is rich blood red, slightly zoned and of the finest quality, always sweet and tender; never stringy. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 60c; postpaid. By express, lb. 50c; 5 lbs. $2.25.

MANGEL WURZELS.

Mangels make excellent winter feed for cattle, producing on good soil from 50 to 70 tons to the acre. The Mangel is a sure crop than any other crop. It is more fattening than the turnip and withstands the drought better. Sow in June at the rate of 6 lbs. to the acre, in drills 2 feet apart and thin out to 9 inches in the rows. Store in barns before freezing weather sets in.

Hunkel's Mammoth Long Red—An enormously productive variety, yielding 50 to 70 tons to the acre. The roots grow well above the ground, so that they can be easily harvested. Our strain is an extra selection from the thickest and largest Mangels. Oz. 5c; ¼ lb. 12c; lb. 30c; By express, lb. 25c; 5 lbs. $1.00.

Golden Tankard—The best yellow Mangel. It contains more sugar and nutritive matter than any of the red sorts. It is bright yellow in color and almost cylindrical in shape, making it easy to harvest. Oz. 5c; ¼ lb. 12c; lb. 30c; By express, lb. 25c; 5 lbs. $1.00.

Half Sugar Mangel—The roots of this new variety are valuable for their very high dry matter content, being, pound for pound, nearly equal to the best strains of sugar beets. Besides which, they are more succulent in feeding than the latter. Moreover, as they grow out of the ground, they are much more easily harvested than are sugar beets. Oz. 5c; ¼ lb. 15c; lb. 40c. By express, lb. 30c; 5 lbs. $1.15.

Sugar Beets.

Vilmorin's Improved—An improved French variety grown very extensively in France for the production of sugar. A large grower excellent for feeding stock. Oz. 5c; ¼ lb. 12c; lb. 30c; By express, lb. 25c; 5 lbs. $1.00.

Klein-Wanzleben—This kind is cultivated on a larger scale than any other sugar beet. The root is conical, straight and even, large at the head and gradually tapering. A heavy yielder and very easy to dig. Oz. 5c; ¼ lb. 12c; lb. 30c. By express, lb. 30c; 5 lbs. $1.00.
CARROT.

Sow the seed as soon as ground can be worked in a light sandy soil. Sow in rows about 15 inches apart and as soon as plants are large enough thin out to about 4 inches apart. 1 oz. to 100 feet of drill; 4 lbs. to the acre.

Early French Forcing—The earliest and very best variety for forcing. The reddish orange colored roots are nearly round. When matured they are about 2 inches in diameter. Pkt. 5c; oz. 10c; ½ lb. 25c; lb. 85c.

CHANTENAY—Tops medium sized; necks small; roots tapering slightly but uniformly stump rooted and smooth; color deep orange-red; flesh very crisp and tender. Although this is a medium early sort, it furnishes roots of usable size as early as any heavy cropper and undoubtedly it is one of the best for both the market and private garden, while its great productiveness makes it very desirable as a field sort. Pkt. 5c; oz. 10c; ½ lb. 25c; lb. 75c.

Oxheart Carrot.

Nantes' Half Long—A very sweet carrot, excellent keeper. Pkt. 5c; oz. 10c; ½ lb. 25c; lb. 75c.

Guerande, or Oxheart—Tops small for the size of the roots which are comparatively short, but often reach a diameter of five inches, terminating abruptly in a small tap root. Flesh bright orange, fine grained and sweet. This variety is especially desirable for soil so hard and stiff that longer rooted sorts would not thrive in it. When young, excellent for table use and when matured, equally good for stock. Pkt. 5c; oz. 10c; ½ lb. 25c; lb. 75c.

Improved Long Orange—A well known sort with long roots, thickest at the crown and tapering to a point. It is a good keeper, and is fine for winter use; also extensively used for stock feed. Pkt. 5c; oz. 10c; ½ lb. 25c; lb. 75c.

Half Long Danvers—One of the best table carrots. It is broad shouldered, stump rooted, and of a very fine flavor. It is of a rich orange color and very uniform in shape. A fine yielder and ready in about 65 days after sowing. Pkt. 5c; oz. 10c; ½ lb. 25c; lb. 75c.

CARROTS FOR STOCK.

Mastadon—This is the heaviest cropper, yielding more to the acre than any other sort. The flesh is white,solid, crisp and very sweet, the roots are short and heavy at the shoulder, which allows them to be easily pulled. One of the most profitable carrots; liked by both horses and cattle. Pkt. 5c; oz. 10c; ½ lb. 25c; lb. 60c. By express, lb. 50c; 5 lbs. $2.25.

White Belgian—A fine variety to use for winter feed for cows, as it improves the milk and also gives the butter a rich color. Grow about 2 inches long, partly above the ground, thus making them easy to harvest. Pkt. 5c; oz. 10c; ½ lb. 25c; lb. 50c. By express, lb. 40c; 5 lbs. $1.75.

CAULIFLOWER.

One of the most delicious of vegetables. Any soil that will grow cabbage will grow cauliflower, as their requirements are quite similar. Culture same as cabbage, except that they need a cool and moist atmosphere and should be watered during dry weather. As the flower heads appear, the large leaves should be broken down over them to shield them from the sun and rain. 1 oz. to about 2,000 plants.

Cauliflower seed is probably the most important and exacting of the entire vegetable family. No gardener can afford to plant doubtful stock at any price.

HUNKEL'S NEW SNOWBALL CAULIFLOWER.

The earliest of all. Sure to head and remains pure and white when others discolor. The habit of the plants is close growing and compact, and plants can be set closely together. It is the kind for the amateur or gardener. Our customers who have planted it this past season have found that it is the best seller on the market and that the heads grown from this seed have always sold for 3c or 4c per head more than those grown from other so-called Snowball strains. We stake our reputation on it. All we want is that our customers try it as we know that if they have had this seed once they will use no other. It is grown by the most reliable cauliflower specialist in Europe, and the seed grown by him has been found to be the best. Pkt. 5c; oz. 10c; ½ oz. 35c; ¼ oz. $1.35; oz. $2.50; 2 ozs. $4.75; ½ lb. $9.00; 1 lb. $16.00.

Extra Early Dwarf Erfurt (Select Stock)—Good seed of this variety is scarce as the plant has been brought up to such a point of perfection that it rarely produces seed more than once in every 3 years; hence the best is scarce and dear. Our strain of this is the best. It produces very solid heads, pure white in color, and of the finest heads. Pkt. 25c; ¼ oz. 70c; ½ oz. $1.30; oz. $2.25; ¼ lb. $8.00; lb. $30.00.

Lenormand's Short Stemmed—A superior variety with fine, large, well-formed heads. Very early, hardy, and stands dry weather. The curd is very close and uniform, and well protected by leaves, which render it desirable for early and late use. Pkt. 5c; ¼ oz. 30c; oz. 60c; ½ lb. $1.75.

Autumn Giant—A good late variety, well protected by heavy foliage. Pkt. 5c; ¼ oz. 25c; oz. 45c; ½ lb. $1.50.

Hunkel's New Snowball Cauliflower.
CABBAGE.

All of our Cabbage Seed is grown from selected stocks and all is of the grade that the critical market gardener trade requires. It is impossible to buy better seed at any price.

Early Cabbage Seed should be grown in hot-beds during February or March. When large enough the plants should be transplanted to cold frames and as soon as ground is in fit condition they should be planted in the garden, in rows about 2 feet apart and 18 inches in the row. The late varieties should be sown about the first of May and set out in June or July in rows about 3 feet apart and 2 feet, in or near to 1500 plants; ½ lb. to transplant to the acre.

Early spring—The earliest flat-headed variety. It grows into very solid and regular-shaped heads, having very few outside leaves, thus allowing very close planting. It is ready to cut about the same time as the Wakefield. Pkt. 5c; ½ oz. 12c; oz. 20c; ½ lb. 55c; lb. $2.00.

HUNKEL'S SELECTED STOCK—The best early cabbage in cultivation. It forms fine, solid, conical-shaped heads, with few outside leaves, and is of the very best quality. Our stock is extra fine, as it is grown from selected heads only, by an experienced grower. Pkt. 5c; ½ oz. 12c; oz. 25c; ½ lb. 60c; lb. $3.00.

Early Jersey Wakefield—This sort forms uniform solid heads larger than the early Wakefield, and matures only a few days later. If planted in clay soil it will mature in about the same time. Pkt. 5c; ½ oz. 12c; oz. 20c; ½ lb. 60c; lb. $2.00.

Early "Allhead" or Faultless—A very fine cabbage, growing uniformly large and solid heads, with small veins and mid-ribs. It is fairly early and for quality has no equal. The outer leaves are very few, thus permitting very close planting. Can also be used for a winter cabbage. Pkt. 5c; ½ oz. 12c; oz. 20c; ½ lb. 55c; lb. $2.00.

Early Summer—An excellent variety, 20 days later than the Wakefield, but attaining almost twice the size. Our strain of this is extra select. Pkt. 5c; ½ oz. 12c; oz. 20c; ½ lb. 55c; lb. $1.80.

All Seasons, or Vandergraaf—One of the best sorts for an all-round crop. It forms large solid heads of fine quality. It makes a first class fall or winter variety. Pkt. 5c; ½ oz. 12c; oz. 20c; ½ lb. 55c; lb. $1.80.

Succession—A sure heading, long keeping variety, very similar to All Seasons and producing well shaped heads, having few and small outer leaves. Our seed is from carefully grown, selected stock and is the best that can be procured. Pkt. 5c; oz. 20c; 2 oz. 35c; ½ lb. 60c; lb. $2.00.

Large, Late American Drumhead—A very productive sort with heads large, round and solid. It is of the best quality and finds a ready sale. Pkt. 5c; oz. 15c; ½ lb. 40c; lb. $1.50.

HUNKEL'S SELEcTED STOCK.

HARDEST HEADING VARIETY GROWN. Remarkable for its great weight and long keeping qualities. The heads are of medium size, average and are very solid, and in their fine white color are entirely distinct from other strains. The quality is excellent, the flesh being tender, crisp and solid, with no waste heart. It is an excellent keeper, being just as solid in spring as when stored away. Our stock of this is genuine, being imported direct from the most particular grower in Denmark. Pkt. 10c; ½ oz. 15c; oz. 25c; ¼ lb. 65c; lb. $3.00.
CABBAGE—Continued.

SAVOY CABBAGE.

Perfection Drumhead Savoy—This cabbage has a delicate cauliflower like taste and discriminating buyers always prefer it. The plants are strong and vigorous and withstand the ravages of the cabbage worm better than any other variety. The heads are large and solid, and very early, and always average 90 per cent, in the field. The inside of this cabbage is pure white. Pkt. 5c; ½ oz. 15c; oz. 30c; ¼ lb. 60c; lb. $2.00.

RED LEAVED CABBAGE.

Dark Red Dutch—A standard variety. It forms a small, round, solid head of deep rich purple color. Hardy and keeps well; used mostly for salads and pickling. Pkt. 5c; ½ oz. 12c; oz. 25c; ¼ lb. 55c; lb. $1.60.

Mammoth Rock Red—The largest and most solid of the red varieties; a sure heading sort and very tender. Color is deep red, both outer leaves and inside head. Heads often average 12 inches in diameter. Pkt. 5c; ½ oz. 12c; oz. 25c; ¼ lb. 60c; lb. $2.00.

Red Hollander—A splendid Red Cabbage, similar in shape to the DUTCH WINTER OR HOLLANDER described above. It forms a solid head and has very few outside leaves; grows to a large size and is always a sure cropper. An excellent sort to grow for keeping for winter and spring sales. Pkt. 10c; ¼ oz. 15c; oz. 25c; ¼ lb. 75c; lb. $3.00.

Use Slug Shot for Cabbage Worms.

BROCCOLI.

Similar to the Cauliflower, but much more hardy. Sow the seed in the early part of May and transplant to permanent place in June. Pkt. 5c; ½ oz. 15c; oz. 30c; ¼ lb. $1.00.

BRUSSELS SPROUTS.

Paris Market—This is a very fine new variety of half-dwarf growth, bearing handsome, solid, round sprouts of best quality, crowded together on stalks, 1 to 3 inches in diameter, bushy, and evergreen. The sprouts are used as greens, and become very tender and of rich flavor when touched by frost. Sow in May and treat the same as winter cabbage. Pkt. 5c; ½ oz. 10c; oz. 15c; ¼ lb. 40c.

CELERY.

Sow the last of March, in an open border, in rich, mellow ground, in shallow drills, water freely in dry weather. When 2 or 3 inches high, transplant to furrows and when 8 to 10 inches high, fill up the furrows, continuing to transplant at intervals to build up till fully matured and blanched, taking care not to get earth between the stalks. By partially topping when transplanting, the vigor and quality of the stocks are improved. Cultivate thoroughly and water well.

White Plume Self-Blanching—A very superior variety; popular on account of its naturally white leaf stalks, which require very little blanching. It is entirely free from green or hollow stalks. Its handsome plume-like top is very handsome on the table. It is quite early and a fine market sort. Pkt. 5c; ½ oz. 12c; oz. 20c; ¼ lb. 60c; lb. $2.10.

Golden Self-Blanching—Like the white plume it requires very little earthing up, and in many other respects it is similar to it, differing, however, in color, which is yellow, the heart being large and solid and of a fine golden hue. The seed we offer is the finest French-grown stock. Seed crop of this variety almost total failure. Pkt. 10c; ¼ oz. 25c; oz. 60c; ¼ lb. $2.00; lb. $7.00.

Golden Self-Blanching—California seed. Pkt. 5c; ½ oz. 25c; oz. 40c; 1 oz. 75c; ¼ lb. 2.50; lb. $4.00.

Hunkel's Giant Golden Heart—A fine celery for winter use. It is a selection of the Golden Self-Blanching, solid and sweet as a nut. It is considered one of the best keepers. The stalks are very large, solid, crisp and of a rich nutty flavor. It blanches very easily and quickly. The heart is golden yellow. Pkt. 5c; oz. 15c; 2 ozs. 25c; ¼ lb. 40c; lb. $1.50.

CELERIAC, OR TURNIP-ROOTED CELERY.

(GERMAN CELERY)

A variety of celery having turnip-shaped roots, which when sliced and treated with vinegar make an excellent salad. Its culture is the same as for the celery. Giant Pragu—Without doubt the largest and best Celeriac in existence. The roots are very large, smooth, with only a very few roots at the bottom. Flavor is excellent. Pkt. 5c; ½ oz. 12c; oz. 20c; ¼ lb. 60c; lb. $2.00.

VEGETABLE PLANTS FROM SEED.

We are prepared to fill orders for any of the following vegetable plants, and always carry a full supply of all the leading varieties: Cabbage, Cauliflower, Celery, Egg Plant, Pepper and Tomato. Any variety, per dozen 20 cents, postpaid. If in the market for larger quantities, write us for prices. We are Headquarters.
SWEET CORN.

Prices on Sweet Corn are subject to change without notice.

Sow in rows 3½ feet apart, and about 8 inches apart in the row, or plant in hills, a distance of about 4 feet each way. Place five kernels in each hill and later thin out to three. Begin to plant in May and continue until the last week in July. Cover early sorts about 1 inch, and late sorts about 1½ inches. One quart to 200 hills; 8 to 10 quarts to the acre, in Hills.

**Golden Bantam**—One of the sweetest sorts grown. The plant attains a height of only 3 to 4 feet, usually bearing two or more ears to the stalk. The ears are compactly filled with kernels which when ready for the table are cream yellow. Golden Bantam is one of the hardiest sorts grown, therefore can be planted earlier with safety than other varieties. This characteristic also adapts it to localities having cool Summer weather, a continuous supply being maintained by successive plantings. Pkt. 5c; pt. 1½c; (by mail 20c); qt. 25c; (by mail 35c); ½ pk. 70c; pk. $1.25; bu. $4.50.

**Peep O’Day**—The earliest of all the sweet corns, being at least 10 days earlier than any other sort. It is entirely distinct in appearance and habit of growth. The stalks grow about 4 feet in height. The ears average about 5 inches in length and are of perfect form, well filled out to the tip. When cooked the corn is exceedingly sweet. We have the true stock of this and urge everyone to try it. Pkt. 5c; pt. 1½c; (by mail 20c); qt. 25c; (by mail 35c); ½ pk. 70c; pk. $1.25; bu. $4.50.

**Extra Early Cory**—A favorite early sweet corn. It is of dwarf habit, each stalk usually producing from 2 to 3 good ears. The ears are 6 inches long with 8 rows of broad grains. The cob is red. Pkt. 5c; pt. 1½c; (by mail 20c); qt. 25c; (by mail 35c); ½ pk. 70c; pk. $1.10; bu. $4.00.

**First of All**—A selection of the Cory; but coming into use a few days Peep O’Day earlier. Pkt. 5c; pt. 1½c; (by mail 20c); qt. 25c; (by mail 35c); ½ pk. 70c; pk. $1.10; bu. $4.00.

**Early Minnesota**—One of the most popular of the older varieties. The stalk is short and bears two long, 8 rowed ears, which are very sweet and tender. It shrinks very little in drying. Pkt. 5c; pt. 1½c; (by mail 20c); qt. 25c; (by mail 35c); ½ pk. 70c; pk. $1.10; bu. $4.00.

**Cory-White**—One of the largest and best extra early varieties. Each stalk furnishes 2 or more large fine shaped ears, which are fit for use very early. The ears are 12 rowed, very handsome with no opening between the rows at the base. The grain is large and broad, and the quality of this corn is excellent. Pkt. 5c; pt. 1½c; (by mail 20c); qt. 25c; (by mail 35c); ½ pk. 70c; pk. $1.10; bu. $4.00.

**Metropolitan**—A new early sort, only a few days later than the Cory. The ears are about 9 inches in length, 10 to 12 rowed, well filled to the tip with large, deep kernels, which are very sweet and tender; in fact, it possesses the richness which is found in the later and largest kinds. Pkt. 5c; pt. 1½c; (by mail 20c); qt. 25c; (by mail 35c); ½ pk. 70c; pk. $1.10; bu. $4.00.

**Cosmopolitan**—The best large early main crop true Sweet Corn yet introduced. In size of ears and fine quality it equals the best second earlies. Stalks five to six feet high; ears nine inches long, filled to the very tip with ten or more rows of large grains. Cob pure white. Its attractive appearance, fine quality, and earliness, will recommend it to market gardeners. Pkt. 5c; pt. 1½c; (by mail 20c); qt. 25c; (by mail 35c); ½ pk. 70c; pk. $1.10; bu. $4.00.

**Improved Early Champion**—A large early sort. Produces large-sized ears in about 60 days. 12 rowed. Pure white kernels, with medium sized cob; very sweet, tender and full of milk, yielding 2 and 3 ears to the stalk. Pkt. 5c; pt. 1½c; (by mail 20c); qt. 25c; (by mail 35c); ½ pk. 70c; pk. $1.10; bu. $4.00.

**Kendall’s Early**—A large early sort, the ears usually averaging from 9 to 12 inches and averaging 12 rows of pure white, sweet and tender corn. Pkt. 5c; pt. 1½c; (by mail 20c); qt. 25c; (by mail 35c); ½ pk. 70c; pk. $1.10; bu. $4.00.

**Black Mexican**—A medium early variety growing about 6 feet in height; ears 8 inches long, well filled with 8 rows of large, rather flat grains, which are of a rich purple color, which cook white and are very tender when in condition. Pkt. 5c; pt. 1½c; (by mail 20c); qt. 25c; (by mail 35c); ½ pk. 70c; pk. $1.15; bu. $4.00.

**Stowell’s Evergreen**—The best late sweet corn in every way. It is very productive and bears large ears, with deep kernels, very tender, and sweet. It remains in good state much longer than any other sort. Our seed of this variety is extra select. Pkt. 5c; pt. 1½c; (by mail 20c); qt. 25c; (by mail 35c); ½ pk. 70c; pk. $1.25; bu. $4.50.
Hunkel’s Black Sugar—A selection of the old Mexican, well known in account of its remarkable sweetness. It is medium early with 8 rows of very sweet corn which cooks white when in condition, but turns purple when reaching maturity. It is the finest table variety, following right after the earliest sorts. By successive planting, corn can be had all summer and autumn. Pkt. 5c; pt. 15c; (by mail 20c); qt. 25c; (by mail 35c); ½ pk. 70c; pk. 1.20; bu. $4.50.

Country Gentlemen—One of the sweetest and also one of the most productive sorts. The stalks average 3 ears, sometimes as many as 5; kernels and cobs are pure white; cob small, kernels deep, ears average 9 inches in length. It is considered the finest variety for family use. Pkt. 5c; pt. 15c; (by mail 20c); qt. 25c; (by mail 35c); ½ pk. 70c; pk. $1.20; bu. $4.25.

**Sweet Corn—continued.**

**Hunkel’s Black Sugar.**

**Pop Corn.**

White Rice—The best and most popular variety. The ears, which are of good size, are produced abundantly. The grain is pointed, pops white and is of excellent quality. By express at purchaser’s expense, lb. 25c; 5 lbs. 40c; 10 lbs. 65c; Write for prices on larger quantities.

**CORN SALAD, OR FEETUS.**

Used as a salad. Sow early in spring in drills, or for very early use, sow in fall, and winter over same as spinach. If grown in cold frame it can be had any time during winter. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 60c.

*Double Curled*-A hardy annual whose leaves are used in soups and salads. Can also be used to advantage in decorating dishes of meats and vegetables. Sow seed in drills in May one-half inch apart. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 60c.

*Large Rooted Madgeburg*—The leaves are used as salads with oil or vinegar, either in their natural state or blanched. The roots are very extensively used as a substitute for coffee. Cultivate same as carrots. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 60c.

Cress, or Pepper Grass.

A favorite pungent salad. Sow thickly at frequent intervals, to keep up a succession, as it soon runs to seed. 1 oz. to about 15 square feet.

Curled Garden Cress.

Thick or Cabbage—The Dandellion is a hardy perennial plant, resembling the Endive. It affords one of the most healthful green spring or salads. The variety that we offer is much superior to the old sorts, being much thicker and almost twice the size.

Collard, or Cabbage—The seeds have an aromatic odor and warm pungent taste. They are used as a condiment, and also for pickling with cucumbers. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 60c.

Egg Plant.

Sow the seed in hot-bed or in the house the first week in March, and plant outdoors about the first week in June, about 2½ feet apart. They like a rich loamy soil. Egg Plants always find a ready market if they are nicely shaped, but much of the seed sold will produce very irregular fruits with an off color. Our seed is select and will produce fine results.

Black Beauty—From 10 to 12 days earlier than New York Improved. The fruits are broad and thick, of most attractive form, and of the finest flavor. The skin is rich, purplish black, entirely free from spines or thorns. The fruits set most freely and are ready to market early, so that the entire crop can be gathered before there is any danger of frost. Pkt. 5c; ½ oz. 20c; oz. 35c; ¼ lb. $1.10; lb. $8.75.

New York Improved Spinless—The leading market variety. The plants are of strong growth, with large foliage. The fruits are of large size, with smooth, glossy skin of deep purple color. Pkt. 5c; ½ oz. 20c; oz. 35c; ¼ lb. $1.00; lb. $1.10.

Black Pekin—Fruit round, almost black; flesh white, fine grained and delicious; very early and almost as large as the later sorts. Pkt. 5c; ½ oz. 15c; oz. 25c; ¼ lb. 50c; lb. $1.00.

Endive.

An excellent salad for fall or winter use. When the plants have attained full size the leaves should be tied up so that they can bleach. 1 oz. to 150 feet of drill.

**Green Curled Winter**—A fine market sort. Very hardy; leaves dark green and tender. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. $1.10.

**Broad Leaved Batavian**—Has broad, thick, plain or slightly wrinkled leaves, which are very tender. As it makes a large head it is principally used for cooking. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. $1.10.
CUCUMBERS.

Plant in hills 4 feet apart, or in rows 5 feet apart in well prepared rich, loamy soil, well manured. The fruit should be picked when large enough, whether wanted or not, as it improves the quality of the plant if left to ripen. 1 oz. to 50 hills; 2 lbs. to acre in hills.

Improved Chicago Pickle—Without doubt the best cucumber for pickles. The fruit is of medium length pointed at both ends; large and prominent spines; color deep green; begins to set its fruit when the vines are quite young. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. $1.10.

Short Green—A very superior stock for pickling. It is of medium size, straight and handsome. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. $1.10.

Early Frame—An excellent sort both for table use and for pickling. Fruit straight, handsome, smaller at each end, bright green; flesh tender and crisp, and makes fine pickles. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. $1.10.

Boston Pickling, or Green Prolific—A distinct and very productive variety, extensively grown for pickles. Fruit medium sized, very smooth, symmetrical, bright green. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. $1.10.

Davis Perfect Cucumber. Equally good for forcing indoors and for growing outdoors. The cucumbers are maturing and sized around 12 inches in length; the color is a rich, dark glossy green; very tender, brittle and of exceptionally fine flavor. It is a very shy seeder, thus making it a fine table variety. Being a vigorous grower it withstands blight better than other long sorts. It is an excellent shipper and will hold its color and brightness long after cutting. Our seed comes direct from the originator. Pkt. 5c; oz. 15c; ½ lb. 40c; lb. $1.35.

Improved Long Green—Produced by selection from the Long Green. Vines vigorous and productive, forming fruit fit for the table nearly as early as the shorter sorts; fruit about twelve inches long, firm and crisp. Excellent for pickles; when mature is sometimes used for making sweet pickles. We offer a carefully selected strain, uniformly long, of good form, with the large warts and spines well distributed over the surface instead of being clustered at one end as in inferior stock. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. $1.10.

Cool and Crisp—Very early and exceedingly productive. A fine pickling variety when young, and when matured is excellent for slicing, being very tender and crisp; color, very dark green. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. $1.10.

Evergreen White Spine—This cucumber differs from the early White Spine in retaining a deep green color at all stages of its growth. It is long, very productive, and matures early. Its handsome appearance makes it a general favorite for all round use. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. $1.10.

Improved White Spine—One of the best sorts for table use. Vines vigorous, fruiting early and abundantly; fruit uniformly straight and handsome, dark green, with a few white spines; flesh tender and of excellent flavor. In this country this variety is used more than any other for forcing under glass. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. $1.10.

Extra Long White Spine—A dark green, handsome cucumber, often attaining a length of 12 inches; straight and attractive in shape. Makes a hard, brittle cucumber when small, and a grand table variety when large. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. $1.10.

Improved Arlington White Spine—The most popular and profitable of all the cucumbers. It is beyond question the most productive and the earliest variety of the spine type. It is a rich green color throughout its entire length, and is unsurpassed in open ground culture. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. $1.10.

Japanese Climbing—While all cucumbers are running vines, this variety is much more creeping or climbing in its habit, so much so that it quickly climbs on poles or trellises in the same manner as the Pole Lima Bean. It is a distinct variety. Fruit from 12 to 16 inches long, dark green and smooth. Flesh pure white, crisp and tender. Pkt. 5c; oz. 15c; ¼ lb. 50c; lb. $1.50.

Lemon Cucumber, or Garden Lemon—See page 13.

HERBS.

SWEET, POT AND MEDICINAL.

Every garden should have a few of these herbs, as they are necessary for culinary and medicinal purposes. The seeds should be sown in light, rich, pulverized soil. The stems and leaves should be cut when the plant is coming to bloom, and dried.

Anise—Used for garnishing. Pkt. 5c; oz. 10c.

Balm—Used for making tea and wine. Pkt. 5c; oz. 10c.

Sweet Basil—Used in soups. Pkt. 5c; oz. 15c.

Borage—Leaves used in salads. Pkt. 5c; oz. 15c.

Caraway—Used in Confectionery and medicines. Pkt. 5c; oz. 15c.

Cayenne—Used for seasoning. Pkt. 5c; oz. 30c.

Chives—Used for seasoning. Per clump, 10c; doz. clumps, $1.00. Add 5c per clump for postage.

Coriander—Used for flavoring. Pkt. 5c; oz. 15c.

Dill—Leaves used in pickles and sauces. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 60c.

Fennel—Leaves are boiled and used in fish sauces. Pkt. 5c; oz. 10c.

THE FINEST LAWS ARE SEEDED WITH HUNKEL’S "MILWAUKEE PARK" LAWN SEED.

Improved Arlington White Spine.
KALE, OR BORECOLE.

Sow in prepared beds, in middle of April or beginning of May, and transplant early in June, same as cabbage. All varieties are hardy and are best when touched by frost. One oz. to 1,000 plants.

**Dwarf Green Curled**—This variety is harder than cabbage and makes excellent greens for winter and spring use. The leaves are as curly as parsley, are tender, and of very fine flavor. Dark green in color. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

**Siberian**—Sometimes called “Sprouts” and “German Greens.” The plant is low, spreading and very hardy, the leaves are not as curly as the Dwarf Green Curled. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 80c.

Dwarf Green Curled Kale.

KOHLRABI.

A popular vegetable intermediate between the cabbage and the cauliflower. Sow in drills about May to July. One oz. to 3,000 plants.

**Early White Vienna**—Flesh white and tender, a standard sort for market and table use. Good for forcing; very short top. The ball forms very quickly, thus making it very desirable on account of its earliness. Pkt. 5c; ½ oz. 12c; oz. 20c; ¼ lb. 60c; lb. $1.00.

**Purple Vienna**—Diffsers from the above only in color. Pkt. 5c; ½ oz. 12c; oz. 20c; ¼ lb. 60c; lb. $2.00.

LEEK.

Sow early in spring, in drills, 1 foot apart and 1 inch deep. When the leaves are high, transplant in a deep, rich soil, in rows 12 inches apart and 6 inches in the rows, as deep as possible so that the neck may be covered and blanched. Seed may also be sown in fall for transplanting in spring. One oz. to 100 feet of drills.

**American Flag**—A large, strong-growing variety, of good quality, and hardy. The leading market sort. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. $1.00.

**Large Musselburgh**—Grows to a very large size, with broad leaves, spreading like a fan; excellent quality. Pkt. 5c; oz. 10c; ¼ lb. 30c.

**Bread Scotch, or London Flag**—Hardy. A large, strong plant with broad leaves. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. $1.00.

**Large Rouen**—Large and excellent; enormous in size, quality fine. It is the best of all. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. $1.10.

HUNKEL’S RELIABLE MUSHROOM SPAWN.

Mushrooms can be easily grown in cellars, in sheds, in hot-beds, greenhouses, on shelves or any out of way places. Fermenting horse manure at a temperature of about 70 degrees, mixed with an equal weight of fresh soil loam, is made into beds the size required, 8 inches deep. See to it that the bed is packed very solidly and evenly. Break up the spawn into pieces about the size of a walnut and plant in this bed, about 6 inches apart each way, covering the whole with 2 inches of light soil, and protect from rain and cold. One brick will plant about 10 square feet of bed. The mushrooms will appear in about 5 weeks. Keep moist, using lukewarm water if possible. We can always furnish fresh spawn from reliable makers. We recommend the Pure Culture Spawn.

**English Mushroom Spawn**—This comes in pressed bricks about 20 ounces in weight. Price per brick 25c; 5 lb. $1.00, prepaid. By express at purchaser's expense, brick 15c; 2 for 25c; 10 lbs. $1.90; 25 lbs. $2.00; 100 lbs. $7.00. Prices on ton lots upon application.

Pure Culture Mushroom Spawn (Lambert’s)—This is prepared by an entirely new process, and is far more productive than the English and French Spawn. By a scientific selection of large mushrooms for propagating purposes a new type has been developed possessing the following points of merit. The mushrooms are much larger; their skin is tougher; their flavor is finer, they are more productive and come to maturity earlier. The spawn usually sold has been prepared for months, much of its vitality being spent before it is planted. This spawn, however, is fresh made and is received by us at frequent intervals. It comes in bricks weighing 24 to 30 ounces each. Per brick, 25c, postpaid. By express at purchaser's expense per brick 25c; 5 bricks $1.00; 10 bricks $1.85; 25 bricks $3.75; 100 bricks $12.00.

**Mushroom Culture and Pure Culture Spawn**—A complete book containing the latest methods of preparing beds and raising mushrooms, also preserving and cooking them. 44 pages; handsomely illustrated. 15c per copy postpaid; or free with each order of 25 bricks or more.

**Mushroom or Hot Bed Thermometers**—Used to get temperature of Mushroom Beds or Hot Beds. Brass Point; Wooden Frame. Each $1.50 postpaid.

MARTYNIA.

An ornamental as well as useful plant. It grows in large bushes bearing Gloxinialike flowers. When young and tender the seed pods are gathered and used for pickling. 1 oz. to 200 Hills.

**Martyina Probosiden**—The best variety. Pkt. 5c; oz. 30c; ¼ lb. $1.00; lb. $3.00.

MUSTARD.

Mustard is not only used as a condiment, but the green leaves are used as a salad, or cut and boiled like spinach. The culture is the same as for cress.

**Chinese, or Giant Mustard**—Leaves are very large, often measuring 14 inches. Ready to use in about 6 weeks after sowing and continuing to yield until frost. The leaves which are curled are eaten boiled, like spinach. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 70c.

**London**—The leaves are light green, mild and tender when young, seed light yellow. Oz. 5c; ¼ lb. 15c; lb. 40c.

**Black or Brown**—Stronger than the white. Oz. 5c; ¼ lb. 15c; lb. 40c.

We are prepared to fill your order at any time—right NOW. It will pay you to order early, so you will have your seed to sow just at the right time.
LETTUCE.

Lettuce covets a rich, mild soil. Sow as early as ground can be worked, and every two weeks for a succession, thinly in drills one foot apart; when up, thin out to about 8 inches apart, so as to allow full development. Seed may also be sown broadcast. 1 oz. to 150 feet of drill.

CURLED OR LOOSE LEAVED VARIETIES.

Grand Rapids Forcing—Selected Stock—Without doubt the most popular of all forcing lettuce. It is a strong grower with leaves of a yellowish green color. Its upright habit admits of very close planting, and makes it less liable to rot. It is an excellent shipper as it will keep a long time without wilting. Our stock of this is Extra Select. Pkt. 5c; oz. 10c; $1/4 lb. 30c; lb. $1.00.

Black Seeded Simpson—A favorite forcing and garden variety. It forms large, thin, tender leaves of ideal color and quality. It stands the summer heat well and is also a very good keeper. Pkt. 5c; oz. 10c; 1/4 lb. 30c; lb. $1.00.

Early Curled Simpson—A variety that does not head, but forms a compact, close mass of leaves. Leaves very tender and do not wilt easily. Pkt. 5c; oz. 10c; 1/4 lb. 30c; lb. 90c.

Hunkel’s Early Prizehead—This lettuce has become very popular as it is the best lettuce for the home garden. It produces large, loose heads of finely crimped and fringed leaves, the outer portions of which are shaded with brown. It is exceedingly sweet, crisp and tender. Pkt. 5c; oz. 10c; 1/4 lb. 30c; lb. $1.00.

CABBAGE, OR HEADING VARIETIES.

Unrivaled—A distinctly improved type of the Big Boston, and one of the best of all for early growing in the field or forcing in hot-houses. If grown under favorable circumstances, the heads will measure from ten to twelve inches across. Of a bright, lively green color without the brownish markings on the old-fashioned sort. The heart and inner leaves are pure white, of a delicious flavor, very tender and splendid quality. We recommend this to be used by all market gardeners as their main planting in place of Big Boston, and it will prove entirely satisfactory for early crops for family gardens. Pkt. 5c; oz. 10c; 1/4 lb. 30c; lb. $1.00.

May King—This remarkable variety has proved itself capable of satisfying the most exacting requirements that could be made on an early outdoor Lettuce; while it can also be easily and most satisfactorily raised in a cold-frame. It is not easily affected by cold or wet weather, grows very quickly and produces, even in poor soil, splendid, globular heads, which are ready ten to fifteen days before other heading varieties, and stands a long time before showing signs of running to seed. Externally of a yellowish-green with light brownish tinge; the leaves inside are of a golden-yellow shade; and in point of flavor unexcelled by any sort. This Lettuce has been highly appreciated wherever grown or tried, and is sure to become popular everywhere. We would call your special attention to this splendid variety. Pkt. 5c; oz. 10c; 1/4 lb. 30c; lb. $1.00.

Improved Hanson—Forms very large firm heads, which are delicately sweet, crisp and tender; heads green outside and white within. It is unexcelled for outdoor culture, as it resists summer droughts and heat well, and is always ready for the table. Pkt. 5c; oz. 10c; 1/4 lb. 30c; lb. $1.00.

St. Louis Butterhead—A favorite gardener’s variety. It forms a large, solid head, is very crisp and tender, and withstands the summer heat admirably. It is slow to run to seed. Pkt. 5c; oz. 10c; 1/4 lb. 30c; lb. $1.00.

Hunkel’s All Seasons—This is without doubt one of the best of the All Head Lettuces. It forms a handsome, large, solid head, almost as large as the Late Cabbage. The leaves are of a bright green color and are very tender and crisp. It runs to seed very slowly and can be sown early and late. Pkt. 5c; oz. 10c; 1/4 lb. 30c; lb. $1.00.

California Cream Butter—This variety forms large, round, compact heads, light green outside and creamy yellow within. It is medium early and is recommended as a summer variety as it is slow in running to seed. Pkt. 5c; oz. 10c; 1/4 lb. 30c; lb. $1.00.
MAMMOTH BLACK SEEDED BUTTER—This variety forms large, solid yellow heads, of thick, brittle leaves, the inner ones being beautifully blanched. Very crisp, tender and of fine flavor. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. $1.00.

SALMOSANDER—An old favorite sort, but still one of the best. Forms good sized compact heads; color, light green, white on inside. It remains long in head and withstands drought and heat very well. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. $1.00.

BIG BOSTON—A fine sort for forcing or outdoor culture. The plants are large, very hardy and vigorous, with broad, smooth, thin and very hard leaves which are bright, light green in color, and when well grown are very tender. Indoors this variety forms a solid head, while outdoors the head is loose leaved. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. $1.00.

GOLDEN QUEEN—A desirable early sort. One of the best for outdoor planting as for growing under glass. The color is a beautiful golden yellow. Heads are solid, crisp and very tender. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. $1.00.

TRIANGLE—This is a favorite class of lettuce in Europe, and is now also becoming popular in this country. The long, narrow leaves which form solid heads, bleach and quickly become snow white. They excel all other lettuces in quality, having a taste and crispness which is unexcelled. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. $1.00.

**Standard Favorite Sorts**—We can supply the following well-known sorts at the uniform price. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 90c;—**SATISFACTION, Deacon, San Francisco Market, Tomhannock, Charter, All-Year-Around.**

---

**WATER MELON.**

Water-melons require a rich, sandy soil for best development and do best in warm latitudes. Cultivate same as Musk-melon except that the hills should be nearly double the distance. 1 ounce to 30 hills; about 5 pounds to the acre.

**Cole's Early**—The Earliest and Sweetest Variety. Sure to ripen in this section in August. The melons are of fair size, usually averaging about 12 inches in diameter and is green striped with lighter shades. The flesh is bright red in color, solid and crisp, and free from all stringiness, very solid with a small seed cavity. It is very sweet and refreshing. Pkt. 5c; oz. 10c; 1/4 lb. 20c; lb. 60c.

**True Golden**—A fine early variety, very vigorous and productive. It is large and oval shaped with a rind of light and dark green colors. Flesh is bright red, solid and firm but very tender. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 60c.

**Kleckley's Sweet**—A large melon, about 20 inches long and about 12 inches in diameter. The skin is dark green and the rind is only about 1/4 inch thick. The scarlet flesh is sweet and sugary and entirely free from stringiness. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 60c.

**Peerless, or Ice Cream**—A home melon. Its extremely thin rind prevents it from being shipped. It is of medium size; skin is pale green, slightly mottled; flesh, bright scarlet, fine grained, solid to the center, sweet, crisp and melting. Pkt. 5c; oz. 10c; ¼ lb. 15c; lb. 75c.

**Kolb's Gem**—Vines of medium size but remarkably vigorous and healthy. Leaves of medium size, deeply cut with a peculiar frilled edge. Fruit of the largest size, round or slightly oval, marked with irregular mottled stripes of dark and light green. Rind exceedingly hard and firm, making it a good sort for shipping by rail and distance. Flesh is bright red, solid, a little coarse, but sweet and tender. Pkt. 5c; oz. 10c; ¼ lb. 15c; lb. 50c.

**Melver's Sugar**—A very productive and hardy melon of a very handsome appearance. It contains great weight, but never cracks or loses its flavor no matter how wet the season may be. It takes the lead wherever tried. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 60c.

**Monte Cristo**—Medium sized; color, dark green; flesh, red, very sweet and tender. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 60c.

**Gypsy, or True Georgia Rattlesnake**—One of the largest and also one of the best shippers. Fruit, oblong, square at the ends; skin, distinctly striped light and dark green; flesh, scarlet and very sweet. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 50c.

**Citron**—This variety grows uniformly round and smooth. It has a handsomely striped and marbled skin of light green. Used only for preserves and pickles, and not for eating in the raw state. Very prolific. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 50c.

—if you are Troubled with Bugs on Your Melons Try Slug Shot; It Kills Them.

**GARDEN LEMON, OR LEMON CUCUMBER.**

The fruit is round, about the size of a baseball, and is produced in the greatest profusion. Used for slicing or sweet pickling as any ordinary variety of cucumber, but it has a flavor peculiarly its own, being crisp and tender, having none of the bitter or acrid taste sometimes found in cucumbers. Of best quality when fruit begins turning yellow. Desirable for use as mangoes. Will be liked by all who try it. Pkt. 10c; oz. 25c; ¼ lb. 60c.

**MELON PEACH.**

Vegetable Orange, or Mango Melon—The fruit are about the size of a large peach, oval shaped and of a bright orange color, somewhat russeted. They are very ripe when they are quite hard and have very little taste, but soon become mellow and sweet and have a rich flavor. When ripe the fruit falls from the vine; the flesh is very firm, with a small cavity in the center, and when peeled and the seeds taken out they resemble golden peaches. For sweet pickling, pies and preserves they are superb; a few pieces of sliced lemon or a little lemon essence adds to their flavor and is usually desirable. Pkt. 10c; oz. 25c; ¼ lb. 60c.
MUSK MELON.

Light soil suits the melon best. Plant in hills about 6 feet apart, mixing a shovelful of rotted manure in each hill. Sow about 12 seeds in each hill and when well started thin out to 3 or 4 plants. Pinch off the strong shoots and the young fruit, if it sets too plentiful, so as to increase the size of the remainder. One ounce to 60 hills; about 3 pounds to the acre.

HUNKEL'S IMPROVED MILWAUKEE MARKET MELON

THE BEST ALL-ROUND MUSK MELON.

This fine new melon made its appearance in the Milwaukee Market a few years ago and has always commanded a much higher price than any other variety. It is a cross between the old Surprise and a Gem Melon. It is the finest home melon and as a market variety it has no superior. It is a green melon with dark salmon flesh, thick, firm and solid, and of a very rich flavor; practically stringless. It is exceedingly productive and very attractive in appearance, medium in size and ripens medium early; in fact it is in our opinion the best all-round musk melon on the market. The stock we offer is the originator's strain. Pkt. 10c; oz. 25c; ¼ lb. 35c; 1lb. $3.00.

HOODOO' MUSK MELON

This new melon has stirred up a lot of interest among melon growers. It is a melon of the "Rocky-Ford" or Netted Gem type, but has orange colored flesh and is much sweeter than the old green-fleshed kind! The melons are oval and of about the same size as Netted Gem. They are thickly netted and the flesh is firm, so that it is a melon that can be shipped long distances and will stand a long time after picking. It is just the size and shape to pack nicely in baskets or crates. If a medium size, yellow flesh melon is wanted for shipping or for home use, this will be found a good one. The flavor is very fine and the vines are prolific and healthy. Pkt. 5c; oz. 15c; ¼ lb. 30c; 1lb. $1.50.

Rocky-Ford, or Netted Gem—An improvement on the old types of Netted Gem. The flesh is light green, very deep and fine grained, and exceedingly sweet. The melons are oval in shape and uniform in size. The strain of seed that we offer originated with the growers of Rocky-Ford, Colo., who are famous the country over for growing the finest melons. Pkt. 5c; oz. 10c; ¼ lb. 30c; 1lb. $1.00.

Princess, or Perfection—One of the best for the home garden. It is round in shape, with a heavy netted dark green skin. The flesh is salmon colored, thick, sweet and luscious. The melons ripen early and grow to good size. Pkt. 5c; oz. 10c; ¼ lb. 30c; 1lb. $1.00.

Nutmeg—Nutmeg shaped; finely netted. Flesh greenish-yellow, rich and sugary. Pkt. 5c; oz. 10c; ¼ lb. 30c; 1lb. $1.00.

BURRELL'S GEM.

The golden fleshed Rocky-Ford. It is about the same size as the Rocky-Ford, but has rich golden yellow flesh instead of green. Flesh is of a most delicious flavor, seeming almost to melt in the mouth, and still so solid as to be a most desirable shipping sort. The seed cavity is very small. The melons average about six inches long, four and one-half inches in diameter and weigh about 2 ½ pounds each; an abundant yielder. Shipments of these melons from Colorado to Eastern markets brought from 50 to 300 per cent more than the best Rocky-Fords. This should insure its popularity with market gardeners who have a "particular" trade and with private gardeners who want melons for their own use which are of exceptionally choice quality. Our seed is very choice. Pkt. 5c; oz. 15c; ¼ lb. 40c; 1lb. $1.40.

Our Musk Melon Seed is saved from perfect melons only and is true to type. It should not be compared with inferior seed offered at low prices where no care is taken to insure trueness of type.
MUSK MELON.—CONTINUED.

HUNKEL’S SELECT OSAGE.

This is without doubt the finest melon ever produced in this country. It is of medium size; oval in form, dark green in color, handsomely netted and slightly ribbed. The flesh is extremely and uniformly thick, of firm texture, rich salmon in color, highly flavored and delicious to the rind. Cavity very small. It is a remarkable keeper and an excellent shipper. 
Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. $1.10.

Paul Rose, or Petoskey—This melon is the result of a cross between the Osage and the Netted Gem combining the sweetness of the former with the fine netting of the latter. Added to this the firm rind, the heavy texture of its flesh, the small seed cavity and its keeping qualities, make it one of the most desirable of all melons. 
Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. $1.10.

Extra Hackensack—This is a selection of the old Hackensack, but it is fully ten days earlier. The melons are round shaped, flattened at the end and very productive. It is an excellent melon for gardeners. 
Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. $1.10.

Hackensack—A green fleshed nutmeg of excellent form. 
Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. $1.10.

Tip Top—This melon is everything that its name implies. It is very handsome in appearance, round in shape and finely netted. It is a yellow fleshed melon of the finest quality; each and every melon grown, large or small, is a good one. It is a quick grower and a heavy yielder. 
Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. $1.10.

OKRA OR GUMBO.

The pods when young are used in soups and stews, or served like asparagus. They can be sliced and hung up in the shade to cure like dried apples; in this condition they can be used for pickling at any time. The ripe seeds are also used as a substitute for coffee. Sow early in spring and transplant to drills about 2 feet apart. 1 oz. to 100 hills.

White Velvet—The pods are perfectly round, smooth and of an attractive white velvet appearance; of superior flavor and tenderness. 
Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 50c.

Dwarf—Early and prolific; short thick pods. 
Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 50c.

PARSLEY.

Parsley thrives best in rich soil. Sow seeds early in spring ½ inch deep, previously soaking the seed in water for several days to help it germinate.

Plain Leaved—Leaves flat, deeply cut but not curled. It is often preferred on account of its very dark color and because of its hardness, but especially because of its superiority for flavoring, while the curled sorts are more extensively used for garnishing. 
Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 50c.

Extra Double Curled—A dwarf, beautifully curled sort. Excellent for garnishing. 
Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 50c.

Champion Moss Curled—A fine English prize winning variety. The leaves are curled and are deep green in color. Very hardy and slow to run to seed. Can be grown in window boxes. 
Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 50c.

Hamburg Rooted, or German Parsley—The root is the edible portion of this variety and resembles a small parsnip both in color and shape. Flesh white, a little dry, and having a flavor similar to celeriac. Foliage same as plain parsley. Very hardy and should be cultivated like parsnip. 
Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 20c; lb. 50c.

CHOICE ONION SETS.

Prices Subject to the Market. Write for Present Prices. Onions should be planted out as early in the spring as the ground is dry enough to work; plant them in rows 1 foot apart, with sets 3 or 4 inches apart in the row. 1 quart to 20 feet of drill.

White Bottoms—Pt. 10c; qt. 20c; (by mail, pt. 15c; qt. 30c); pk. 75c; bu. $2.50. Write for prices in quantity. 

Yellow Bottoms—Pt. 10c; qt. 15c; (by mail, pt. 15c; qt. 25c); pk. 75c; bu. $2.50. Write for prices in quantity.

Red Bottoms—Pt. 10c; qt. 15c; (by mail, pt. 15c; qt. 25c); pk. 75c; bu. $2.50. Write for prices in quantity.

White Top—Early sweet and mild flavored. Bulbs pure white, globe shaped. Pt. 15c; qt. 30c; (by mail pt. 20c; qt. 40c.)

Egyptian, or Winter Sets—This variety is perfectly hardy remaining in the open ground from year to year. 
Pt. 15c; qt. 25c; (by mail, pt. 15c; qt. 25c.)

White Multipliers—Much used for green onions, or can be allowed to ripen off for pickling. White in color, very early and good keepers. 
Pt. 15c; qt. 25c; (by mail, pt. 20c; qt. 35c.)

Garlic—Cultivate same as onions. 
¼ lb. 10c; ½ lb. 15c; lb. 25c; 5 lbs. $1.00. If to go by mail add 10c per lb. to this the firm rind.

Horseradish Sets—Per doz. 20c; 100, 75c. By mail, 5c per doz. for postage.

BEWARE OF CHEAP SEEDS. GOOD SEEDS ARE NOT SOLD AT HALF PRICE.
HUNKEL'S PEDIGREED ONION SEED.

We pride ourselves in supplying the VERY BEST ONION SEEDS that can be produced.

Sow in rich sandy soil, in drills 1 foot apart, as soon as the ground can be worked in the spring. Thin to 3 or 4 inches, using the rake, and hoe frequently to keep down the weeds. The finest Onions are produced by the new method of sowing the seed in hotbeds in February and March, and transplanting the seedlings to the open ground. For this the Southport Globe (White, Yellow, Red) and Prize Taker are preferred. 1 oz. to 100 feet of drill; 5 lbs. to the acre.

HUNKEL'S FANCY YELLOW GLOBE DANVERS.

On the majority of markets in this country the yellow Onion has by far the most sale and for this purpose our Fancy Yellow Globe Danvers Onion supplies the standard of quality. The shape is almost, not quite, globe shaped, and the bulbs are of size with very thin necks. The color is a dark orange yellow; the flesh is pure white, solid and of good quality. Its keeping qualities are of the best. Many of our market growing customers regularly keeping their onions grown from this seed into May and June. This strain is the nearly globe shaped, that it passes for a globe, and its earliness, being several weeks earlier than the Southport Onion, usually permit the planter to realize the high early market prices. The crop is uniform and ripens evenly at one time. Our seed is carefully grown and will please the most critical.

Pkt. 5c; oz. 15c; 2 ozs. 25c; ¼ lb. 40c; lb. $1.40. By express, lb. $1.30; 5 lbs. $6.25.

Yellow Strassburg, or Dutch—Bulbs quite flat, of good size, skin yellow, flesh white, of mild flavor, and keeps well. Used very extensively for growing onion sets. Pkt. 5c; oz. 15c; 2 ozs. 25c; ¼ lb. 40c; lb. $1.30.

Yellow Globe Danvers, Select Stock—The standard sort for market and private gardeners. It grows uniform in shape, is mild flavored and is a very good keeper. The entire crop ripens down at one time. Pkt. 5c; oz. 15c; 2 ozs. 25c; ¼ lb. 40c; lb. $1.30.

Large Red Wethersfield—This is the standard red variety. Large size; skin deep purplish-red; form round, somewhat flattened; flesh, purplish-white, fine grained, and strong flavored. It ripens in September, is very productive and is the best keeper. Pkt. 5c; oz. 15c; 2 ozs. 25c; ¼ lb. 45c; lb. $1.50.

Prizetaker—This is the largest and handsomest onion we have ever known. Some of the bulbs weigh from 4 to 5 pounds. The skin is of a rich golden color while the flesh is white and very sweet and mild. It grows perfectly globe-shaped and has a very small neck. Our seed is American grown. Pkt. 5c; oz. 15c; 2 ozs. 25c; ¼ lb. 45c; lb. $1.50.

Southport White Globe—Handsome, large-sized, globular in form. Skin and flesh a pure white. The demand at all times being fully up to the supply, the grower is well repaid for all expense and labor. To succeed in producing good, pure white Onions, the crop should be pulled just as the stalks begin to fall down, and then allow them to dry off in the open air, keeping them free from rain or dew, which would cause discoloration of the bulbs. Pkt. 5c; ¼ oz. 15c; oz. 25c; 2 ozs. 40c; ¼ lb. 70c; lb. $2.50.

Prizetaker.

Southport Yellow Globe—This variety has the same general characteristics as the Southport White and Red Globe, but yellow in color. It is entirely distinct from the Danvers type. The flesh is white and mild in flavor. It is quite productive and a good keeper. It is a handsome Onion, like all the Southport shapes, and they always command a high price in all markets. Pkt. 5c; oz. 15c; 2 ozs. 25c; ¼ lb. 40c; lb. $1.49.

Southport Red Globe—Same as the yellow with the exception of the color which is a fine red. This variety is very popular on the markets as a red sort. Pkt. 5c; oz. 15c; 2 ozs. 25c; ¼ lb. 40c; lb. $1.40.
ONION SEED—CONTINUED.

White Portugal, or Silver Skin—A large flat onion, of mild flavor and great beauty, its clear white skin glistening like silver. A fine sort to use when young for salad or bunching onion, or for pickles. It is an excellent keeper for fall and winter use. Pkt. 5c; oz. 20c; 2 oz. 50c; ¼ lb. 58c; lb. $2.10.

Ohio Yellow Globe—This is an extra fine selection of the best colored, finest shaped and heaviest yielding bulbs, entirely distinct from the old type Yellow Globe Danvers. It is a hardy, has a smaller neck, is perfectly globe shaped, and is uniform in size and color. Pkt. 5c; oz. 15c; 2 ozs. 25c; ¼ lb. 40c; lb. $1.40.

Hunkel’s Yellow Cracker—The earliest, handsomest and best flat onion in the list. Besides being early it is an excellent keeper. Large in size and of a fine dark yellow color. Pkt. 5c; oz. 15c; 2 ozs. 25c; ¼ lb. 40c; lb. $1.40.

Michigan Yellow Globe—The bulbs are large and uniformly spherical with very small necks; the largest diameter below the center of the bulbs is of a rich orange color. Enormously yielding and splendid keepers. Pkt. 5c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; lb. $1.40.

Australian Brown—Of medium size, wonderfully hard and solid, and most attractive for market, both as to form and appearance. The color of the skin is a clear amber brown, and is widely contrasted from any other onion is this color that it will be noticed on the market, and when once bought, customers will be likely to return and ask for these “beautiful brown onions.” Pkt. 5c; oz. 15c; 2 ozs. 25c; ¼ lb. 40c; lb. $1.30.

White Bunching (White Lisbon)—An extra early variety maturing large snowy white onions of very fine quality long before other sorts are ready. While it is not a good keeper it is unsurpassed for early bunching or using green. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. $1.40.

Hunkel’s Silverskin Pickling—A splendid pickling onion of quick growth and good keeping qualities. By sowing the seed early in spring and again in July, two crops can be harvested. Sow seed thickly to produce nice hard onions. Very uniform in size and very tender; an excellent sort to use for bunching. The bulbs are pure white and do not turn green if exposed to the sun. Pkt. 5c; oz. 20c; 2 ozs. 50c; ¼ lb. 58c; lb. $1.18.

White Silver—A very white skinned variety of special value for pickling. If seed is sown out of doors in spring it will produce bulbs about an inch in diameter, maturing very early. If these bulbs are set out the following spring, or if plants are grown under glass in winter and set out in the spring, they will produce large onions. Pkt. 5c; oz. 15c; 2 ozs. 25c; ¼ lb. 40c; lb. $1.50.

Hunkel's Silverskin Pickling.
**PEAS.**

**SEED PEA CROP ALMOST TOTAL FAILURE.**

**ORDER EARLY.**

One Qt. to 100 Feet of Drill; Two Bushels to Acre in Drills—While almost any soil will produce good peas like most other vegetables, they require liberal treatment and careful cultivation. Well-rotted stable manure and bone meal make excellent fertilizers for this crop. Deep plowing is of greatest importance. For early pea plant as soon as ground can be worked, in light, well-drained soil and a sunny exposure. For main crop a heavier soil may be selected. They are usually planted in double rows, about 4 feet apart, and 3 inches deep. Bush those that require it, when 6 inches high. The wrinkled varieties are not as hardy as the smooth sorts, and should be sown later.

*Our seed peas are all grown far north, thoroughly rooded, and carefully handpicked; they are raised only from the finest strains.*

**GRADUS, OR PROSPERITY.**

This fine extra early combines the finest quality with extreme earliness, and is also very productive. It is very hardy and can be planted as early as the smooth peas; grows vigorous and healthy; vines 3 feet in height, very prolific, bearing pods fully as large as the Telephone. The color of the shelled peas is a beautiful light green, which color they retain after being cooked. The quality and the flavor is delicious, and the peas remain sweet and tender for a long time. Pkt. 10c; pt. 25c; (by mail 33c); qt. 45c; (by mail 60c); ½ pk. $1.50; pk. $2.25; bu. $10.00.

**THOMAS LAXTON.**

The New First Early Large-Podded Pea.

This fine new early pea was raised by crossing "Gradus" with a very early seedling of the "Earliest of All" type. It is a wrinkled narrow with a good constitution. In earliness it is within a day or two of "Earliest of All", but pods contain on the average 7 to 8 very large peas of the richest flavor. The height is from 2 to 3½ feet. As an early we consider this as the **finest early pea** ever introduced and likely to supersede that fine early pea, "Gradus," being earlier, hardier in combination and darker color. It is a reliable market gardener's as well as private gardener's peas. Pkt. 10c; pt. 25c; (by mail 33c); qt. 45c; (by mail 60c); ½ pk. $1.60; pk. $2.75; bu. $10.00.

---

**Gradus or Prosperity.**

**Extra Early Mound 8—This is the earliest of all extra early peas.** A fine yielder of fair quality; the pods ripen at one time so that generally the whole crop may be gathered at one picking. Pods 2½ to 3 inches long; 5 to 7 peas in a pod. Vines about 20 to 26 inches in height. This pea is a great favorite with market gardeners and growers of peas in quantity. There are many strains of this variety sold under various names of which we give a few of the leading ones: Pedigree Extra Early, First and Best, Philadelphia Extra Early, Rural New Yorker, Daniel O'Rourke, etc. Our strain is as nearly perfect as many years of selection can make it. Pkt. 5c; pt. 15c; (by mail 25c); qt. 25c; (by mail 40c); ½ pk. 50c; pk. $1.50; bu. $5.50.

**Alaska**—The earliest blue Pea. The dark green color of the pods makes it desirable, as it can be carried long distances without losing color, combined with its earliness and uniformity in ripening, makes it a most desirable sort. The vines grow from 20 to 30 inches high and are covered with well filled pods. Pkt. 5c; pt. 15c; (by mail 25c); qt. 25c; (by mail 40c); ½ pk. 50c; pk. $1.50; bu. $5.50.

**American Wonder**—A very fine extra early variety well suited for garden purposes. The flavor and the quality of the Peas is excellent; its dwarf habit making it a desirable sort. 2½ feet high. It is a heavy yielder, producing large quantities of good sized and well filled pods. Pkt. 5c; pt. 15c; (by mail 25c); qt. 25c; (by mail 40c); ½ pk. 50c; pk. $1.50; bu. $5.50.

**Nott's Excelsior**—The sweetest and most prolific of all the early dwarf Peas. It is an improvement on the American Wonder, being as early and bearing larger and more plentiful pods. These pods are about 3 inches long and each contain 6 to 8 large Peas of a very fine flavor and very tender. 14 inches. Pkt. 5c; pt. 20c; (by mail 25c); qt. 25c; (by mail 50c); ½ pk. $1.25; pk. $2.25; bu. $5.00.

**New Surprise**—The earliest of the wrinkled sorts, and fully as early as the smooth varieties, to which it is far superior in the regard of its quality. The vines grow about 2 feet high and are enormously productive, bearing many pods, which are filled with deliciously sweet peas, which while not as large as the American Wonder, are fully its equal in quality; matures earlier, and is more productive. Pkt. 5c; pt. 15c; (by mail 25c); qt. 25c; (by mail 40c); ½ pk. $1.00; pk. $1.90; bu. $7.00.

**Little Gem**—An early dwarf green Pea of superior flavor, wrinkled, 18 inches high. Very prolific. Pkt. 5c; pt. 20c; (by mail 25c); qt. 25c; (by mail 50c); ½ pk. $1.25; pk. $2.25; bu. $5.00.

**Premium Gem**—An improvement on the Little Gem, the pods being better filled. Pkt. 5c; pt. 20c; (by mail 25c); qt. 25c; (by mail 40c); ½ pk. $1.35; pk. $2.25; bu. $8.00.
PEAS—CONTINUED.

Dwarf Telephone, or Daisy—The most productive of all large podded dwarf Peas. Vines grow about 16 inches high and are dwarf, stocky and hard; give a large crop of well filled pods. The pods average 5½ inches in length, and contain 7 to 9 peas of light green color, which are very tender and sweet if gathered young. Pkt. 5c; pt. 20c; (by mail 25c); qt. 35c; (by mail 50c); ½ pk. $1.25; pk. $2.25; bu. $5.50.

Horsford’s Market Garden—A great favorite with market gardeners. Pods are large, well filled and of a very good color. Peas of very good quality and sweet. 2 feet. Pkt. 5c; pt. 15c; (by mail 25c); qt. 30c; (by mail 45c); ½ pk. $1.00; bu. $7.00.

Improved Stratagem—An improvement on the old Stratagem, which was a poor yielder. This new strain has all the good qualities of the old and is a heavy yielder. The vines grow strong and vigorous; pods are of immense size, well filled with large dark green peas of the finest quality. 2 feet. Pkt. 5c; pt. 15c; (by mail 25c); qt. 30c; (by mail 45c); ½ pk. $1.00; pk. $1.50; bu. $7.00.

Champion of England—A popular wrinkled variety, of delicious flavor, profuse bearer. Peas are large and very tender, 5 feet. Pkt. 5c; pt. 15c; (by mail 25c); qt. 30c; (by mail 45c); ½ pk. $1.00; pk. $1.50; bu. $7.00.

Improved Telephone—True Stock. The market gardener’s favorite sort. Immensely productive, and of the finest quality. Vines very strong, averaging 18 to 20 pods per stalk; pods of large size, containing 6 to 7 peas each, which are well filled, quite green and are closely packed in the pod, and are of the most delicious flavor. 3½ feet. Pkt. 5c; pt. 20c; (by mail 25c); qt. 40c; (by mail 50c); ½ pk. $1.25; pk. $2.25; bu. $5.50.

Dwarf Grey Sugar (Edible Pods)—A variety of Pea, the pods of which have not that tough lining common to other varieties, therefore can be cooked and eaten same as beans. 2 feet high. Very prolific. Pkt. 5c; pt. 20c; (by mail 25c); qt. 35c; (by mail 50c); ½ pk. $1.10; pk. $2.00; bu. $7.50.

White Marrowfat—A fine variety for soups, used in dry state. Large, broad, pods filled with large, smooth cream colored peas of excellent quality. 5 feet. Pkt. 5c; pt. 15c; (by mail 25c); qt. 25c; (by mail 40c); ½ pk. $0.75; pk. $1.50; bu. $6.50.

Black-Eye Marrowfat—An old standard market variety. Not as sweet as the wrinkled peas, but more hardy. 4 feet. Pkt. 5c; pt. 15c; (by mail 25c); qt. 25c; (by mail 40c); ½ pk. 70c; pk. $1.25; pk. $4.50.

Field Peas—See Farm Seed Department.

Hunkel’s Improved Telephone. Sow in hotbeds or house in March, and when the soil has become warm, set in rows 2 feet apart and 18 inches in the rows. Hoe frequently. 1 oz. to 1000 plants.

Chinese Giant—A magnificent new variety, the largest and finest Pepper in cultivation. The plant is about two feet high, of strong, vigorous growth, stocky, and hard, and ripens its fruit earlier than the Ruby King. The fruit averages 4 inches in diameter, and is of a bright glossy scarlet when ripe. The flesh is unusually thick and very mild, having none of the pungency of most of the older varieties. The immense size of the fruit and its brilliant color render it very attractive. Pkt. 10c; ½ oz. 20c; oz. 50c; 2 ozs. 90c; ½ lb. $1.00; lb. $3.50.

Sweet Mountain—Strong grower, very productive and excellent quality, the peppers are a deep green when young, but become a fine red when ripe. The flesh is thick, sweet and mild. Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. $2.00.

Large Bell, or Bullnose—A very large sort of inverted bell shape, suitable for filling or for mixed pickles. Flesh thick, hard and less pungent than most other sorts. Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. $2.00.

Ruby King—The fruit is large and of a ruby red color, and is so very mild that it is often eaten raw like tomatoes. The best for stuffed pickles. Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. $2.10.

Long Red Cayenne—Pods are about 3 to 4 inches long, beautiful red when ripe, and are very hot and pungent. Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. $2.00.

Sweet Spanish—A large and early variety, flesh sweet and mild. Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. $2.00.

Golden Dawn—A beautiful variety, similar in size and shape to the Bull Nose, but altogether different in color, being a beautiful golden yellow. Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. $2.00.

SORREL (Sauerampfer.)

Bread Leaved—Sorrel is cultivated for its leaves which possess a very fine flavor; boiled and served like spinach. It also makes a delicious soup. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. $1.00.

Quality is the first point we consider in HUNKEL’S Seeds. Our constant endeavor is to furnish the best and the best only. It costs more to raise good seeds than poor ones. Care and selection cannot be practiced without cost. Our seeds may cost more money than some others—however, good seeds cannot be bought for less than we sell them. People who try, find out the truth of this statement by bitter experience.
CHOICE SEED POTATOES.

ALL PRICES SUBJECT TO CHANGE.

With no other seed is the importance of a change more essential than with the Potato. We offer Fancy Northern Grown Stock, well selected, hand picked and treated for scab. No potatoes grown can compare with Northern grown seed either for vigor, early maturity, increased yield, freedom from disease and long keeping qualities.

We offer only a few varieties which have become standard sorts and have proven to be the best varieties grown.

We book orders at any time, and fill in rotation just as soon as the weather will permit, except at the risk of purchaser. At prices named we make no charge for bags, boxes, barrels, or drayage.

To avoid delay, when ordering late in the season, it would be well to mention your second choice, provided we should be sold out of variety ordered.

At the pound price we send by mail prepaid; at peck and bushel rate, they are sent by freight or express at expense of purchaser.

Pound prices. All varieties at 25cts per lb., postpaid.

EXTRA EARLY OHIO.

Some early varieties will yield edible potatoes about as soon as the Extra-Early Ohio, but their tops will be green for days after the Extra-Early Ohio have fully ripened. The Extra-Early Ohio is fully two weeks ahead of the earliest potato, and is a general favorite with potato growers and marketmen alike, and the most profitable potato they can possibly grow. The sprouts are very strong, the vines grow erect, and are easy to cultivate; maturing early, it brings the highest prices, and the land can be used for another crop after it; does well on any soil suitable for potatoes. The tubers are compact in the hill, are easily dug, with very few small ones—nearly every potato is of marketable size; has few eyes, which are even with the surface. With heavy manuring, CLOSE PLANTING, and good culture, a very large and profitable crop can be expected—300 to 500 bushels per acre is not an unusual yield.

Our stock is grown in the RED RIVER VALLEY, which is famous for its fine Potatoes. The greatest care is taken in the selection of Potatoes for seed and the result is that every one is a picture of what the EARLY OHIO SHOULD BE. We know that no earlier, purer or more handsome stock of Early Ohio can be found anywhere. ½ pk. 30c; pk. 50c; bu. $1.50; 2½ bu. $3.50.

EARLY WHITE OHIO.

The standard early white Potato. Identical in every way with the Early Red Ohio, except in color, which is a fine white. It is just as early as the Red Ohio, its quality is just as good and it yields better. It is the best sort where the market demands a white variety. Our stock is Red River grown and is very choice. ½ pk. 30c; pk. 50c; bu. $1.50; 2½ bu. $3.50.

EXTRA EARLY SIX WEEKS.

Probably the earliest Potato in existence, and the most popular on account of its reliability under all conditions. It is of medium size, smooth and oblong; skin pink, flesh white. Potatoes are fit for table use in six weeks from the time of planting, and are fully matured in ten or fourteen weeks, ½ pk. 30c; pk. 50c; bu. $1.50; 2½ bu. $3.50.

BLISS EARLY TRIUMPH.

One of the earliest potatoes grown. It may be ready to dig a week before the Extra Early Ohio and is very productive. The tubers are of good size, squared at the ends. The skin is red; flesh is very white and firm. For many years past it has been the most popular variety in the southern states and Bermuda, and hundreds of carloads are shipped to the northern markets and bring fancy prices. It is a vigorous grower and we cannot recommend it too highly for the first early market or for family use, especially in the south. Our stock is selected Northern Grown. ½ pk. 30c; pk. 50c; bu. $1.50; 2½ bu. $3.50.

SIR WALTER RALEIGH.

A grand new potato, quick maturing main crop variety. Of best keeping qualities and rare productiveness.

A new white skin main crop potato. It is a splendid potato, much resembling Rural New Yorker No. 2, of which it is a seedling. It is decidedly better than its parents, the tubers being quite uniform in size, with but few small ones among them. It is from 4 to 6 days later than the parent stock. The color is the same, the skin and flesh being white. In fact it can be justly claimed for Sir Walter Raleigh that it is the whitest fleshed and finest potato on the whole list of main crop sorts, not even excepting the snowflakes. It promises to supersede all other sorts of its class on account of its sterling excellence. ½ pk. 20c; pk. 35c; bu. $1.25; 2½ bu. $2.85.

CARMAN NO. 3—THE BEST MAIN CROP POTATO.

The fame of this potato is abroad in the land, and it is unquestionably the very best main crop potato on the market. All the Carmen Seedlings (originated by Dr. Elbert S. Carmen, late editor of the Rural New Yorker) have proven popular, but the Carmen No. 3 is already rivaling in popularity the Burbank, and is undoubtedly a much better potato. Without any exception whatever it is the GREATEST YIELDING POTATO ever introduced, and it may be fairly claimed that it does not yield any small tubers at all. The tubers are borne very close to the plant, a single turn of the fork turning out every potato. It is of large size and of the shapeliest form. Eyes are few and shallow. It is a perfect keeper, and is not surpassed as a table variety. Skin and flesh are of extreme whiteness. It has no hollow hearts or any dark parts. ½ pk. 20c; pk. 35c; bu. $1.25; 2½ bu. $2.85.

If larger quantities are wanted than those listed, write to us and we shall gladly quote you special prices.

Use Hammond's Slug Shot for Potato Bugs. It Kills Them. Lb. 10c; 5 lbs. 30c; 10 lbs. 50c.
SEED POTATOES—CONTINUED.

VERMONT GOLD COIN.

The hardest, most vigorous in growth, most productive, and the best in table quality of all potatoes. It has proved to be absolutely unequaled for main crop.

The vines are strong, with exceptionally LUXURiant DEEP GREEN FOLLAGE, making a healthy growth when other varieties are cut down by blight. The tubers are of good size and lie closely together in the hill. In forcing the tubers are large, rather broad and quite thick through. SEE ILLUSTRATION. The eyes are small and there is but little waste in paring. The skin is thin, smooth, and glossy, OFF A LIGHT GOLDEN TINT, having just sufficient coloring to distinguish it from the white-skinned varieties. The flesh is fine grained, of a PURE PEARLY WHITENESS, AND COOKS TO A DRY FLOURY WHITENESS. Unlike most of the main-crop or late sorts, which need to be well dried out before they will cook properly, these new VERMONT "GOLD COINS," even when freshly dug, cook dry and mealy. Its vigorous growth and great productiveness make it the most profitable variety for the planter, and its great solidity, smooth regular form, and unequalled table quality will make it the MOST POPULAR AND QUICKEST SELLING ON MARKET. ½ pk. 30c; pk. 50c; bu. $1.40; ½ bu. $3.25.

RURAL NEW YORKER NO 2.

So well known the country over as to need no description here. Largely planted as a main crop variety and never failing to bring the top of the market if properly grown. It belongs to a very distinct class in which the vines are long, spindling, with dark purple stalks, dark when leaves and purple blossoms. Tubers are large, nearly round, flattened, of uniform size, with very smooth, white skin, and numerous in the hill. Very attractive. We have found that this potato is apt to grow too large, and to be hollow. This can be overcome by using plenty of seed, thus crowding the potatoes in the hill. In fact a person who thoroughly understands this potato, can grow it almost any size he wishes. It keeps well, never gets scabby, and is at its best for eating in June and July after other potatoes are gone. ½ pk. 20c; pk. 50c; bu. $1.25; ½ bu. $2.50.

PUMPKIN.

May be planted middle of spring, among corn or in the field or in the garden, in hills 4 or 10 feet apart each way, 4 seeds in a hill. In other respects cultivated same as melons and cucumbers. Avoid planting near other vines. 1 oz. to 30 to 50 hills; 3 to 4 lbs. to the acre.

Hunkel’s Sugar Pie—The best of all a PUMPKIN for pies. The fruit is small in size, but the seed cavity being very small there is a good deal of solid and very fine flesh present. Excellent keepers. Pkt. 5c; oz. 10c; ½ lb. 50c; lb. 60c.

Large Cheese—Fine for pies; an excellent keeper, of large size, shape flat, like a cheese box; very productive; flesh yellow, sweet, fine grained and rich flavored. Is also grown for stock feed. Pkt. 5c; oz. 10c; ½ lb. 20c; lb. 60c.

Small Sugar—An excellent small, round pumpkin, with deep orange colored skin, and a very sugary flesh. Pkt. 5c; oz. 10c; ½ lb. 20c; lb. 60c.

Small Sugar.

Kentucky Field—A very hardy and productive sort. Fine for pies and cooking purposes. Also grown for stock. Pkt. 5c; oz. 10c; ½ lb. 20c; lb. 60c.

Large Field, or Big Tom (Connecticut)—A very hardy and prolific sort usually grown for stock, but excellent for pies. The fruit averages 15 to 20 inches in diameter and is hard and smooth. The skin is reddish-orange colored, while the flesh has a fine yellow tint to it. Our seed is extra fine and should not be compared with the cheap seed sometimes offered. Pkt. 5c; oz. 10c; ½ lb. 15c; lb. 40c.

Winter Queen or Luxury—One of the best pie pumpkins. It is about 9 or 10 inches in diameter. It is a beautiful deep orange in color, with a very close netting. It is a good winter keeper. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 70c.

Mammoth Prize—Both skin and flesh of a bright golden color. Flesh fine grained and of excellent quality. Though a very large pumpkin, it is a good sort for pies and is also a good keeper. Some of this variety have been grown to weigh 200 pounds. Pkt. 5c; oz. 15c; ¼ lb. 50c; lb. $1.75.

RHUBARB OR PIEPLANT.

Sow in drills one foot apart early in spring. In the fall or following spring transplant to 3 feet apart both ways. Do not cut until three months, and do not let plant run to seed as it will injure vitality. Rich soil suits them best and a good manuring every fall will help wonderfully. One ounce will produce about 800 plants.

Mammoth Red—The most productive sort known. The stalks are numerous, many of them measuring 15 inches in length and 1½ inches in diameter. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. $1.25.

Rhubarb Roots—15c each; $1.50 per dozen, postpaid. By express, dozen $1.00.
RADISH.

Radishes do best in a light, sandy soil. For a successive supply sow from the middle of March until September, at intervals of 2 or 3 weeks. Sow in rows 8 to 10 inches apart. Can also be sown in hotbed for early supply. 1 oz. to 100 feet of drill; 8 to 10 lbs. to the acre in drills.

HUNKEL’S IMPROVED EARLY SCARLET GLOBE SELECT STOCK.

A desirable sort for forcing and outdoors; very early; mild, crisp, juicy and tender; will stand heat without becoming pithy. Our stock of this is the very best, selected with special care as to its shape, size, color and earliness, and market gardeners will find it a money maker as it is just right in every respect. The roots are oval in shape and a rich scarlet in color; the flesh is crisp, tender, juicy and mild. The amount of its foliage is small compared with other varieties and small for the size of the Radish. Equally as good for open garden culture as for forcing and therefore commends itself to the amateur as well as the market gardener. Pkt. 5c; oz. 10c; % lb. 25c; lb. 70c, postpaid. By express, lb. 60c; 5 lbs. $2.75.

HUNKEL’S SPARKLER RADISH.

A new extra early white-tipped round radish. It is a distinct variety as it is about two-thirds scarlet and one-third white. A rapid grower and does not become pithy, remaining solid and crisp a long time. Well adapted for either forcing or for the open ground culture. It endures heat very well and will do better in the field in the hot summer than any other variety. We recommend it as a first class variety. Our seed comes direct from the originator. Pkt. 5c; oz. 10c; % lb. 25c; lb. 70c.

HUNKEL’S “20-DAY” RADISH.

Quick growth is one of the main essentials for a crisp and tender radish. Our “20 Day” Radish is the quickest. It is a short variety and very mild. The flesh is pure white, crisp and of very pleasant flavor; the skin is a most attractive scarlet. It is olive shaped and has very short leaves, thus permitting very close planting. Pkt. 5c; oz. 10c; % lb. 20c; lb. 65c.

Early Scarlet Turnip, White Tip (Rosy Gem)—One of the most handsome turnip radishes and a great favorite for early outdoor planting. The roots are slightly flattened, color deep scarlet with a white tip, being very crisp and tender. Pkt. 5c; oz. 10c; % lb. 20c; lb. 65c.

Olive Shaped Deep Scarlet—A small, very early olive shaped radish of rich brilliant scarlet color. It is of good appearance and is of mild flavor, with crisp flesh. Pkt. 5c; oz. 10c; % lb. 20c; lb. 60c.

Long White Vienna, or Ladyfinger—One of the finest of the long white radishes; snow white, very brittle and crisp, of beautiful shape and rapid growth. Pkt. 5c; oz. 10c; % lb. 20c; lb. 55c.

White Strassburg, or Hospital—Flesh pure white, tender, crisp and of pleasant taste. It is a large, medium long sort, with heavy shoulders tapering gradually to the base. Skin pure white. Pkt. 5c; oz. 10c; % lb. 20c; lb. 55c.

Icicle—Almost as early as the forcing radishes. Roots of pure snowy, almost transparent whiteness, 4 inches in length and ½ inch in diameter; they retain their crispness and fresh, mild flavor a long time. They are slenderly tapering with very few small leaves. Pkt. 5c; oz. 10c; % lb. 20c; lb. 60c.

GIANT WHITE STUTTGART—Roots large, often 4 inches in diameter, top-shaped; skin white; flesh white and crisp, and not becoming pithy until very late, so that those not used as a summer radish, can be stored for winter use. Pkt. 5c; oz. 10c; % lb. 20c; lb. 55c.

White Munich—The German Beer Radish. The excellence of this radish is found in the quite pronounced but nevertheless agreeable pungency of its flavor. It is very crisp and tender, has an extremely smooth and fine grained skin with no tendency to throw out side shoots. Its form is a tapering oval and it grows to a very large size. It is suitable for forcing and outdoor cultivation. Pkt. 5c; oz. 10c; % lb. 25c; lb. 55c.

White Summer Turnip—Skin and flesh pure white; shape indicated by its name. Excellent for forcing use. Pkt. 5c; oz. 10c; % lb. 20c; lb. 55c.

Yellow Summer Turnip—A large sized turnip shaped variety; skin yellowish; flesh white, very crisp and mild. Stands heat and drought of summer well. Pkt. 5c; oz. 10c; % lb. 15c; lb. 50c.

Gray Summer Turnip—An excellent variety for summer use. Skin gray in color; flesh white, very crisp and tender. Pkt. 5c; oz. 10c; % lb. 20c; lb. 60c.

Mixed Radishes—In sowing these radishes the advantage is that one sowing will produce early, medium and late Radishes, of both long and turnip shape. Oz. 5c; % lb. 15c; lb. 40c.

RADIISH—continued.

WINTER RADISHES.

Long Black Spanish—A leading winter variety and one of the best keepers. The roots are cylindrical, 7 to 10 inches long; skin blackish-brown; flesh white and firm. Pkt. 5c; oz. 10c; $1.10.ub. 20c; lb. 55c.

Round Black Spanish—This is the large black skinned radish, much relished by the Germans. The skin is almost black; flesh is white and firm, and of a peculiar rich, delicious flavor. Pkt. 5c; oz. 10c; $1.10.ub. 20c; lb. 55c.

Rose, or Scarlet China Winter—This variety is becoming very popular. It is of half-long shape, rose-colored, and flesh as solid as an apple. It has not that strong flavor of the Black Spanish; keeps well. Pkt. 5c; oz. 10c; $1.10.ub. 20c; lb. 55c.

California Mammoth White Winter—Roots grow 8 to 12 inches long and 2 to 3 inches in diameter; flesh white, solid and of excellent flavor. This is the largest of all the radishes. Pkt. 5c; oz. 10c; $1.10.ub. 20c; lb. 60c.

Long White Spanish Winter—White skin and flesh; keeps well. Pkt. 5c; oz. 10c; $1.10.ub. 20c; lb. 60c.

PARSNIP.

Sow as early in the spring as the ground can be worked, in rich soil, in drills 15 inches apart. The ground should be well and deep dug. Thin to 6 to 8 inches in the rows. Hoe and cultivate often to keep down weeds. The roots will be improved by frost and can be left in ground over winter. 1 oz. to 200 feet of drills; 5 to 8 pounds per acre in drills.

Long Smooth, or Hollow Crown—(Abbott’s Improved)—The old standard, and one of the best for general farm use and for home or market purposes. Long, smooth, tender, and sugary; very hardy; will keep throughout the winter with very little protection. Pkt. 5c; oz. 10c; $1.10.ub. 20c; lb. 45c.

Improved Guernsey—This improved fine strain of Guernsey Parsnip is substantially a table variety. The roots do not grow long as the Hollow Crown, but are of a greater diameter, and more easily gathered. It is a very heavy cropper; the roots are smooth, about twelve inches in length, and with a very deep hollow crown and small top. The flesh is very fine grained and sweet all the way through, and of excellent quality. Pkt. 5c; oz. 10c; $1.10.ub. 20c; lb. 50c.

SALSIFY—Vegetable Oyster, or Oyster Plant.

A delicious vegetable. Cut into small pieces, it makes a fine soup, like that from oysters. It is also parboiled, grated fine, made into small balls, dipped in butter and fried; also cooked whole like parsnips. The taste is the same as oysters; it is almost impossible to note any difference. Culture same as for parsnips.

Mammoth Sandwich Island—An improved type of this excellent vegetable. It produces roots of nearly double the size and weight of the old variety and of equal as good quality. It is tender and delicious, and resembles a good sized parsnip. Pkt. 5c; oz. 10c; $1.10.ub. 20c; lb. 45c.

Sorzonera, or Black Salsify—Same as the white with the exception of the skin which is black. Pkt. 5c; oz. 10c; $1.10.ub. 20c; lb. 50c.

SPINACH.

For summer sow, at intervals of 2 to 3 weeks from April to August, and for winter crops sow in September, covering it, in exposed places, with straw to protect it from the frost. Spinach succeeds best in rich soil. 1 ounce to 100 feet of drill; 10 lbs. to the acre in drills.

Blumdale, or SavoY Leaved—The leaves are remarkably thick and blistered, extremely hardy, and do not settle in the table variety. The roots do not grow long as the other varieties. Our strain of this popular sort is secured from one of the largest growers, and is sure to please. Oz. 5c; $1.10.ub. 20c; lb. 50c. By express, lb. 20c; $1.30.ub. 20c; lb. 50c.

Victoria—The foliage is heavy, the leaves are broad and dark green, and of the finest quality. The main feature that makes this sort so valuable, is that it is in its prime condition two or three weeks after all the other varieties have run to seed. Oz. 5c; $1.10.ub. 20c; lb. 50c. By express, lb. 20c; $1.30.ub. 20c; lb. 50c.

Large Round Leaved—The main market sort. The leaves are thick and very tender. Oz. 5c; $1.10.ub. 20c; lb. 50c. By express, lb. 20c; $1.30.ub. 20c; lb. 50c.

Victoria Spinach.

Large Virolay—The Market Gardener’s Favorite for Fall or Spring Sowing. This splendid variety is the favorite sort in this country. It produces very large and thick green leaves that are crumpled, and has the valuable characteristic of remaining a very long time in salable condition. Is equally good for Spring or Fall sowings. It is just as good for home use as it is for the market. Oz. 5c; $1.10.ub. 20c; lb. 50c. By express, lb. 20c; $1.30.ub. 20c; lb. 50c.

A FINE LAWN CAN BE EASILY MADE BY SOWING HUNKEL’S “MILWAUKEE PARK” LAWN SEED.
TOMATO.

Sow in hot bed or window box in early spring. Transplant to the open ground when all danger of frost is past, setting the plants 3 or 4 feet apart each way. Fruit may be had several weeks earlier by sowing seed quite early and transplanting to small pots and later transplanting out to where they are to remain. 1 oz. to 1500 plants; ¼ lb. to acre.

HUNKEL'S CREAM CITY TOMATO.

The First Large Tomato to Ripen. Very Fertile.

This is one of the very first large Tomatoes to ripen, coming in about a week ahead of Acme. Smooth, always round and good first size. The color is purplish crimson, similar to Acme. Flesh is very thick, firm and solid, with few seeds. Good shipper, does not crack nor rot. Tomato experts consider it most profitable for the market gardener or trucker and unsurpassed for canning. Pkt. 10c; ¼ oz. 15c; oz. 25c; 2 ozs. 40c; ¼ lb. 75c; lb. $2.50.

JUNE PINK.

This may briefly be described as a pink Sparks' Earliana. The plant is of neat, compact growth, branching freely, with fruit hanging in clusters of 6 to 10 fruits. Ripens fully as early as the Earliana, about ten days earlier than most of the early sorts. Fruits are of medium size, smooth, without cracks or green cores. Skin is tough, thus making it a good shipper. Color is a bright, pleasing pink, and where the pink varieties are in favor it will bring readily 25 per cent higher price than the red sorts. A continuous bearer until cut off in fall by frost. Pkt. 10c; ¼ oz. 15c; oz. 25c; 2 ozs. 40c; ¼ lb. 80c; lb. $2.15.

HUNKEL'S EARLIEST ON EARTH.

We consider this to be the earliest Tomato that has ever been introduced. It is sure to ripen in 78 days under general conditions, and in about 66 days under special care, thus stamping it as the earliest of all tomatoes known. It is ripe and sold at a high price before the other sorts begin to ripen. We advise everybody to try it. It is of medium size, perfectly smooth and of a delightful quality. The color is a beautiful bright red. Pkt. 10c; ¼ oz. 15c; oz. 25c; ¼ lb. 90c; lb. $3.00.

EARLIANA.

The Earliest, Large, Smooth, Red Tomato. This Tomato is not only remarkable for its earliness, but for its very large size, handsome shape and bright red color. Its solidity and fine quality are quite equal to the best medium and late sorts. The plants are very compact, with stout jointed branches, nevertheless it is enormously prolific. The very finest for the northern market and home garden. In many localities it is now planted almost exclusively. Our seed is selected. Pkt. 10c; ¼ oz. 15c; oz. 25c; 2 ozs. 45c; ¼ lb. 80c; lb. $2.75.
TOMATO—CONTINUED.

LIVINGSTON’S NEW GLOBE.

The fact that this is another new Tomato, originating with the Livingstons, of world-wide Tomato fame, will be sufficient to warrant most growers of fine Tomatoes to give it a liberal trial. It is of beautiful globe shape, with quite a percentage of elongated (stem to blossom) fruits, which permits of a greater number of slices being taken than with flat-fruited sorts. Among the very first to ripen, although of large size, very smooth, firm fleshed, few seeds, ripens evenly; color a beautiful glossy rose, tinged purple. Flavor very delicate and agreeable; splendid slicing variety. The fruit is borne on short jointed, branching plants in great abundance—literally loaded with fruit. A good general cropper, and one of the very best for greenhouse growing or first early crop on stakes or trellis. An entirely distinct and fixed new sort. Every grower of Livingston’s New Globe, whether he grows for private or market purposes, will be pleased with the beautiful and attractive globe shaped fruit. Pkt. 10c; ½ oz. 15c; oz. 30c; ¼ lb. 90c; lb. $3.00.

Atlantic Prize—Fruits are borne in large clusters; ripens very evenly, and among the earliest. Color, bright red. A favorite among gardeners. Pkt. 5c; ½ oz. 12c; oz. 20c; 2 oz. 50c; ¼ lb. 65c; lb. $2.00.

Early Michigan—A very fine variety for general market, or family use. The vines are large, with dark green leaves, vigorous and very productive; fruit is good sized, growing larger as the season advances; perfectly smooth; solid, but without core; deep, rich red color; and of excellent flavor. Well suited for canning purposes. Pkt. 5c; ½ oz. 12c; oz. 20c; 2 oz. 50c; ¼ lb. 65c; lb. $2.25.

New Stone—The best and handsomest tomato, ripening for main crop. It is of bright scarlet color, very smooth; ripening evenly to the stem without cracking; flesh solid and firm, and of the best quality; not subject to rot. Pkt. 5c; ½ oz. 12c; oz. 20c; 2 oz. 50c; ¼ lb. 50c; lb. $1.50.

Ponderosa—This is the largest fruitsed Tomato and is fine for slicing. The vines are of strong growth; fruits largely oblong in shape, deep through, and generally ridged or ribbed; deep purple in color. Flesh very solid and of fine flavor; very small seed cells. Fruits often attain the weight of 1 pound or more. Pkt. 5c; ½ oz. 15c; oz. 25c; ¼ lb. 50c; lb. $3.00.

Ace—A favorite everywhere, being one of the earliest and handsomest. Of medium size, very smooth and regular in shape; solid, of good quality and a good bearer; color, rich glossy crimson, tinged with purple. Pkt. 5c; ½ oz. 12c; oz. 20c; 2 oz. 50c; ¼ lb. 65c; lb. $1.80.

Beauty, Livingston's—Another sort of great merit. Early, of smooth form, free from rot, keeps and ships well. In color, a rich glossy crimson. It is very valuable for the market, being very solid and having a tough skin, and from the fact that it ripens up well even when picked green. Pkt. 5c; ½ oz. 12c; oz. 20c; 2 oz. 50c; ¼ lb. 50c; lb. $1.80.

Dwarf Champion—This variety is dwarf and compact in habit; stands up well, even when loaded down with fruit; having a stiff, bushy stem, can be planted close together; very hardy. It is always smooth and attractive in appearance; the skin is tough and the flesh solid and of fine quality. Pkt. 5c; ½ oz. 15c; oz. 25c; 2 oz. 45c; ¼ lb. 70c; lb. $2.25.

Golden Queen—The largest and handsomest yellow Tomato. Of superior quality and fine for table. Pkt. 5c; ½ oz. 12c; oz. 20c; ¼ lb. 65c; lb. $2.25.

SMALL FRUITED TOMATOES.

FOR PICKLES, PRESERVES, ETC.

Yellow Plum—Recommended especially for pickles and preserves. The fruit is uniformly oval, yellow colored and smooth skinned. Pkt. 5c; ½ oz. 15c; oz. 25c; 2 oz. 45c; ¼ lb. 70c; lb. $2.25.

Improved Ground Cherry, or Husk Tomato—Grows enclosed in a husk, excellent for preserves; will keep within husks all winter. The fruits are small and yellow in color, and are very sweet; resembling the strawberry in taste. Pkt. 5c; ½ oz. 15c; oz. 25c; 2 oz. 45c; ¼ lb. 75c; lb. $2.50.

Red Cherry—Fruit is of a light scarlet color, about half an inch in diameter. Bears early and freely until frost. Pkt. 5c; ½ oz. 15c; oz. 25c; ¼ lb. 75c; lb. $2.50.

Peach—These are excellent for eating raw. The fruit resembles a peach, even to the skin which is covered with a slight bloom as in a peach or nectarine. Pkt. 5c; oz. 25c; ¼ lb. 75c; lb. $2.50.

OUR TOMATO SEED IS SAVED FROM PERFECT PLANTS ONLY THAT ARE GROWN FOR SEED, AND MUST NOT BE COMPARED WITH THE CHEAP CANNING FACTORY SEED SOMETIMES OFFERED.
SQUASH.

Plant about the middle of May, in hills, the early varieties 4 to 5 feet apart, and the late sorts 8 to 10 feet. The hills should be prepared the same as for melon. Plant from 6 to 10 seeds in a hill, thinning out after they have attained their rough leaves to 3 or 4 of the strongest plants. 1 ounce will plant about 25 hills.

**Giant Summer Crookneck**—This magnificent strain has been brought about by years of painstaking selection. It is a beautiful bright yellow, and grows to a very large size; very early, and is a most profitable sort for marketing, because it grows so quick and large. Pkt. 5c; oz. 10c; ½ lb. 20c; lb. 65c.

**White Bush Scallop**—The leading early bush Scallop variety; round flat, with scalloped edges. The skin is white; the flesh is of excellent quality and fit for use as soon as large enough. Pkt. 5c; oz. 10c; ½ lb. 20c; lb. 65c.

**Vegetable Marrow**—A fine cooking sort, used very extensively in England. The fruit is oblong and of a yellowish green color. The flesh is white, soft and of excellent flavor. Pkt. 5c; oz. 10c; ½ lb. 25c; lb. 75c.

SWISS CHARD, OR SUMMER SPINACH.

No vegetable requires less care than this, and it is safe to say that none yields as constantly as this spinach, producing uninterruptedly from July until Winter. Also called “Cut and Come Again Spinach.”

If your garden space is limited, Swiss Chard must have a place, for in ground occupied, Swiss Chard produces more food for the table than almost any other vegetable. The leaves are used for greens the same as Spinach or beet tops; they are equal in quality and far superior to beets. Sow early in Spring, in rows 16 inches apart and thin out to 6 inches apart in the rows. It can be used all Summer when spinach is not available. Later the leaves grow very large, with broad, flat, pure white stems, and mid-ribs, which may be cooked like asparagus or made into very good pickles. Pkt. 5c; oz. 10c; ½ lb. 20c; lb. 65c; postpaid. By express, lb. 50c; 5 lbs. $2.25.
TURNIP.

One of the finest vegetables for table use, and considered one of the best crops for stock feeding. For the outlay of a few cents, an acre can be sown and a large crop harvested for winter use for table or stock. Turnips do best in a new light, rich loamy soil, entirely free from fresh manure. For summer use sow early in spring; for fall or main crop sow middle of July to middle of August. Make drills 14 inches apart, 1/4 inch deep, and when plants are large enough, thin the roots 5 or 6 inches apart. One oz. to 150 feet of drill; 2 lbs. to the acre in drills. To preserve until spring, cut off tops of bulb and store in dry place, covering with sand.

Extra Early White Milan—This is the earliest white turnip grown. It is flat in shape and a clear white throughout. Of splendid quality, small top and single tap-root, it is most attractive with its clear white skin and flesh. It is a rapid grower, being in market a week before any other variety. Pkt. 5c; oz. 10c; 1/2 lb. 25c; lb. 50c.

Purple Top White Globe—A variety of decided merit, either for table or stock. It is of a globular shape, very handsome and of superior quality; very early, a heavy producer, of rapid growth, and an excellent keeper. Pkt. 5c; oz. 10c; 1/2 lb. 20c; lb. 50c.

Golden Ball, or Orange Jell—One of the best yellow fleshed kinds; not large; rather globe shaped; flesh fine grained, firm, sweet, and of superior flavor. Keeps well all winter. Pkt. 5c; oz. 10c; 1/2 lb. 20c; lb. 50c.

Purple Top Strap Leaf—A leading variety for main crop; form roundish or flat, medium size, small top; few leaves which are entirely upright; tap root small; color red or purple above ground, white below. One of the best for family use. Pkt. 5c; oz. 10c; 1/2 lb. 15c; lb. 45c. By express, 5 lbs. $1.50.

RUTABACA OR SWEDE TURNIP.

Largely grown in the northern states and Canada for stock feeding, and for this purpose they are superior to turnips. Sow in drills two feet apart and thin out to eight inches in the row.

Hunkel's Improved American Purple Top—The best in grain, size, hardness and productiveness. The tops and necks are small. The top of the root is purple red, the lower portion being of a rich creamy yellow. The flesh is entirely yellow and is fine grained and dry without being woody. This is the best Ruta Baga for either table or stock and we give it the preference over all others. The improved strain that we offer is saved from selected roots only. Pkt. 5c; oz. 10c; 1/2 lb. 20c; lb. 50c. By express, 5 lbs. $1.60.

Hurst's Monarch—This is a yellow fleshed sort, having very large, tankard shaped roots, with relatively small necks and tops. Color purplish-crimson above ground, yellow below; flesh very solid, fine grained and of the best flavor. For earliness, quality and weight it is superior to any variety in cultivation, producing from 2 to 7 tons per acre more than any other Swede, while the large percentage of sugar contained in the roots make it very nutritious to cattle. Pkt. 5c; oz. 10c; 1/2 lb. 20c; lb. 50c.

Write for prices when in the market for larger quantities of Turnip or Rutabaga than those quoted.

TOBACCO SEED.

The seed should be sown as early as possible after danger of frost is over. A good plan is to burn a quantity of brush and rubbish in the spring on the ground intended for the seed bed; then dig and thoroughly pulverize the earth and mix with the ashes. The next step is to sow the seed from six inches high, transplant into rows four or five feet apart each way; cultivate thoroughly with plow and hoe.

Connecticut Seed Leaf—Adapted to the climate of the Middle and Northern States, as it is harder and endures cold better than other varieties. Pkt. 5c; oz. 10c; 1/2 lb. 60c; lb. $2.25.

Havana—Pure Cuba grown seed. The leaves grown from this seed always command a high price for cigar stock. Pkt. 5c; oz. 25c; 1/2 lb. 65c; lb. $2.50.

NOTE

Superior stocks are necessary to the prosperity of the Market Gardener. The inferior article may be more attractive at the beginning because it costs less, but the superior seed gives the grower a greater profit. Purchase the best vegetable seeds from us. We sell to market gardeners who must have only the best. The cheapest is never the best. The best is always the cheapest. Plant Hunkel's Reliable Seeds and insure success.
HUNKEL'S SEED CORN.

With no other farm product does the crop so much depend upon the nature of the seed than with Corn. It is not only a matter of Germination, but the greatest importance is its Vigor and Vitality, produced by most careful and scientific breeding in a Northern Climate. To produce good crops and to be sure of the crop maturing, Northern Farmers must plant thoroughly acclimated Northern Grown Seed Corn. Western and Southern grown seed will never do well in Wisconsin and the Northwest. Insist on knowing where your seed corn was grown. We offer the four varieties of Select Wisconsin Grown Seed Corn, both shelled and on the ear, and recommend it to all of our customers who want a choice corn that can be depended upon to ripen in the north every year, and to produce good crops.

Corn on the Ear—This is the ideal way of buying Seed Corn as the purchaser can always see exactly what he is buying. All the Agricultural Colleges recommend the buying of Seed Corn in this way. We offer Fire-dried selected stock, all the imperfect ears having been thrown out. While the ears we offer are not as large as those grown in the Corn Belt, they are certainly fine for Wisconsin and the Northwest, and are second to none in vitality, earliness and productiveness.

Shelled Corn—The Wisconsin Grown Shelled Corn that we offer is shelled from ears saved for ear corn, which on examination were not considered perfect enough to be sold as ear corn, or had to be broken for further examination. It is all fire-dried and is tipped by hand when shelled, thus throwing out all the weak kernels.

All of our Seed Corn is Tested several times during the season and we know positively that it will germinate before it leaves our hands. At the same time we recommend that our customers order early, and test it themselves, making sure that it will grow before planting it.

Our Seed Corn Guarantee—We absolutely guarantee our Seed Corn to be as represented. If not as represented, simply return it and your money will be refunded.

NOTICE—When ordering Corn, name second choice, as our stock of Wisconsin Grown Seed Corn is very limited, and we may be sold out of the variety you call for. We will not substitute without permission.

SILVER KING

THE BEST WHITE CORN FOR WISCONSIN AND THE NORTHWEST.

This new variety of corn was brought from Northern Iowa into Wisconsin by the Wisconsin Agricultural Experiment Station and here selected and developed for earliness and uniformity of type so that it can now be planted with safety anywhere in the Northwest with certainty of its ripening. It is a pure white dent corn with a white cob. The kernel is broad and deep, with well developed and vigorous germ, forming a perfect cylindrical ear, about 8 to 9 inches long, well filled out to the tips and butts. The ears dry out very rapidly, thus enabling us to ship them. A very yielder, yields having been reported all the way from 50 to 100 bushels of good shelled corn per acre. The stalks are rather short and heavy, averaging about 8 to 11 feet in height, and are very leafy.

At the last Wisconsin State Fair which took place in Milwaukee the first week in September, there were many fully ripened ears of Silver King corn exhibited, showing that this variety is very early and that it will certainly ripen in the North. While the average yield for all corn in Wisconsin is about 35 bushels per acre, 275 members of the Experiment Station report an average yield of 40 bushels and Prof. Moore of the Agricultural College reports a yield of over 75 bushels per acre at the University Farm. All of our customers are very enthusiastic over this corn and will plant much larger acreages this season than in the past.

Our stock of Silver King (Wisconsin No. 7) is fine and was grown for us by members of the Wisconsin Agricultural Experiment Station. While we have a large stock on hand at the present time, we expect to be sold out early in the season; so send in your orders early. Last year our stock was sold out early and we were obliged to refuse many orders and refund the money in many cases.

PRICES.

On the Ear—Single ear 15c; (by mail 25c); bu. (70 lbs.) $2.50; 5 bu. or over at $3.33 per bu.
Shelled—Qt. 15c; (by mail 30c); 1/2 pk. 50c; pk. 85c; bu. $3.00; 2½ bu. and over at $2.85 per bu.
GOLDEN GLOW (WISCONSIN NO. 12.)

THE NEW EXTRA EARLY YELLOW FOR CENTRAL WISCONSIN AND SIMILAR LATITUDES.

This is the corn that many have been looking for, something a little earlier than Silver King and Murderock Yellow Dent and yet large enough to make it a profitable variety for general culture. It matures safely as far north as North central Wisconsin and yields big crops of good sized ears.

This is strictly a Wisconsin variety and to Prof. R. A. Moore, Agronomist at the Wisconsin Agricultural College, belongs the credit of bringing it out. It is a cross of Wisconsin No. 8 and North Star, the idea being to produce a corn combining the extreme earliness of the former with the larger ears and deeper kernels of the latter.

Golden Glow is a pure golden yellow corn, most attractive in color and appearance. Ears are fairly large, averaging about 8 inches in length, symmetrical in shape, slightly tapering with exceptionally well filled tips; kernels of good length for such an early corn, just a slight roughness at the outer ends and very free from a tendency to flintiness; stalks large and strong with abundant foliage, making it a very desirable fodder or silo variety. In fact, it is a splendid all-around corn and seems to have hardly a fault as a real early yellow dent.

Our stock of Golden Glow was grown for us by members of the Wisconsin Experiment Association and is fine. We would recommend all of our customers to make a liberal planting of this variety.

PRICES
On the Ear—Single ear 15c; (by mail 25c); bu. (70 lbs.) $2.50; 5 bu. or over at $3.00 per bu.
Shelled—Qt. 15c; (by mail 30c); ½ pk. 50c; pk. 85c; bu. $3.00; 2½ bu. and over at $2.50 per bu.

WISCONSIN NUMBER 8.

THE EARLIEST YELLOW DENT CORN GROWN.

This is the corn for Northern Wisconsin and similar latitudes. Originally from Minnesota, Wisconsin No. 8 has been developed at the Wisconsin Experiment Station so that it is now a great improvement over the Minnesota strain. It can be grown as far north as corn can be grown as it ripens in 80 days or even less if the season is favorable. Although it ripens so extremely early it is a very heavy yielder, producing from 65 to 100 bushels per acre. By careful selection and breeding the kernels of this variety have been materially lengthened and the ears enlarged without sacrificing its extreme earliness. The ears run very uniform in type and color and average about 7 to 8 inches in length, with good long kernels packed closely upon the cob, well filling it from tip to butt. The stalks grow to a medium height and are well covered with leaves. Our stock of this corn was grown in Wisconsin by a member of the Wisconsin Experiment Association and is very choice. We offer it both shelled and on the ear. Prices same as for Golden Glow.

IS IT WORTH IT?

A bushel of seed corn will plant from six to eight acres. To use our seed will cost, say, thirty cents an acre more than if common crib or home grown corn is planted. It is therefore evident that if our seed produces one bushel more to the acre, mind only one bushel more, than the home seed, that the entire cost of the seed and freight is paid for by this extra yield.
MURDOCK YELLOW DENT.

THE LARGEST EARLY YELLOW DENT CORN FOR THE NORTHWEST.

Also known as Wisconsin Yellow Dent. It is a heavy yielding large Yellow Dent Corn, so early that it can be grown with safety in the Northern States. It originated in Wisconsin and has been grown here for so many years that this type has become thoroughly established. It is truly a 90 day corn and matures shortly after the Wisconsin No. 8. The ears average about 8 to 9 inches in length and weigh about 10 ounces; always well filled out way to the tips; many rowed, usually about 18 to 22 rows. Kernels are deep and are set very compactly on the cob; color of cob is a bright golden yellow. It is not a tall growing variety. Very productive, easily yielding from 70 to 100 bushels of shelled corn per acre on ordinary soil. Its great vigor enables it to withstand dry weather remarkably and to give a good crop with ordinary cultivation, when other varieties fail. It is a variety we can readily recommend to our customers. All of our stock is Wisconsin, and is carefully selected and is very choice. We offer it both shelled and on the ear.

**PRICES (Subject to Change).**

On the Ear—Single ear 15c (by mail 25c); bu. (70 lbs.) $3.50; 5 bu. or over at $3.35 per bu.

Shelled—Qt. 15c (by mail 35c); ½ pk. 50c; pk. 85c; bu. $3.00; 2½ bu. or over at $2.85 per bu.

MINNESOTA NO. 13.

The Minnesota No. 13 is an extra early yellow dent variety introduced by Prof. Hayes, the well known agriculturist of the Minnesota Experiment Station. It is a full yellow dent with kernels packed closely on the cob, well filled from tip to butt. The ears average 8 inches in length and are usually borne two on a stalk. The stalks grow to a height of seven feet and being leafy make excellent fodder. Thoroughly matures in from 90 to 90 days and yields 65 to 100 bushels per acre. Our seed is Minnesota No. 13, and our stock obtained direct from the originators. Prices same as for Murdock.

**IMPROVED PRIDE OF THE NORTH.**

Pride of the North is too well known a variety of corn to require a description here. The stock which we offer is an improved strain, the ears being much larger than the ordinary stock. It was grown about 30 miles south of Milwau-

**FODDER CORN.**

Bags extra at 20c each; bags hold 2 ½ bushels.

HUNKEL’S TRUE RED COB ENSILAGE.

The best of all fodder corn. It is pure white with a red cob. Grows very large and yields very heavily, often as high as 45 to 50 tons to the acre. It furnishes more nourishment than any other variety, being very sweet, tender and juicy. It can be fed green, made into silage, or can be cured and stacked. Dairy farmers should not be without it. Pk. 35c; bu. $1.00. Write for prices on large quanti-

SWEET FODDER CORN.

There is nothing better for summer and fall green feed or for curing for winter than sweet corn; being sweet and palatable, cattle eat every part of the stalks and leaves. A great favorite with dairy farmers. Also excellent for silage. Can be sown as other corn or sown thickly in drills or broadcast. ½ bu. per acre in drills; 1 to 1 ½ bu. broadcast. ½ pk. 40c; pk. 75c; bu. $2.00. Special prices in quan-

All Prices are Subject to Change. When Buying in Quantity Write for Latest Prices.
SEED CORN—CONTINUED.

Our stock of seed corn offered on this page was grown in northeastern Nebraska, by a prominent and careful breeder. It is an extra choice grade and must not be confused with the ordinary commercial grades of corn sold by most dealers. It is all shedded, each ear having been tipped before being shellied. We guarantee it to show a high germination test.

PRIDE OF THE NORTH

Undoubtedly the best known of all early Yellow Dent varieties. The stalk is short and thick and stands storms well. Ears are 7 to 10 inches in length and about 2 inches in diameter; the kernel is of a deep yellow color, is long, thick and narrow, and of a very oily nature; cob is medium in length; ripens early and dries out quickly. Resists drought very well and in fact is an excellent corn for the north. PRICES SAME AS FOR PRIDE OF THE NORTH.

WISCONSIN WHITE DENT.

A standard white variety; very early. The stalks grow to an average height of 8 feet and are thickly covered with foliage close to the ground. The ears are very large, with 16 to 20 rows of large deep kernels, which are closely set on a small white cob. PRICES SAME AS FOR PRIDE OF THE NORTH.

WHITE CAP YELLOW DENT.

A good variety for poor thin land. It is a strong grower, resists heat and drought wonderfully, and yields good large ears on small cobs. Ears 18 to 22 rowed. Outer end of grain is white, deeply dented; inside is yellow. Matures in about 90 days of corn weather. PRICES SAME AS FOR PRIDE OF THE NORTH.

KING OF THE EARLIES.

Claimed to be the earliest and best dent corn in cultivation. The stalks grow from 6 to 8 feet high, and are thickly covered with leaves, yielding a large amount of fodder. The ears are medium in length; cob very small, closely set with long deep kernels, very thick in oil and starch; color bright golden yellow. Ripens early and dries out quickly. Resists drought very well and in fact is an excellent corn for the north. PRICES SAME AS FOR PRIDE OF THE NORTH.

IOWA SILVER MINE.

A popular white dent corn, maturing in about 95 days. Stalks grow to a height of about 8 feet and set aside ears about 4 feet from the ground. The ears are very uniform in size and shape, with 16 to 20 rows of pure white kernels set on a small cob. The cob dries out rapidly making it marketable very early. PRICES SAME AS FOR PRIDE OF THE NORTH.

IOWA GOLD MINE.

This corn is identical in appearance, in habit of growth, etc., with the Iowa Silver Mine, with the exception of the color, which is a bright golden yellow. PRICES SAME AS FOR PRIDE OF THE NORTH.

FLINT CORN.

We offer four varieties of flint corn. These are all well known and are reliable. Flint corn is earlier than dent corn and is excellent for a fodder crop. Prices Subject to Change.

EARLY LONGFELLOW.

A beautiful 8-rowed flint with straight ears from 10 to 15 inches long. Kernels large and wide; cob very small. Color beautiful yellow. Ripens in 75 to 85 days, and is very prolific. Well adapted to northern latitudes and is largely grown in Wisconsin and Minnesota. 1½ pk. 35c; pk. 60c; bu. $1.20; 2½ bu. or over at $1.00. Special prices on large lots.

EARLY CANADA.

An extra early flint, specially valuable for Northern Wisconsin and Minnesota. Ears are long, 8-rowed and of a clear yellow color. PRICES SAME AS FOR LONGFELLOW FLINT.

SANDFORD'S WHITE.

Handsomest of all Flints. Ears are very long, usually measuring 12 to 15 inches; smooth and symmetrical in shape, and of a flinty white color. Highly valued for fodder and ensilage purposes, because of its suckering habits; leaves very broad and succulent. Grows very vigorously; each stalk usually bears 3 or 5 ears. PRICES SAME AS FOR LONGFELLOW FLINT.

KING PHILLIP.

A very early 8-rowed red flint. Stalks are very leafy, splendid for feeding green or for silage. Cob 10 to 12 inches long, with kernels of a reddish color. Ripens in about 80 days. Will ripen further north than any other flint corn. PRICES SAME AS FOR LONGFELLOW FLINT.

ABOUT OUR SEED CORN.

We have made a specialty of the best varieties of Seed Corn adapted to Wisconsin and all Northern States because we have established an excellent reputation for furnishing the best corn to be had. One of our customers at Steuben, Wisconsin writes us as follows: "I have purchased seed corn from several seed firms this spring but the seed furnished by you was certainly the best I have ever had. I can heartily recommend it as being the best obtainable."
HUNKEL’S SELECTED FARM SEEDS.

We pay particular attention to this department of our business. The seeds we offer are selected with special reference to their quality. They are fresh, pure and free from all foreign seed, all being re-cleaned by up-to-date machinery.

PRICES QUOTED ON FARM SEEDS by the pound include prepayment by mail. Larger quantities we do not deliver free, but send by express or freight at purchaser’s expense, but our prices include packing, boxes, bags (unless otherwise noted), and free delivery to any express or freight depot in Milwaukee.

MARKET CHANGES. Owing to the unsteady condition of the market, prices are constantly changing. The prices given here are those ruling at the time this catalogue went to press, about January 1st, 1911. Should our prices seem high on some items, write for special quotations. We also reserve the right to advance prices if the market advances.

SEED BARLEY.

ODERBRUCKER BARLEY. (WISCONSIN No. 55.)

The Heaviest Yielding and Plumpest 6-ROWED BARLEY EVER INTRODUCED.

This new Barley was introduced in 1906 by the Wisconsin Agricultural Experiment Station. It is a stiff-strawed, heavy-yielding, six-rowed, bearded variety. It ripens about the same time as the Mandscheuri and is similar to this variety in manner of growth and general appearance, but it has a plumper kernel and is much heavier. It has been tested by many members of the Experiment Association and all report it to yield from 5 to 10 bushels per acre more than any other barley, without exceptions. It is pronounced excellent for malting purposes by all brewers and malsters who have used it. It is an exceptionally good feeding barley as its protein content is nearly double that of protein found in any other variety. Prof. Moore of the Agricultural College of Wisconsin makes the following statement: From all points of view Oderbrucker Barley is the most satisfactory Barley grown on the station farm. We advise our customers to order this variety as we estimate that if this variety is sown the yield can be increased one-third with the same acreage.

The seed we offer of this new Barley was grown from stock obtained direct from the Wisconsin Agricultural Experiment Station. Order early, as our stock is limited. ½ pk. 25c; pk. 40c; bu. $1.25; 5 bu. $6.50; 10 bu. $12.50. Prices on larger quantities on application.

MANDSCHEURI BARLEY.

An early six rowed variety maturing 80 to 90 days after sowing. Very strong strawed and well-stooled, bearing large, well filled heads of plump heavy grain, possessing fine malting qualities. Adapts itself readily to all soils. Prof. Henry of the Wisconsin Agricultural Experiment Station, is louging in its praises, and hopes that its consideration will become general throughout all of our Barley growing states. This Mandscheuri should not be confused with the old Manshury, it being a much stronger grower, having plumper grain and usually yielding from 15 to 16 bushels more than that sort.

We have an extra fine stock of this Barley, grown from the genuine imported seed, and thoroughly cleaned and free from smut and oats. ½ pk. 25c; pk. 40c; bu. $1.35; 5 bu. $6.50; 10 bu. $12.50. Special prices in quantity.

CHAMPION BEARDLESS BARLEY.

The Champion is an improved Beardless Barley. It is similar to the Success Beardless, but it is larger, has stronger straw and yields more per acre. It is absolutely beardless, and can only be used for stock without fear of injury. It is earlier than any bearded variety, better to seed with, better for feeding, and yields just as well. It often out-yields all other bearded barley will not thrive. Try it. ½ pk. 30c; pk. 50c; bu. $1.50; 5 bu. $7.00; 10 bu. $13.50. Special prices on large lots.

WHITE HULLESS BARLEY.

Also known as "Ideal Barley" and "Giant White Hulless Barley." It grows very large, and has heavy, well-filled heads without beards, and in the field looks like the Beardless Barley, but the kernels shell out without the hulls, and are the handsomest plump and oval shaped white berries that have ever been grown. It is not a malting barley and can only be used for stock without fear of injury. It makes sweeter meat and nicer lard than corn. It is a vigorous grower and can be sown after all other grain is sown and will mature before the others. It can be sown for early, and if sown early enough two crops can be cut. Peck 50c; bu. $1.60; 5 bu. $7.50. Special prices in quantity.

FLAX.

Flax is one of the most profitable crops, especially on new land. We have high grade seed. When sown for seed it is needed for fence. If the fibre is wanted, 1 to 2 bushel are necessary. Sow early enough in spring to catch the early rains. Lb. 25c postpaid. Pk. 90c; bu. $3.25. Price variable. Grain bags extra at 20c each.

SUNFLOWER.

Mammoth Russian—The best variety for the farmer. Grows to double the size of the common, and the yield of seed is twice as great. Highly recommended for poultry, being largely a legume-producing food known; the leaves make splendid fodder; being relished by all kinds of stock; the strong thick stalks when dried, make an excellent fuel, being considered equal to the hard coal. Oz. 5c; lb. 20c, postpaid. By freight, lb. 10c; 10 lbs. 75c; 25 lbs. $1.50; 100 lbs. $5.00.

All Prices are Subject to Change. When Buying in Quantity Write for Latest Prices.
SEED OATS.

CHANGE YOUR SEED. A change of seed oats is even more important than a change of seed potatoes. It will pay you to renew your seed oats this year by sowing some of our improved varieties and thus greatly increase your yield. Any variety, Lb. 25¢ by mail, postpaid.

SWEDISH SELECT OATS. (WIS. No. 4.)

GREATEST OF ALL OATS.

Introduced into this country from Russia several years ago by Prof. M. A. Carleton of the U. S. Agricultural Department, and sent out to the various Experiment Stations for trial. The Wisconsin Agricultural Experiment Station received every year of the oats and after testing them for four years with 36 other varieties, Prof. Moore pronounced Swedish Select the most satisfactory of all. They seem to be well adapted to high land and seem to do better on poorer land. Swedish Select have been grown for several years and are claimed by all to be The Best American Oat. The following are some of the reasons why these oats are considered "the best".

1st. They outyield all others; every one who has tried them testifies to this.

2nd. They are the heaviest, weighing from 36 to 45 lbs. per bushel.

3rd. The straw is very stiff and will not lodge.

4th. Fine appearance. Large, thick and plump; color pure white; heads upright and bushy.

5th. Hull very thin, almost all meat. This is what makes them valuable as a feeding oat.

6th. Great root development making them Drought Proof.

7th. They are adapted to all soils and climates.

8th. They are The Earliest of All heavy yielding sorts.

9th. They are Free from Rust and Smut.

The stock we offer is true Swedish, and is extra re-cleaned. The demand for this oat last year was greater than our supply. This year we have a large stock but the demand is as great as we anticipate we will again be unable to fill late orders.

ORDER EARLY. We offer two strains of this great variety as follows:

Fancy Wisconsin Grown Swedish Select—Pk. 35¢; bu. $1.00; 5 bu. $4.75;
10 bu. $5.00. Special prices on large lots.

Regenerated Swedish Select—Imported Seed—Pk. 60¢; bu. $2.00; 5 bu. $9.25;
10 bu. $17.00. Special prices on large lots.

NEW KHERSON, OR SIXTY DAY OATS.

The Kherson Oat was recently introduced by the Nebraska Experiment Station who recommend it as the best variety for Kansas and Nebraska. The same variety was introduced by the South Dakota Experiment Station under the name of Sixty Day Oats. Prof. Carleton of the U. S. Dept. of Agriculture says that the two came from the same section in Europe and are identical. They are a light yellow, straw very stiff, grain very small but very heavy and numerous, with remarkably thin hull, which is easily shelled off. On account of their earliness they escape the attacks of rust, and will stand up on low, rich prairie soils. They have done well wherever tried both in the north and south and we recommend our customers to try them. Our seed is select and was grown from seed obtained from the original. Pk. 35¢; bu. $1.00; 5 bu. $4.75;
10 bu. $5.00. Special prices on large lots.

SILVER MINE OATS.

A popular variety in many sections; has the reputation of yielding immense crops of 100 to 150 bushels per acre. The grain is very large, heavy, and clean, but has a reasonably thin hull. It is quite a hardy vigorous variety and will please our customers. It stands up well and shows very little tendency to rust. Our stock is pure. Pk. 35¢; bu. $1.00; 10 bu. $9.00.

BLACK TARTARIAN OATS.

The most prolific and distinct variety of black Oats ever introduced. Many farmers are convinced that Black Oats are more reliable croppers than white, which is to a certain extent true, as they will endure more hardships and exposure and still make a good crop. These Oats are the result of an importation of seed from England several years ago, where black oats are much preferred and about three times as many are grown as of white oats. They are fully as good as the white sort for feeding, and are very early. The straw is very stiff, the heads are long, and yield heavy crops of grain, weighing thirty-five to forty-five pounds to the measured bushel. Claimed by many to be almost drought proof.

Our seed has been carefully grown. They have always been free from rust, mainly on account of their large plump and early maturity. Pk. 40c; bu. $1.15. Special prices in quantity.

BUCKWHEAT.

Silverhull—This is a very thin hulled Buckwheat of gray-silver color; kernels are of medium size and very solid. It is a prolific yieder and the heaviest variety yet introduced and will make first-class Buckwheat flour. It is earlier than the common Buckwheat and remains in bloom much longer, making it excellent for bees. Lb. 25¢, postpaid. Pk. 50¢; bu. $1.00. Special prices in quantity. Grain bags extra at 25¢ each.

New Japanese—This is a brown or almost black variety, and is very early, about a week earlier than the Silverhull. It is a vigorous grower of both vines and seed, and yields quite heavily. The flour made from it is of the best quality. It does not require as thick seeding as other Buckwheat as it buckwheat so much. It is perfectly hardy and will grow in the extreme north. Prices same as for the Silverhull.

All Prices are Subject to Change. When Buying in Quantity Write for Latest Prices.
SEED WHEAT.

Our Seed Wheat has been grown for Seed Purposes, and has been extra reclassed by the most up-to-date machinery. For this reason we are obliged to ask a price slightly in advance of the market, but we know that the seed which we offer is worth many times the extra cost to the farmer in increased yield. Write for prices in quantity.

DURUM OR MACARONI. (Kubanaka.)

This is the most valuable wheat for dry and semi-arid regions, yielding heavy crops when well looked after. It resists drought, blight, and rust and smut, and always furnishes an excellent hard grain inclined to be brownish-red in color and very large in size. The heads are compactly formed and the bran hard, and north of the north it is a sure crop. In the drier parts of the wheat belt of the world it is the wheat which can be sown in fall as Winter Wheat. It is now considered a wheat of the highest class ranking with all other varieties as a milling wheat. There are several varieties of Durum wheat; the best and the one recommended by the U. S. Agricultural Dept. is the Kubanaka Variety. This is the variety that we offer, and our stock is fine Minnesota grown. 3/4 pk. 50c; pk. 50c; bu. $1.75; 5 bu. $8.50. Special prices on large lots.

MINNESOTA No. 169.

A new spring wheat of wonderful value. It is an Improved Blue Stem or Velvet Chaff Wheat, which has for many years been the leading hard red spring wheat. It produces strong and vigorous growing plants, the chaff of which enclosing the grain is much thicker and firmer than on most wheat, on account of which it will not be as easily affected by rust and blight as other kinds. It is also free from smut, which does so much damage to other varieties. The grain is always nice and plump, flinty and almost transparent. It produces about 3 bushels more to the acre than any other variety; in other words, the man that sows the No. 169 will increase his profits by about $1.50 an acre. Our stock is pure and genuine. 3/4 pk. 30c; pk. 50c; bu. $1.75; 5 bu. $8.50. Special prices in quantity.

BLUE STEAM OR VELVET CHAFF.

So named because of the beautiful blue bloom on the stem while growing. A leading spring wheat throughout the Northwest. Hard, like the Pipe, but earlier and more productive. Our seed is pure and clean. Price: pk. 50c; bu. $1.75; 5 bu. $8.50.

TURKISH RED WINTER.

The hardest and most profitable variety of winter wheat. The heads are of good size and the plants stout out well. Very productive, yielding from 30 to 50 bushels per acre of bright wheat. Our stock is pure. Price: pk. 50c; bu. $1.75. Write us for special prices and samples in fall when you are ready to sow.

SPELTZ OR EMMER WHEAT.

Minn No. 169
Wheat.

New Emmer. Speltz.

SPRING RYE—True Stock. Spring Rye is an excellent catch crop where winter grain has been killed out, or for sowing where no fall crop has been planted. Our stock is Genuine Spring Rye and can be harvested the same season that it is sown. Price: pk. 45c; bu. $1.60; 2 1/2 bu. or over at $1.50.

NEW PELTUS WINTER RYE—A new variety of decided merit. It has longer heads and larger kernels than any other rye and outyields all other varieties. Our growers consider it the best winter rye. Price: pk. 50c; pk. 50c; bu. $1.50; 1/2 bu. at $1.35. Write us for special prices on Winter Rye next fall.

THOUSAND HEADED KALE.

A native of Europe, producing a tremendous mass of beautiful cut and curled leaves, which are long, large and rich, of a beautiful green color, and are eagerly sought and eaten by sheep, horses and cattle. The seed can be sown early in April or any other time thereafter until midsummer. The best way is to plant with a garden drill, dropping the seeds about twelve inches apart each way. One pound of this way will be sufficient for an acre, but if you wish to sow it broadcast use three pounds per acre. Our Thousand Headed Kale is hardier than R ape, and therefore becomes a magnificent plant to sow in conjunction with Rap e so that you can figure to pasture sheep, cattle, hogs and poultry a month or eight weeks longer by having a few acres of Thousand Headed Kale than you can on Rape alone. It grows to a height of 3 or 4 feet, the roots penetrating to a great depth in the sub-soil, so the plant is not affected by drought. It grows with great rapidity after being fed of fish in all kinds of soil. Lb. 50c, postpaid. By freight, lb. 25c; 5 lbs. $1.00; 10 lbs. $1.50; 100 lbs. $17.00.

LUPINE.

Besides being an excellent forage plant very much relished by cattle, the Lupine is valuable for enriching poor, sandy soil, and is extensively used for that purpose in Europe. We offer only the yellow variety, which is by far the best. Sow 90 lbs. to the acre. Per lb. by mail, 25c; 10 lbs. 90c; 100 lbs. $7.50. Hunkel’s 28 Page Poultry Supply Catalog Mailed Free. Write for it.
DWARF ESSEX RAPE.

Throughout a large portion of the United States farmers and stockraisers could advantageously grow of this so succulent and nourishing a forage crop for feeding stock dur- ing the summer and autumn months, when the supply of grasses and clovers is often limited. Dwarf Essex Rape can be grown to good advantage on land that has already produced an early maturing crop of some sort, such as oats, rye or winter wheat.

Dwarf Essex Rape is a pasture plant for all kinds of live stock—sheep, cows and swine; for fattening sheep it is most valuable as it is produced for an early pasture for sheep and swine, it should be sown early in spring, and as it is a remarkably fast grow- er, it will be ready to be eaten off in five weeks from the time of sowing. Unlike other plants it can be sown at any time during spring and summer, and you can have a good pasture just when you need it.

Late in the fall when most pastures are barren Dwarf Essex Rape yields a splendid feed, as frost will not hurt it any, and it is so well relished by all stock, sheep, hogs and cows alike, that as long as there is anything left of the plants they will eat it. Rape can be sown with grain, using three pounds per acre, to provide for pasture for sheep after harvest, it can also be sown in corn when this is cultivated the last time. Resulting plants are generally obtained for late fall pasture when Dwarf Essex Rape is sown after the spring grain has been harvested. When Rape is sown broadcast, 5 to 6 lbs. should be sown per acre.

We import our Dwarf Essex Rape seed every year from England, and know it to be genuine and of the very best quality. Lb. 25c; postpaid, 60c; pk. 1 lb. $1.25; 10 lbs. $9.00; 25 lbs. $1.75; 50 lbs. $3.25; 100 lbs. $6.00.

Write for prices on larger quantities.

SAND VETCH (VICIA VILLOSA).

Also called Winter Vetch. An annual plant, similar in growth to a very slender and straggling pea vine, the vines often reaching 10 to 12 feet in length, and covering the ground with a dense mat of forage 2 feet in depth. Stock of all kinds do well in pastures and when cut for hay, it bears its heaviest frosts without injury, and is one of the few plants which can be grown during the winter in the more Southern states for green manuring. While it thrives in a very vigorous growth during the winter, it yet lives and grows, and is ready to push into quick and luxuriant growth as soon as the mild days of spring set in. When once this growth starts, it continues through wet and drought, and the quantity of forage made is wonderful. It has made as much as 45,000 pounds of green feed to the acre, and this feed is of the most nutritious character. It is much richer in protein (the muscular and growth producing element) than Red Clover, or than the Cow Pea, while in fat-producing matter is nearly the equal of those plants. As a soil improver it is richer in nitrogen, phosphoric acid and potash than any of the Clovers or the Cow Pea. In 15 days, or less, the B. M. Sand Rape, when sown at the rate of 20 or 40 pounds to the acre, with a light seeding of oats, wheat or rye. This will hold up the vines, and make it easier to cut and harvest the crop. It is better for pasture or a soil improve- ment alone at the rate of 50 or 60 pounds to the acre. Sow early in spring or in August and September, on well prepared land. When sown at the rate of all over the field, the B. M. Sand Rape will continue to increase in thickness all through the spring and summer, as the vines fall down and grow through again. When plowed down the soil will be found to be as mellow as if full of vegetable matter as possible, and will be in the finest condition for the production of wheat, oats, corn, potatoes and a grain crop.

Lb. 25c, postpaid. By freight, Lb. 15c; 10 lbs. $1.25; 25 lbs. $2.75; 50 lbs. $5.00.

SPRING VETCH.

Used the same as the Sand Vetch, but will not thrive on poor soil, or withstand extremes of weather as successfully. Lb. 20c, postpaid. pk. 85c; bu. (60 lbs.) $3.00.

EARLY AMBER SUGAR CANE (SORGHUM).

Claimed by Dairymen everywhere to be the most valuable fodder in existence, its use. It is a very economical fodder plant as it yields as high as 80 tons of green food per acre. This fodder is of the very best quality, is sweet, tender and nutritious and is greedily eaten by cattle, horses and hogs. Cows give richer milk from it than from any other kind of forage. It can be cut several times during the season if not allowed to grow too high, and makes good, sweet hay. Also a very profitable crop to grow for seed, which is excellent for poultry, and can be ground and substituted for buckwheat flour. This variety also makes a fine syrup. If sown for fodder use 50 to 100 lbs. broadcast per acre; for the syrup and feeds 15 to 25 lbs. in drills. Lb. 20c postpaid. By freight, Lb. 10c; 10 lbs. 60c; 25 lbs. $1.10; 50 lbs. $3.00; 100 lbs. $5.50.

GIANT SPURRY.

The great forage plant for poor and sandy soils. This is an annual extensively cultivated in Europe as a winter pasture for cattle, and also for making hay, and is a most excellent fertilizer for light soil, and very valuable for forage. Agricultural papers and all farm writers recommend its use. Sow 6 to 10 lbs. to 15 or 20 acres of hay and 12 to 15 lbs. if wanted for drilling purposes. Oz. 5c; Lb. 20c; postpaid. By freight, Lb. 10c; 10 lbs. 90c; 25 lbs. $2.00; 100 lbs. $7.00.
SOY OR SOJA BEANS.

Valuable forage plants which are coming more and more into favor with dairymen and farmers throughout the northern states. For pasturing or feeding as green fodder they are very valuable, as they contain a large amount of protein; the dry beans ground to a meal also make an excellent food relished by all stock. Soy Beans like clover, are nitrogen gatherers and enrich the soil wherever grown. They withstand drought remarkably well and will give a good cutting of green forage at the time when other foods are shrivelled and wilted. Very productive, the yield of beans running as high as 50 bushels per acre. Sow at corn planting time, after the ground has become warm, broadcast if to be cut for hay, about 1 bushel of seed per acre. Or if to be harvested and threshed sow in rows 30 inches apart and about 4 inches apart in the row. One peck of seed will plant 1/4 acre. Cultivate same as corn. Our Seed is Northern Grown. We offer two leading varieties as follows:

- **Ito San** (Early Yellow)—The variety most largely grown. Small, early yellow beans. The best for hay and soiling and a very heavy seed producer. Pkt. 5c; pt. 30c; qt. 35c, postpaid. By freight, qt. 20c; ½ pk. 60c; pk. $1.00; bu. $2.50.

- **Medium Early Green**—Larger than the Ito San but somewhat later. Excellent for soiling and ensilage. Pkt. 5c; pt. 30c; qt. 35c, postpaid. By freight, qt. 20c; ½ pk. 60c; pk. $1.00; bu. $2.50.

CANADA FIELD PEAS.

Canada Field Peas can be very profitably sown along with oats and either eaten off the field by cattle or plowed in for a heavy, wide spread disposition to plant Peas farther north than formerly, on account of their quick growing habit, their drought resisting ability, and their great value for silage and soil improvement purposes. They will thrive wherever conditions favor corn. The yield of green fodder per acre often reaches 5 tons, and is sometimes as much as 8 or 9 tons. Some growers turn the mature vines under with the plow. Some harvest the hay and plow down the stubble. Others ripen the seed, harvest and pick the seed, and then plow the vines under. Some Cow Peas are trailers, with very long vines; others assume the bush form. Sow seed at the rate of 1 to 1½ bu. per acre. The Cow Pea is a nitrogen gatherer, and hence improves the soil.

New Era.—A new extra early variety of great merit. It is the earliest of all varieties and produces the heaviest crop of vines and pods. Pkt. 5c; lb. 25c, postpaid. By freight, ½ pk. 50c; pk. 90c; bu. (60 lbs.) $3.90

Whippoorwill—Early, rather dwarf in habit; heavy producer. Pkt. 5c; lb. 20c, postpaid. By freight, ½ pk. 50c; pk. 90c; bu. $8.00. Special prices on Cow Peas in quantity.

COW PEAS.

Cow Peas are held in very high esteem for forage purposes, especially on sandy soils. It has been said that the Cow Pea has almost as much agricultural importance in the South as red clover in the North or Alfalfa in the far West. Great changes are now in progress, however, in farming methods, and there is today a wide spread disposition to plant Cow Peas farther north than formerly, on account of their quick growing habit, their drought resisting ability, and their great value for silage and soil improvement purposes. They will thrive wherever conditions favor corn. The yield of green fodder per acre often reaches 5 tons, and is sometimes as much as 8 or 9 tons. Some growers turn the mature vines under with the plow. Some harvest the hay and plow down the stubble. Others ripen the seed, harvest and pick the seed, and then plow the vines under. Some Cow Peas are trailers, with very long vines; others assume the bush form. Sow seed at the rate of 1 to 1½ bu. per acre. The Cow Pea is a nitrogen gatherer, and hence improves the soil.

New Era.—A new extra early variety of great merit. It is the earliest of all varieties and produces the heaviest crop of vines and pods. Pkt. 5c; lb. 25c, postpaid. By freight, ½ pk. 50c; pk. 90c; bu. (60 lbs.) $3.90

Whippoorwill—Early, rather dwarf in habit; heavy producer. Pkt. 5c; lb. 20c, postpaid. By freight, ½ pk. 50c; pk. 90c; bu. $8.00. Special prices on Cow Peas in quantity.

WE ISSUE A SPECIAL POULTRY SUPPLY CATALOG, A COPY OF WHICH SHOULD BE IN THE HANDS OF EVERY POULTRY RAISER.

KAFFIR CORN.

An excellent fodder plant, yielding two crops of fodder during a season. It grows from 4 to 5 feet high, making a straight upward growth. The stem or stalk bears numerous wide leaves. The stalks keep green and are brittle and juicy, not hardening like other varieties of sorghum, and making excellent fodder, either green or dried, which is relished by cattle, horses and mules. The seed crop is also heavy, yielding from 60 bushels upward to the acre. The seed is excellent feed for poultry. For the grain, sow in rows 3 feet apart, 5 to 10 pounds of seed to the acre. For fodder, sow ½ to 1 bushel, either in drills or broadcast. Lb. 25c, postpaid. Pk. 40c; bu. (50 lbs.) $1.25. Write for prices on larger quantities. We also have a cheaper grade for poultry. Prices upon application.

BROOM CORN.

Improved Evergreen—The best variety for general cultivation on account of its color and quality of brush of good length, and always of green appearance when ripe, never gets red and has no center stalk, which is a most desirable point to broom corn raisers and manufacturers of broom, 10c, postpaid. By freight, lb. 10c; 10 lbs. 50c; 25 lbs. $1.10; 50 lbs. $2.00; 100 lbs. $3.50.

JERUSALEM CORN.

Claimed by many to be an improvement on Kaffir Corn, as it is a sucer corn in unfavorable seasons. Produces a large crop of fodder, which is of very good quality. Seed white and nearly flat. Also yields a good grain crop. Sow by 60 to 80 pounds plant an acre in drills, 40 to 50 lbs. broadcast. Lb. 25c; postpaid; ½ pk. 40c; pk. 75c; bu. (50 lbs.) $2.50; 2 bu. $4.50.
GERMAN MILLET.

In the North, Millet is sown almost altogether for hay, and for that purpose Southern grown seed is much the best. It grows taller than does that from Northern seed, and that makes it much better for feeding purposes. Further, experience of many years, that a farmer had better, from the standpoint of profit alone, pay $2.00 a bushel for true Southern grown German millet than to sow the best Northern Millet as a gift. Millet seed produced in the South, even from Southern seed, becomes what we call Common Millet. Not only does the plant change its character, becoming coarser and more dwarf, but the seed itself shows a change, and is readily distinguished by those experienced in handling it. The seed that we offer is True Southern to the acre, and not the coarser Northern grown offered by many dealers at a low price. Lb. 15c, postpaid. Pk. 50c; bu. $1.75; 2 or more bu. at $1.70.

COMMON MILLET.

Very early; grows 3 to 4 feet high; foliage broad. Sow one bushel to the acre. (50 lbs. to the bushel.) Lb. 15c, postpaid. Pk. 50c; bu. $1.75; 2 or more bu. at $1.70.

HUNGARIAN.

(Dark Seed.) Many regard this as being better even than German Millet, as it is about one week earlier. The hay is fine and of excellent feeding value. Lb. 15c, postpaid. Pk. 50c; bu. (48 lbs.) $1.75; 2 or more bu. at $1.70.

EARLY FORTUNE MILLET.

A most promising new variety, of which astonishing yields are reported. It is very early, and it is claimed to be rust proof, and that chinch bugs will not eat the plant. The seed is very beautiful and distinguished in appearance. Lb. 15c, postpaid. Pk. 50c; per bu. $1.75.

ROCK-DR. HUNKEL CORN MILLET.

This is grown for the same purposes for which the other Millets are sown, but makes inferior hay unless cut very young. It however, yields enormously of seed, even 60 to 70 bushels to the acre, and this seed is very advantageous for fattening swine and other stock, and is of special value for this purpose in sections where corn cannot be safely or cheaply grown. Lb. 15c, postpaid. Pk. 50c; bu. $1.75.

SIBERIAN MILLET.

A new variety from Russia, earlier than either German Millet or Hungarian, and consequently very valuable for the North, and yields remarkably. The South Dakota Experiment Station pronounces it “the most promising variety yet tested.” The plant stoops to a remarkable degree, and is not subject to rust. Lb. 15c, postpaid. Pk. 50c; bu. (60 lbs.) $1.75; 2 or more bu. at $1.70.

BLACK VERONEZH MILLET.

This Millet is sometimes called Black Hogs Millet. It is grown for its seed and in the drier regions of the Northwest gives excellent returns. It should not be sown on moist land where it has to fight a large number of weeds. It is not a heavy seeded variety. On dry land either on new breaking or old ground it yields from 20 to 50 bushels per acre of very valuable grain. Pk. 50c; bu. (48 lbs.) $1.75.

JAPANESE (Barnyard).

Also called “Billion Dollar Grass.” Entirely distinct from any other Millet. It grows 6 to 8 feet high, stands remarkably well notwithstanding its great height, and yields from 10 to 12 tons green fodder per acre. When cured it makes an excellent quality of hay, and is also much relished as green fodder. If to be made into hay, cure as you would a heavy crop of Clover. It may be sown from the middle of May to the 1st of July, broadcast, at the rate of 15 lbs. per acre; but it is better to sow it in drills, 12 to 15 inches apart, using 10 to 12 lbs. per acre, and hoe between the rows to keep down all weeds until the plant attains a height of 12 to 18 inches, when its rapid growth will smother all weeds. Lb. 20c, postpaid. By freight or express, 10 lbs. 75c; 25 lbs. $1.50; 50 lbs. $2.75; 100 lbs. $5.00.

PEANUTS.

Mammoth Virginia—The largest, sweetest and heaviest yielding variety. Erect stems and upright foliage; more easily cultivated and more profitable than the common spreading kind. The vines make good fodder for stock. Plant same as potatoes. Large pkt. 5c; lb. 30c, postpaid. By freight, lb. 20c; 5 lbs. 90c.

WILD RICE.

A valuable plant for sowing in lakes and marshes to attract the water fowl. The seed should be sown in September or October in the early morning as soon as the ice has disappeared. It should be sown in water from 6 inches to 6 feet deep. Lb. 40c, postpaid. By freight, lb. 30c; 5 lbs. $1.25; 10 lbs. $2.25; 100 lbs. $20.00.

TEOSINTE.

A fodder plant grown largely in the hills and uplands of Central America. It is very hardy, and becomes warm at usual corn planting time, and yields more and sooner than any other fodder crop. Lrg. pkt. 5c; oz. 15c; ½ lb. 30c; lb. 90c; 2 lbs. (sufficient for one acre) $1.75 by mail postpaid.

Peasants.
HUNKEL'S GRASS SEEDS.

HIGH GRADE.

We handle only the very best and purest grass and clover seeds. Our prices are based on supplying you the very highest germinating and purest seed the market affords. Grass seeds are like grain, their market value changes daily; the prices below are those ruling about January 1st, 1911, and are subject to change. We are in a position to quote the very lowest prices on the best qualities and will gladly mail samples and prices. If wanted by mail add 10 cts. per pound for postage. Grain Bags extra at 20c each.

BROMUS INERMIS.

Also called Awnless Brome Grass. It is the best grass for pasture or hay. Most valuable grass for dry lands. It endures extremes of temperature and resists protracted drought, succeeding where Alfalfa fails. Poor lands are no discouragement. It grows best in light, sandy loam, but its roots will penetrate the stiffest clay. It is equally good for cutting green, pasturing or cutting into hay. In Dakota it yielded the second year nearly 2% tons per acre, and on another acre plot 2 tons were cut June 28th, and 2,600 pounds at a second cutting, August 19th. Dr. Sewell of the U. S. Experiment Station, Garden City, Kan., says it is equal to Timothy for cattle or horses, and makes as fine a pasture as Blue Grass. It has done equally well in Canada, California and Kansas, as well as other states. Use 25 to 40 pounds to the acre, if alone; if with Alfalfa, 15 pounds; they grow well together. 

Orchard Grass, or Rough Cock's Foot—This is one of the most valuable and widely known of all the pasture grasses, coming earlier in the spring and remaining later in the autumn than any other. It grows about 2½ feet high, producing an immense abundance of hay, and is one of the most valuable for grazing or for hay. It is very valuable either for grazing or for hay, 300 lbs. to the acre. (Bu. 14 lbs.) Lb. 25c; 10 lbs. $2.25; 50 lbs. $10.00. Beware of adulterations.

FOR LAWN SEED SEE BACK COVER OF CATALOG.
ALFALFA OR LUCERNE.
MONTANA GROWN. YELLOW AS GOLD.
(GOVERNMENT TEST 99.59 PURE.)
Absolutely Free from Yellow Trefoil, Burr Clover and Dodder.

One of the most valuable and largely grown forage plants. It requires a deep, rich, well-drained soil. It should not be sown on heavy, sticky clay soil where water stands near the surface. Its greatest value lies in the enormous yield of sweet and nutritious forage, which is highly relished by all kinds of stock. Not only this, but it will continue to yield about ten tons to the acre for 10 to 15 years. The roots grow very long, often growing to the depth of 10 to 15 feet, thus making the plant almost drought-proof, and at the same time enriching the soil. The seed should be sown in spring at the rate of 20 to 25 pounds to the acre. The seed we offer is Northern Montana grown on dry land (non-irrigated) and is the finest grade obtainable. Prof. A. L. Stone of the Wisconsin Agricultural College writes as follows in a recent letter, "We prefer seed which has been grown as far north as possible. In Montana preferably, because the Alfalfa which grows there is apt to be more hardy than that which is grown farther south. We find, also, that the alfalfa plant is affected in its yield by the amount of moisture which it receives during the growth, and, for this reason, alfalfa which has been produced on irrigated land is not apt to do as well in the North as alfalfa seed produced on non-irrigated land.

Hunkel's "Star" Brand Alfalfa. Absolutely Pure.

TURKESTAN ALFALFA.

Perfectly hardy; withstands drought, heat and cold; yields the heaviest and richest crops of fodder; the best clover for hay and permanent pasture.

In Turkestan, Asia, where this seed grows, the winters are very cold and the summers dry and hot, so that it is able to withstand the greatest extremes of cold and heat. It has been exposed to a minimum temperature of 45 degrees below zero at the Wyoming Experiment Station and it came through unharmed. We consider it superior to the common Alfalfa, as it makes a much faster growth and the hay produced is much finer and more nutritious. The seed we offer is imported direct from Turkestan. Lb. 40c; postpaid. By freight, lb. 30c; 10 lbs. $2.75; 25 lbs. $6.25; 100 lbs. $34.00. Prices subject to change.

HUNKEL'S "STAR" BRAND, MONTANA ALFALFA—Absolutely the best obtainable. Lb. 40c postpaid. By freight, Lb. 30c; Pk., $4.00; Bu. (60 lbs.) $15.00. (Subject to market fluctuations.)

(We can also furnish Western Grown Alfalfa and European grown seed at lower prices and will gladly quote upon request.)

Alfalfa Field. Fourth Cutting of the Season.

Alfalfa Field, Nutricia Farm, Thiensville, Wis. Yield: 5 tons hay to the acre, 3 heavy cuttings, very dry season, 30 inches high.
HUNKEL'S CLOVER SEEDS.

The prices on Clovers constantly change, and it is always best to write for latest market prices previous to ordering. But to customers at a distance, who cannot lose the time required to do this, we will say if prices are lower they will get the benefit, and if prices are higher we will ship all that the money sent will pay for. THESE PRICES ARE THOSE RULING ABOUT JAN. 1, 1911, AND ARE SUBJECT TO CHANGE.

Bugs extra at 20 cents each.

Medium Red, or June—This is the standard Clover and the best for hay. Sow in spring or fall at the rate of 3 pounds to the acre. Lb. 25c; by mail 30c; pk. $2.75; bu. $10.25; 100 lbs. $17.60. Write for prices. Mammoth, or Large Red—Resembles the Medium, but it is larger and coarser. Best for pasture and as a fertilizer; usually not considered as desirable as hay because too large. Lb. 20c; by mail 30c; pk. $2.75; bu. $10.25; 100 lbs. $17.60.

Alskie, or Swedish—The most hardy of all the Clovers. On rich, moist soils it yields an enormous quantity of hay or pasture, and may be cut several times in a season, but its greatest value is for sowing with other clovers, and it also forms a thick bottom and greatly increases the yield of hay, and cattle prefer it to any other forage. It is a true perennial, producing good crops on the same ground year after year. Sow at the rate of 6 pounds to the acre. Lb. 20c; by mail 30c; pk. $2.75; bu. $10.25; 100 lbs. $17.60.

Sainfoin or Esparsette—A deep rooting perennial clover, adapted to light, chalky soils; does well in western states. Lb. 15c; (by mail 25c); 10 lbs. $1.00; 100 lbs. $8.50.

Bokhara or Sweet Clover—Excellent bee plant; also used for fertilizing. Lb. 25c; (by mail 35c); 10 lbs. $2.00; 100 lbs. $25.00.

Berseem—Egyptian Clover—An annual clover suitable for the West and Northwest. Yields immense crops of nutritious forage. Lb. 35c; (by mail 45c); 10 lbs. $3.00; 25 lbs. $7.50; 100 lbs. $25.00.

HUNKEL'S SPECIAL GRASS MIXTURES.

For Permanent Meadows and Pastures.

There are a great many parts of the country where only one or two kinds of grasses are known, and mostly sown, and these are Timothy and Clover. While Timothy is a splendid grass, and Clover is the foundation of all successful farming, neither is permanent, nor well adapted for pasturing, and both are easily affected by drought and frosts, thereby making it necessary to re-sow every year or two. On this account we have made and offered the following permanent mixtures. These mixtures are put up with particular care, and with the best grades of seed only. We know that they will produce a heavy and thick growth, and will last for years.

The amount of seed necessary to seed an acre depends upon the land and the location, but we believe in heavy seeding, and think that 35 pounds would be a fair average.

These mixtures consist of the following grasses, mixed in proper proportion to give best results: Medium Red Clover, Mammoth Red Clover, Alskie, Alfalfa, White Clover, Crimson Clover, Fancy Red Top, Blue Grass, Timothy, Orchard Grass, Meadow Fescue, Hard Fescue, Sheep's Fescue, Meadow Poxtail, Tall Meadow Oat Grass, English Rye Grass, Italian Rye Grass, Creeping Bent, and Rough Stalked Meadow Grass.

For Permanent Meadows and Pastures.

Meadow Mixture No. 1—For good land, neither too dry nor too wet. Price, lb. 35c; (by mail 55c); 10 lbs. $2.00; 50 lbs. 1 acre) $6.00.

Meadow Mixture No. 2—For good land. Lb. 25c; (by mail 35c); 10 lbs. $2.25; 25 lbs. (1 acre) $7.50.

Meadow Mixture No. 3—For wet, late land. Price same as No. 1.

Pasture Mixture No. 1—On good land, neither too dry nor too wet. Price same as for Meadow Mixture No. 1.

Pasture Mixture No. 2—For dry land. Price same as Meadow Mixture No. 2.

Pasture Mixture No. 3—For wet land. Price same as Meadow Mixture No. 2.

These mixtures are adapted to grass lands that have become bare and thin can be improved by sowing this mixture at the rate of 10 pounds to the acre. It is advisable to harrow the sod with a sharp tooth harrow before sowing the seed. Sow the seed broadcast and then pass over with a heavy roller. Lb. 20c; (by mail 30c); 10 lbs. $1.00; 25 lbs. (1 acre) $3.50. (This $1.15."

Hog Pasture Mixture—This is a mixture of grasses and clovers which will give the quickest and best results. An early sowing will furnish a fine pasture by July of the same year. Every hog raiser should have an acre of this. Price, 14 lbs. (enough for 1 acre) $1.50.

Write us for Special Prices on Straight or Mixed Carloads of Farm and Grass Seeds.

HUNKEL'S PERFECT SEEDER.

A High Grade Seed Sower. It is built, not for cheapness, but for durability and accurate work. It weighs less than 4 lbs., yet strong and durable and so simple that a boy can operate it. Just the thing for sowing all kinds of clover and grass seed, millet, rapeseed and even larger grains. Price, $1.50.

TRIUMPH CORN PLANTER.

This is made by the same firm which turns out the well known "Triumph," but has the additional feature of a Pumpkin Seed Attachment, which it particularly valuable to farmers. Price, with Pumpkin Seed Attachment, $1.09, without Pumpkin Seed Attachment, 75c.

THE CAHOON SEEDER.

The old standard make for sowing the heaviest seed being, of course, thrown the greater distance. A man will easily sow an acre of corn with this machine, which weighs 5½ lbs. $3.00 each.

WE ISSUE A 28 PAGE POULTRY SUPPLY CATALOG.

OG WHICH WE GLADLY MAIL FREE. ASK FOR IT.
HUNKEL'S FLOWER SEEDS.

Seeds of the very best quality, pure and true to name. All flower seeds are sent prepaid by mail, and every purchaser of one dollar's worth or over is entitled to extra seeds. For particulars see inside front cover.

All hardy perennials if desired to flower the first season should be sown indoors in boxes or pans and as soon as the weather permits, they can be transplanted where they are wanted to bloom. If they are not wanted to flower the first season they can be sown in the open and later can be transplanted to the place they are to remain in, protecting them in winter with a covering of leaves or manure. All hardy annuals may be sown where they are intended to flower, thinning them out where they come up too thickly, at least 4 inches apart and over according to the size of the plant.

**ABOBRA.**

_Viridiflora—_A rapid growing climbing Gerard producing scarlet fruits, which form a striking contrast against the dark green of the foliage. Pkt. 5c.

**ABRONIA.**

_Umbellata—_A handsome trailing plant with clusters of sweet scented flowers, resembling the Verbena in shape, but of smaller size; color rosy-lilac with white eye. Pkt. 5c.

**ABUTILON.**

Desirable for the conservatory in winter, and for the border in summer, producing a profusion of lovely bell-shaped flowers. Mixed colors. Pkt. 5c.

**ADONIS.**

_Aestivalis (Flores Adonis)—_Forms plants with fine graceful foliage and brilliant scarlet flowers, remaining in bloom a long time. Grows well in the shade or under trees. Pkt. 5c.

**AGERATUM.**

The Ageratum is interesting on account of its neat, bushy habit, and its pretty, brush-like flowers, which are produced in clusters constantly all through the summer. Seeds may be sown in a mellow seedbed in the glasshouse, or under glass early in the season. The plants are well suited for carpet bedding. Annual.

_Mexicanum—_Blue. Pkt. 5c. 
_Album—_White. Pkt. 5c. 
_Mixed—_Pkt. 5c; ¼ oz. 15c.

**AGROSTEMMA.**

_Coel Rose (Rose of Heaven)—_An attractive and free-blooming hardy perennial, with velvety foliage and rose flowers. Blooms the first season and is of easy culture. Pkt. 5c.

**AMELOPSIS VEITCHII.**

_Boston Ivy—_A species of Woodbine, with very pretty olive green foliage, which turns to a bright scarlet, crimson and orange in fall. It does not require fastening as it clings to the smoothest of walls. It is perfectly hardy. Pkt. 5c; ¼ oz. 15c.

**ALLEHENY VINE.**

_Admnia Cirrissa—_A beautiful and graceful climber, thriving in a sheltered situation and climbing by its tendrils to any object within its reach. The foliage is pale green and the flowers are of a delicate rose, pink and white. Pkt. 5c.

**ALYSSUM.**

_Every garden should have plenty of Sweet Alyssum; its small white flowers, borne in great profusion, are delicately fragrant and valuable for cutting. It is a good basket and pot plant, and valuable for carpet bedding. In the border sow thickly, so as to make a mass. It is desirable to sow the seeds early in spring, or even in the previous autumn. To prepare a basket for winter blooming, sow the seeds about the last of August. If the plants come up thickly, thin them out; a dozen plants are enough for a good sized basket. When out of bloom cut back, and they will produce another crop of flowers.

_Sweet—_A favorite bouquet flower. The small flowers are white in color and are very fragrant. The seed can be sown early where it is to remain and if it comes up too thick it should be thinned out. Pkt. 5c; ½ oz. 15c; oz. 40c.

**AMARANTHUS.**

_A class of highly ornamental plants, many of which are grown exclusively for their handsome foliage, while others are equally desirable for their beautiful clusters of brilliant colored flowers, which are very effective for autumn decoration.

_Tricolor (Joseph's Coat)—_Leaves red, green and yellow. Pkt. 5c.

_Caudatus (Love Lies Bleeding)—_Long, drooping sprays of red flowers. Pkt. 5c.

_Many Sorts Mixed—_Pkt. 5c.

**AQUILEGIA, OR COLUMBINE.**

Charming hardy perennial plants, growing from 1 to 3 feet high, bearing in countless numbers through May and June their exquisite blossoms of clear blue, white, rose, yellow, purple, striped, etc. For planting in permanent borders or naturalizing along the edges of woods or shrubbery this old fashioned favorite is one of the best of all hardy plants.

_Chrysanta—_Bright yellow. Pkt. 5c. 
_Coerulea—_Porcelain blue. Pkt. 5c. 
_Vulgaris—_White. Pkt. 5c. 
_Double Mixed—_Pkt. 5c. 
_Single Mixed—_Pkt. 5c.
HUNKEL’S ASTERS.

The most popular and beautiful of all our hardy annuals. No plant produces so handsome an effect as a bed or border of Asters, and no garden should be without a liberal supply of these old favorites, as they furnish immense quantities of handsome and brilliant colored blooms during the greater part of our summers. The best results are obtained from rich, well-prepared soil. Sow indoors in February or March for early flowering, transplanting into shallow boxes or pots as soon as the seedings have formed three leaves; plant out doors when danger from freezing is past. For late flowering they can be sown outdoors in May or June.

Dwarf Chrysanthemum Flowered—About 9 inches high and of very compact habit. The flowers are very large and are produced when all others are out of bloom.

- Snow White—Scarlet—Brilliant Rose—Light Blue—Dark Blue—White to Azure Blue—Crimson—White to Pink—Mixed Colors.
- Any of the above colors, per pkt. 10c; 3 pkts. 25c; ½ oz. 30c.
- Giant Comet—The finest of all tall growing sorts. The plants grow about 18 inches high and bear their beautiful flowers in great abundance. The flowers resemble the Japanese Chrysanthemum and are of very large size.
- Mixed—Consists of many fine colors and strains. Pkt. 5c; ½ oz. 30c.
- Dwarf Mixed—A fine mixture of the tall cut flower sorts. Pkt. 5c; ½ oz. 20c.

Hunkel’s Extra Fine Mixture of Dwarf Astras—Many people find it difficult to choose among the various dwarf asters, and for that reason we have made this mixture, which we recommend to everybody who does not want an even border but does want an extra fine bed of asters. It is composed of the most distinct and desirable colors of the dwarf asters and we know that it will give satisfaction. Pkt 10c ¼ oz. 30c.

Hunkel’s Extra Fine Mixture of Tall Asters—This is a mixture of the very finest of all the tall asters. It includes not only the best of the tall sorts listed, but many new sorts besides, not sold outside of this mixture. Pkt. 10c; ½ oz. 30c.

THE CREGO ASTERS.

Finest of all Asters.

The Crego Asters surpass in size and beauty any aster we have ever seen. The flowers are simply immense, five to six inches in diameter, and are produced on strong stems about two feet long. The flowers are of beautiful form, with very long and gracefully curled petals. They are extremely double and very seldom show any yellow centers. We are sure that all who try this new aster will be pleased with it. Florists and gardeners will find the Crego a most profitable flower to raise. Its immense size, handsome form and long stems, will make it command the highest prices in any market. We offer seed of Crego’s own growing direct from his Oregon seed farm. We offer the following colors:

- White, Shell Pink, Rose Pink, Violet Blue, Mixed. Per pkt. 15c; ½ oz. $1.00.
- The Carlson Aster—A selection of the Paleony Flowered type. The flowers are large and firm; the stems long and stiff and the colors are decided and pleasing. The plants grow about 20 inches high and come in bloom medium early.
- White, Lavender, Rose Pink—Violet Blue—Daybreak Pink—Mixed. Any of the above per pkt. 10c; 3 pkts. 25c; ½ oz. 30c.
- Hohenzollern Aster—The finest type of the Giant Comet type of asters. Much larger than that variety, the petals are longer and more curled and twisted, and produced in greater abundance. Borne on long stems.
- Sky Blue—Dark Blue—Crimson—White—Delicate Pink—Rose—Finest Mixed. Any of the above per pkt. 10c; 3 pkts. 25c; ½ oz. 30c.
- Daybreak—A delicate pink Aster from which it derives its name. The flowers are very double and globe-shaped and borne symmetrically on the plant, making it one of the best varieties for bedding, as well as cutting. Blooms during August. Height 2 feet. Pkt. 10c; ½ oz. 30c.
- The Bride (White, changing to pink). Each, per pkt. 10c; 3 for 25c; ½ oz. 25c.
- White—Pink—Lavender—Crimson—Dark Blue—Mixed.
- Giant Comet—The finest of all tall growing sorts. The plants grow about 18 inches high and bear their beautiful flowers in great abundance. The flowers resemble the Japanese Chrysanthemum and are of very large size.
- Mixed—All of the above. Pkt. 5c; ½ oz. 20c.
- Purity—Of the same type as Daybreak, differing only in color, which is a pure glistening white. Just as free-flowering and symmetrical as Daybreak and undoubtedly unsurpassed as a white bedding variety. Pkt. 10c; ½ oz. 30c.
- Purple, Pink, White, Lavender, Red. Each, per pkt. 10c; ½ oz. 30c.
- Hunkel’s Extra Fine Mixture of Dwarf Asters—Many people find it difficult to choose among the various dwarf asters, and for that reason we have made this mixture, which we recommend to everybody who does not want an even border but does want an extra fine bed of asters. It is composed of the most distinct and desirable colors of the dwarf asters and we know that it will give satisfaction. Pkt 10c ¼ oz. 30c.
- Hunkel’s Extra Fine Mixture of Tall Asters—This is a mixture of the very finest of all the tall asters. It includes not only the best of the tall sorts listed, but many new sorts besides, not sold outside of this mixture. Pkt. 10c; ½ oz. 30c.

We recommend that everyone possessing a bed or border of asters should have a few of the Crego Asters in it. They are almost indispensable for filling in the gaps left by the Dwarf Asters, which are well on their way out. We can certainly recommend them to the best of our knowledge and experience.
ANTIRRHINUM, OR SNAPDRAGON.

An old garden favorite. Flowers are vivid and have pretty spotted throats; very fragrant. They are of easy culture, thriving in any soil and making very showy border plants.

Giant Pink, Giant White, Giant Scarlet, Giant Yellow, Giant White Bicycle, Giant Garnet. Each, Per Pkt. 10c; ¼ oz. 25c.

Tom Thumb—Grows 1 foot high. Pkt. 5c; ¼ oz. 15c.

Choice Mixed—Pkt. 5c; ¼ oz. 15c.

Extra Fine Mixed—Pkt. 10c; ¼ oz. 25c.

ARCTOTIS GRANDIS.

African Llilac Daisy—A new annual from Africa, forming bushes about 2 to 2½ feet in height and breadth. The flowers are large and showy and are borne on long stems. They are pure white on the upper surface, while the reverse of the petals is pale lilac. In the sunlight the flowers are red flat. Pkt. 5c.

ARISTOCHIA SIPHO.

Dutchman’s Pipe Vine—A hardy perennial climber of rapid growth, with very large heart shaped leaves, and curiously shaped yellowish-brown flowers. Pkt. 10c.

ASPARAGUS PLUMOSES.

Asparagus Fern—A very pretty house plant. The leaves are bright green, gracefully arched, surmounting the Maidenhair Ferns in grace, delicacy of texture and richness of color. Adapted to house culture. Pkt. 10c.

ASPARAGUS SPRENGERII.

A very fine plant to grow in hanging baskets, as the sprays grow from 4 to 6 feet long and hang over the sides. It flowers white, sometimes red berries. The sprays will remain fresh many weeks after cutting. Pkt. 10c.

BALLOON VINE.

Also called “Love in a Puff.” A rapid growing climber, succeeding best in light soil and warm situations. Flowers white; seed vessels look like small balloons. Pkt. 5c.

BALSAMS.

The Garden Balsam, or Lady’s Slipper, is one of the most popular of our tender annuals. It is a native of India and is adapted both to a bright sun and warm weather. The seed should be sown in the house, the seed chartreuses in a warm, sheltered spot, in light soil in the garden, after the garden has become warm. The seeds germinate quickly, and young plants make a rapid growth. When they are an inch or two high transplant the seedlings four or five inches apart, so that they may have light and air on all sides, and by the time they are about four inches high transplant them to their permanent place. Set the plants at least a foot apart, in well-enriched soil. Two feet high.

Double Camellia Flowered Balsams in the following colors:

White, Pink, Scarlet, Light Lemon, Dark Blue, Solferino (white, striped with purple), Extra Fine Mixed.

Any of the above per Pkt. 5c; ¼ oz. 30c.

BALSAM APPLE AND PEAR.

Curious climbing vines, with ornamental foliage, and golden yellow fruit. When the fruit is ripe, the leaves open, and shows the seed and blood-red inside. Pkt. 5c.

BRACHYCOME.

Swan River Daisy—A delicate, dwarf, half hardy, annual, six inches high, effective for edgings, beds or rustic baskets. Produces an abundance of daisy-like flowers about an inch in diameter and ‘n shades from dark blue to nearly white. Pkt. 5 cts.

BARTONEA.

Aurea—A pretty flowering plant of the gentian family and somewhat like a wild purple flower in appearance, producing a profusion of fine, bright metallic yellow flowers, about two inches across and fragrant in the evening. Tender annual; one foot high. Pkt. 10c.

BEGONIA.

Begonias are considered the cream of all bedding plants, as they will stand any treatment. They are easily grown from seed and if started early will bloom the first season.

BROWALLIA.

Beautiful for either bedding or pot culture. Grows about one foot high, forming dense little bushes which are covered with an abundance of light blue flowers. For the front of beds, borders, pots, we think it is the finest blue flower. Pkt. 5c.

BYRONOPSIS.

A beautiful climber, with bright green foliage. It bears cherry-like fruit, which ranges from green to scarlet, striped with white. Pkt. 5c.

CACALLA—Tassel Flower.

Pretty free flowering annuals with tassel shaped flowers. Also known as Flora’s or Devil’s Paint Brush. Pkt. 5c.

CALAMPELIS—Bugle Vine.

A climber with pretty foliage, bearing bright orange tube-shaped flowers in clusters. Grows about 10 ft. high. Pkt. 5c.

CALCEOLARIA.

Very showy for greenhouse or house culture. The plants grow about 18 inches high and during the spring and summer are covered with bright yellow flowers. Our seed is saved from the finest formed and mixed varieties. Pkt. 25c.

CALENDULA.

A free flowering hardy annual, growing in any good garden soil. It produces a fine effect in beds or borders and continues to bloom until frost.

Byronopsis—Beautiful flowers with orange stripes on pale yellow ground. Pkt. 5c; oz. 25c.

Prince of Orange—Similar to the Metro, with the exception of the striping, it being darker on this variety. Pkt. 5c; oz. 25c.

Mixed—The above and many others. Pkt. 5c; oz. 20c.

CANNAS.

Bloom from Seed the first Summer. Very few people know that Cannas can be grown from seed and that they will bloom the first summer. By sowing the seeds about 12 inches in warm water and then sowing in boxes or greenhouse, early in the season, they can be had to flower by the end of July. The seeds we offer are the best sorts only, and the plants which are grown from them are the finest. We advise cutting the seeds at the end before sowing.

Giant Canna Mixed—Pkt. 5c; oz. 25c.

Crozy’s Finest Mixed—Pkt. 5c; oz. 25c.
CALLIOPSIS, OR COREOPSIS.

Plants about two feet in height, of slender growth, and should be given plenty of room to spread. The flowers are of various shades of yellow and orange, variegated with rich velvety crimson or maroon. These graceful flowers are excellent for bouquets, their wavy and brilliant tints harmonizing well with other colors. The seeds grow very readily, and may be sown where the plants are to flower. Annual. 

Golden Wave—A very bushy plant with large golden flowers. Pkt. 5c; ¼ oz. 10c.

Dwarf Sorts, Mixed—Pkt. 5c; ¼ oz. 10c. Finest Double Mixed—Pkt. 5c; ½ oz. 20c.

PERENNIAL COREOPSIS.

Lanceolata—A very showy yellow sort, producing a great abundance of flowers all summer until late in fall. It is perfectly hardy. Pkt. 5c.

Giant 

Hyacinth Flowered—An improvement on the old Giant Empress. The flower heads are of immense size and resemble the Dutch Hyacinth. They are pure white and make fine cut flowers. Pkt. 5c; oz. 25c.

Dwarf Hybrids—This is a choice mixture of dwarf growing kinds, in a large variety of colors. Pkt. 5c; oz. 45c.

White Rocket—Pure white on large trusses. Pkt. 5c; oz. 15c.

Giant Empress—Pure white; of branching habit. Pkt. 5c; oz. 20c.

Carmine—Dwarf; flowers rich in color. Pkt. 5c; oz. 40c.

Line—Dwarf; very compact. Pkt 5c; oz. 25c.

All Sorts and Colors in Mixture—Pkt. 5c; oz. 16c.

PERENNIAL CANDYTUFT.

Candytufts have long been among the most highly prized of garden annuals. The best effect is produced by raising the plants in masses, the seeds being sown where the plants are to bloom. Sow in rows six to eight inches apart, and thin out the plants so that those remaining will have plenty of room. The soil should be rich, and when blooming time comes keep the plants well watered, especially if it be a dry time.

Giant Hyacinth Flowered—An improvement on the old Giant Empress. The flower heads are of immense size and resemble the Dutch Hyacinth. They are pure white and make fine cut flowers. Pkt. 5c; oz. 25c.

Dwarf Hybrids—This is a choice mixture of dwarf growing kinds, in a large variety of colors. Pkt. 5c; oz. 45c.

White Rocket—Pure white on large trusses. Pkt. 5c; oz. 15c.

Giant Empress—Pure white; of branching habit. Pkt. 5c; oz. 20c.

Carmine—Dwarf; flowers rich in color. Pkt. 5c; oz. 40c.

Line—Dwarf; very compact. Pkt 5c; oz. 25c.

All Sorts and Colors in Mixture—Pkt. 5c; oz. 16c.

CANDYTUFT.

Candytufts have long been among the most highly prized of garden annuals. The best effect is produced by raising the plants in masses, the seeds being sown where the plants are to bloom. Sow in rows six to eight inches apart, and thin out the plants so that those remaining will have plenty of room. The soil should be rich, and when blooming time comes keep the plants well watered, especially if it be a dry time.

Giant Hyacinth Flowered—An improvement on the old Giant Empress. The flower heads are of immense size and resemble the Dutch Hyacinth. They are pure white and make fine cut flowers. Pkt. 5c; oz. 25c.

Dwarf Hybrids—This is a choice mixture of dwarf growing kinds, in a large variety of colors. Pkt. 5c; oz. 45c.

White Rocket—Pure white on large trusses. Pkt. 5c; oz. 15c.

Giant Empress—Pure white; of branching habit. Pkt. 5c; oz. 20c.

Carmine—Dwarf; flowers rich in color. Pkt. 5c; oz. 40c.

Line—Dwarf; very compact. Pkt 5c; oz. 25c.

All Sorts and Colors in Mixture—Pkt. 5c; oz. 16c.

CELOSIA OR COXCOMB.

Half hardy annual, which, if planted in light rich soil and given plenty of moisture, will grow to a height of 18 inches and make a brilliant display of colors both of foliage and flower. There are two classes of these attractive plants, the Feathered and the Crested. The Feathered sorts have mass-size, graceful flowers, and the crest above the foliage, while the crested sorts have a dense compact head, which, many times, is shaped like a cock's comb. 

Feathered Sorts Mixed—Pkt. 5c; ¼ oz. 10c.

Dwarf Crested Mixed—Pkt. 5c; ¼ oz. 10c.

Coxcomb.

CARNATIONS.

Sow indoors and transplant when weather permits and they will bloom the first summer, or sow outside as soon as danger from frost is over, transplanting them when large enough and covering them in winter, and they will bloom early the following summer.

New Giant Margaret—A new giant form of the old Margaret, bearing very large flowers in great abundance and variety of colors. The plants grow upright and require hardly any support. Choicest colors. Pkt. 10c.

Margaret—Mixed colors. Pkt. 5c.

Margaret—Pure white. Pkt. 5c.

Choicest Double Mixed—All colors. Pkt. 5c.

CANARY BIRD VINE.

An excellent climber for shady places. A rapid growing vine of the Nasturtium family with clean, handsome, foliage and bright canary-yellow flowers. Pkt. 5c; oz. 25c.

CANTERBURY BELLS—

Campanula.

Handsome, hardy biennials of stately growth, rich color and profuse bloom. Excel best in light, rich soil and in the fall should be transplanted, and planted to eighteen inches or two feet apart and given some protection in severe winter weather. Have large, bell-shaped flowers which are strikingly effective, colors white and various shades of violet, rose, lily, and blue. Height two to four feet.

Single Mixed—Pkt. 5c; ½ oz. 15c.

Double Mixed—Pkt. 5c; ¼ oz. 15c.

Calyxenthes—(Cup and Saucer.) Beautiful flowers, three inches long, saucer three inches across. Plants form pyramids of bloom about two feet high, and frequently bear 150 blossoms for weeks during the early summer. Pkt. 5c; ½ oz. 20c.

CARAVENUS.

An excellent climber for shady places. A rapid growing vine of the Nasturtium family with clean, handsome, foliage and bright canary-yellow flowers. Pkt. 5c; oz. 25c.
CYPRESS CINERARIA.

The Centaurea are an exceedingly interesting genus of plants, embracing annuals, biennials and perennials, which through botanical and horticultural analogy are very different in appearance. Some are very valuable for the beauty of their silvery white, velvety foliage, the flowers being unattractive; others are highly prized for the beauty of their flowers. They are easily grown from seed. Will bloom freely from outdoor sown seed. Sow in the open in April or May.

Bachelor's Button—(Ragged Sailor or Corn Bottle.) 2 to 3 feet high. Fine cut flowers. Pkt. 5c; ½ oz. 10c.

Emperor William—Rich deep blue; very fine. Pkt. 5c; ½ oz. 10c.

Gynocarpus—Double Corn Flower—This variety has been so improved that about 80 per cent, now come double and semi-double. Very fine. Pkt. 5c; ½ oz. 10c.

The New Giant Sweet Sultan "Imperials"—This new Centaurea is the finest one of all. The bushes are 1½ feet high and are covered with large beautiful flowers. Pkt. 5c; ½ oz. 25c.

Sweet Sultan, Mixed—Contains many fine sorts. Pkt. 5c; ½ oz. 10c.

CHINESE LANTERN PLANT.

Physalis Francheti—This handsome Chinese plant is as easily grown from seed as a tomato, art is perfectly hardy outside, over winter. It produces a large number of balloon-like husks, 3 to 3½ inches across. At first these are a bright green then light to bright yellow, then orange and scarlet. They merely resemble in this last stage miniature Chinese lanterns when lighted. Pkt. 10c.

CHRYSANTHEMUMS.

The demand for these showy and useful flowers is increasing very rapidly. They bloom freely during the summer and until late in the fall, making a splendid display in flower beds; very useful for pot culture. Succeed best in rich loam, well dressed with rotted manure.

Chinese and Japanese Varieties—The seed we offer is saved from a collection of 50 different varieties, both Chinese and Japanese, and excellent results may be expected. If the seed is sown in February or March and properly treated, the plants will bloom profusely next fall, equal to any plant started from cuttings. Pkt. 10c.

Coronarium—Double white. Pkt. 5c; ½ oz. 10c.

Double Golden Yellow—2 feet high. Pkt. 5c; ½ oz. 10c.

Double Sorts in Mixture—A very fine mixture. Pkt. 5c; ½ oz. 10c.

Single Varieties Mixed—All colors and varieties. Pkt. 5c; ½ oz. 10c.

Frutescens—(Paris Daisy.) Large white star-shaped flowers. A very free bloomer. Hardy perennial. Pkt. 5c.

CINERARIA.

Very pretty plants, growing from 1 to 2 feet high, and bearing flowers of wondrous beauty, all brilliantly colored.

Hybrid Mixed—Pkt. 10c.

Double Cinerarias—Extra fine. Pkt. 55c.

Maritima—An ornamental foliage plant, with large silvery leaves. Pkt. 5c.

COLEUS.

The finest foliage plants grown from seed. Indispensable where a fine effect is wanted. The seed we offer will produce many new sorts. Pkt. 10c.

One of the finest of our summer climbers, with fine foliage and bell-shaped flowers. It grows very rapidly, often attaining a height of 20 to 30 feet, and spreading out correspondingly. In sowing place the seed edge-wise and cover lightly.

Blue—Pkt. 5c.

White—Pkt. 10c.

Mixed—Pkt. 5c.

COSMOS.

A tall, graceful, showy annual, enjoying the widest popularity. It has been developed into a variety of shapes and colors. 3 to 5 feet high. Blooms profusely in late summer and autumn. Excellent for cut flowers. The season of bloom can be lengthened by starting seed in house and planting out in early spring.

Mammoth Perfection Cosmos—A magnificent selection, bearing flowers of mammoth size and perfect form, and representing the highest development in Cosmos to date. Fine Mixed. Pkt. 5c; ¼ oz. 10c.

Early Flowering Cosmos—This new early Cosmos has been so improved that it will now bloom in July and continue blooming until frost. It is a very pretty flower, having a heart of yellow and surrounded by broad deep petals. It is carried on long slender stems, the base of which is covered with feathery foliage. Pkt. 5c; ¼ oz. 15c.

Giant-Flowering Lady Lenox—This gigantic Cosmos is 6 to 7 inches in diameter. Color shell pink, lighting up beautifully at night. When cut and placed in water it lasts a long time. Plants strong and vigorous, growing 6 to 7 feet high. Pkt. 10c; ¼ oz. 15c.

CYCLAMEN.

Valuable pot plants with orchid like blossoms of great variety and beauty of coloring, varying from the purest white to the darkest crimson. Seed may be sown any time during the spring or autumn. The strains we offer are unsurpassable.

Pure White; Dark Crimson; Rose Von Marienthal, Daybreak; White, with Pink Eye; Rose; Finest Mixed. Each, Pkt. 10c.

CYPRUS VINE.

A most beautiful climber with delicate, dark green, feathery foliage and an abundance of bright, star-shaped, rose, scarlet or white blossoms, which contrast most effectively with the graceful foliage. Tender annual; about 18 to 20 feet high.

Cypress Vine.

CYPERUS, OR UMBRELLA PLANT.

An easily cultivated foliage plant white grows in water, with rich soil or mud, throwing up long stalks with narrow green leaves.

Pkt. 10c.

ALL FLOWER SEEDS SENT POSTPAID.
DAHLIAS, FROM SEED.
It is not generally known that dahlias can be raised from seed and that they Will Bloom the First Year. The seed we offer, if sown early, will bloom, profusely all fall. Seed can either be started in the house and transplanted, or it can be sown in the open ground.
Double Mixed—Extra choice. Pkt. 10c.
Single Mixed—Finest sorts. Pkt. 5c.

DIANTHUS, OR PINKS.
Most useful and desirable plants. They cannot be excelled for beauty and variety, of colorings and markings. Sow outdoors during May. Height 9 to 18 inches.
Double Imperial Pinks—All colors mixed. Pkt. 5c; 1/4 oz. 15c.
Double Chinese Pinks—All colors mixed. Pkt. 5c; 1/4 oz. 10c.
Double Japan Pinks—The flowers are large, of the brightest colors and handsomely fringed. They are borne on long stems, thus making them useful for cut flowers. Pkt 5c; 1/4 oz. 25c.
Mourning Cloak—The almost black flowers are fringed with white. Pkt. 5c; 1/4 oz. 20c.
Mixture of All Double Pinks—Pkt. 5c; 1/4 oz. 15c.
Single Chinese Pinks—Resembling the Giant Sweet Williams, with the exception that they are larger and the variety of colors is greater. Pkt. 5c; 1/4 oz. 15c.
New Royal Pinks—The flowers are beautifully frilled and fringed. Pkt. 5c; 1/4 oz. 25c.
Finest Single Mixed—All sorts and colors. Pkt. 5c; 1/4 oz. 15c.

PERENNIAL PINKS.
Plumarium, 'Hunnek's Mammoth Daisy'—Single fringed, white with dark center. Pkt. 5c; 1/4 oz. 10c.
Plumarium, (Florepleno)—Choicest mixed colors. Pkt. 5c; 1/4 oz. 40c.

DOUBLE DAISIES—(Hellas.)
Plants of Daisies will bloom the first summer from seed, and continue blooming for years. If given a slight protection during winter. They do not require any particular soil, but they should be partially shaded. Bloom all summer.

Hunkek's Mammoth Daisy—For size of flowers and doubleness these have no equals. The flowers average 1 1/2 to 2 in. in diameter, are very double, ranging in colors from snowy white to pink and blood-red, with the prettiest combinations of pink and white. Pkt. 10c; 3 for 55c.
Snowball—Long stemmed; large white flowers. Pkt. 5c.
Double Mixed—Extra choice sorts. Pkt. 5c.
Shasta Daisy—A magnificent hardy perennial of the easiest culture. The seeds should be sown early. Bears immense flowers of pure white, on long wiry stems. Splendid cut flowers of good lasting qualities. Pkt. 10c.

DATURA.
Ornamental strong growing annuals, attaining a height of 2 to 3 feet. The flowers are trumpet shaped and in various shades of white, yellow and purple colors. Fine for beds, borders, and mixed flower borders. Can be taken up in winter and saved the same as dahlias.
Cornucopia—Flowers double white inside and purple on the outside; measure 8 inches long and 5 inches across. Pkt. 5c.
Queen—Similar to the above, with the exception of the color, which is a brilliant yellow. Pkt. 5c.
Mixed Sorts—The above and many others. Pkt. 5c; 1/4 oz. 10c.

DRACAENA—(Dragon Plant.)
Indivia—Beautiful ornamental-leaved plants, indispensable for vases and house decorations. Narrow foliage. Pkt. 5c.

EVERLASTING FLOWERS.
Helichrysum—All colors mixed. Very fine for bouquets and cut flowers. Can be dyed in any color. Sow the seed in the open ground. It is advisable to cut the flowers before they have fully expanded. Pkt. 5c; 1/4 oz. 15c.

DOLICHOS—Hyacinth Bean.
A rapid growing climber, bearing pea-shaped purple blossoms. The seed pods are deep purple in fall. Sow against trellis, etc., in April or May; grows 10 feet or more.

PRINCESS HELEN, or DAY-LIGHT—The flowers, which appear in great numbers are snow white and sweet scented, and are followed by cream colored pods, which remain until late in fall. Pkt. 10c; 1/4 oz. 15c.

Purple Sondon—Beans and foliage are purple. Pkt. 5c; 1/4 oz. 15c.

DIGITALIS, (Fox Glove.)
The Foxgloves are quite stately and highly ornamental plants when well grown with flowering stems at least three feet in height. They are fine for the mixed border, or planted singly in half shady places near a walk or drive. The racemes of flowers are often two feet in length, containing scores of the prettily spotted thimble-shaped flowers. Perfectly hardy. Sow seed in spring in the garden, and transplant as desired. Perennial. Mixed varieties. Pkt. 5c; 1/4 oz. 15c.

ESCHOLTZIA—California Poppy.
Beautiful free blooming plants of easy culture. Sow seed in May or June, where it is intended to remain, as the plants do not permit transplanting. Double sorts in the following colors: White, Rose, Yellow, Mixed. Each, pkt. 5c; 1/4 oz. 15c.

Single Sorts Mixed—All the finest sorts. Pkt. 5c; oz. 20c.

Hunnenmann, or Bush Escholtzia.

The plants grow into a shrubby bush. 2 feet high, and produce large, tulip-shaped flowers. The color is bright yellow, and the petals are broad and crinkled. Pkt. 5c; 1/4 oz. 15c.

ALWAYS SOW HUNKEL'S "MILWAUKEE PARK" LAWN SEED.
EUPHORBIAS
Variegata (Snow on the Mountain)—A hardy annual, with light green white-margined leaves. Pkt. 5c.
Heterophylla (Annual Poinsettia Mexican Fire Plant, Painted Leaf)—An annual in habit and color similar to the well-known Poinsettia. The plants are branching, 2 to 3 feet high, with smooth, glossy green leaves, which change to a beautiful orange-scarlet in summer, presenting a brilliant and striking appearance. Pkt. 10c.
FORGET-ME-NOT (Myosotis)—A favorite old fashioned flower, bearing in profusion clusters of blossoms. It thrives well in the shade or open border. Hardy perennial.
Dissectiflora—One of the best. It is of compact habit and a profuse bloomer, the color being an exquisitely blue. Pkt. 10c.
Palustris—Blue, ½ foot high. Very fine. Pkt. 10c.
Blue Victoria—A compact, bushy plant, about 6 inches high, and completely covered with azure blue flowers. Pkt. 10c.
White Victoria—Same as the above with the exception of the color which is a clear white. Pkt. 10c.
Pink Victoria—Clear pink, otherwise the same as the above. Pkt. 10c.
FOUR O'CLOCKS
Marvel of Peru—Large growing, shrub-like plants with funnel-shaped flowers of many colors. These flowers open in the evening and wither in the morning. The roots may be preserved during winter in the same manner as Dahlias. Pkt. 5c; oz. 10c.
FUCHIA
We ill-known house plants. They bloom the first year from seed. We offer a mixture of the finest double and single varieties. Pkt. 10c.
GALLARDIA
One of the last annuals for bedding, as it is a constant bloomer and presents so many different colors. Very fine for cut flowers. Doubles, Etc. A Fine Mixed—This is a mixture of the finest double and single varieties. Flower heads measure 2 inches across. Pkt. 5c; ¼ oz. 15c.
Hardy Perennial Gallardia—A fine new class with very large flowers of new and brilliant colors and markings. Pkt. 5c; ¼ oz. 15c.
GERANIUMS, FROM SEED.
Geraniums grow readily from seed and produce blooming plants the first summer. The seed we offer is taken from the finest varieties.
Fine Mixed—Contains many new sorts not sold outside of this mixture. Pkt. 5c.
GLOXINIA
Gloxinias are most charming house plants. Their flowers are produced in greatest profusion, and are of the most exquisite and gorgeous colors, many of which are magnificently spotted, mottled and blended. The seed we offer is saved from prize winning plants. Pkt. 15c.
GOLDEN ROD
The well-known golden-yellow variety; 2 to 5 feet. Pkt. 5c.
Helipterum—Wild.
Gypsophila are valuable for bouquet making, either green or dried. They are very graceful, and easily cultivated. Should be in every garden. All flower the first season. G. paniculata continues to bloom several years.
GREAT SAGE'S BREATH—An annual which thrives everywhere and produces lovely flowers on long stems, suitable for all kinds of bouquets. The flowers are white in color. Pkt. 5c.
Elephants Rosen—Same as the above with the exception of the color, which is a delicate pink. Pkt. 5c.
Paniculata (Baby's Breath)—Flowers white. This is a hardy perennial. Pkt. 5c.

GODETIA.
A very beautiful hardy annual. The plants are of dwarf habit and are covered with handsome shaped flowers of brilliant colors. Sow in the open ground in May. Mixed colors. Pkt. 5c.

GOURDS—(Ornamental.)
Handsome climbers of rapid growth many of the vines climbing 50 feet in one season and producing a vast amount of foliage and very pretty flowers. The fruit grows in many odd shapes and can be dried and used for many purposes. Hercules Club—Grows long, club-shaped. Pkt. 5c.
Towel, or Dish Rag—Bears green fruits, the inside of which when ripe can be used as a cloth. Pkt. 5c.
Dipper Gourd—The fruit can be cut and used as a dipper. Pkt. 5c.
The Nest Egg—Resembles the eggs of a hen, in shape, color and size. Pkt. 5c.
Turk's Turban—One of the most peculiar shapes. Pkt. 5c.
Orange—Resembles the orange in shape and color. Pkt. 5c.
Mixed—The above and many others. Pkt. 5c; oz. 5c.
One Pkt. Each of the Six Different Kinds (6 pkts.)—20c.

HUMULUS, OR JAPANESE HOP.
A hardy, quick-climbing vine. It has no equal in resisting drought or insects. The foliage is variegated and is splashed and streaked with white. Pkt. 5c; ¼ oz. 10c.

ICE PLANT.
A peculiar dwarf trailing plant, the leaves and stem of which are covered with crystal-like globes, giving it the appearance of being covered with ice. Pkt. 5c; ¼ oz. 10c.

KENILWORTH IVY
Neat and charming perennial climbers, suitable for vases, baskets, etc. The plant thrives in cool, dense shade, and likes plenty of water. Grows very rapidly. Pkt. 5c.

GODETIA.
A very beautiful hardy annual. The plants are of dwarf habit and are covered with handsome shaped flowers of brilliant colors. Sow in the open ground in May. Mixed colors. Pkt. 5c.

GOURDS—(Ornamental.)
Handsome climbers of rapid growth many of the vines climbing 50 feet in one season and producing a vast amount of foliage and very pretty flowers. The fruit grows in many odd shapes and can be dried and used for many purposes. Hercules Club—Grows long, club-shaped. Pkt. 5c.

Turk's Turban—One of the most peculiar shapes. Pkt. 5c.
Orange—Resembles the orange in shape and color. Pkt. 5c.
Mixed—The above and many others. Pkt. 5c; oz. 5c.
One Pkt. Each of the Six Different Kinds (6 pkts.)—20c.

HUMULUS, OR JAPANESE HOP.
A hardy, quick-climbing vine. It has no equal in resisting drought or insects. The foliage is variegated and is splashed and streaked with white. Pkt. 5c; ¼ oz. 10c.

ICE PLANT.
A peculiar dwarf trailing plant, the leaves and stem of which are covered with crystal-like globes, giving it the appearance of being covered with ice. Pkt. 5c; ¼ oz. 10c.

KENILWORTH IVY
Neat and charming perennial climbers, suitable for vases, baskets, etc. The plant thrives in cool, dense shade, and likes plenty of water. Grows very rapidly. Pkt. 5c.
HOLLYHOCK.

The Hollyhock in its present state of perfection is very unlike its parent of olden time: it now ranks with the Dahlia. For a background to a flower garden no plant is so useful, the flowers being as double as a rose, and of many shades of color. Blooming plants can be grown from seed the first year by starting the seed in the house in February or March and setting them out about the first of May; they will then bloom in autumn and in the second and succeeding years will bloom freely. Seed sown in July or August will produce fine blooming plants the following summer.

**Double White, Double Red, Double Pink, Double Yellow—** Each, Pkt. 10c; ¼ oz. 40c.

**Single Mixed—** All the single sorts in fine mixture.

**Allegheny Hollyhock—** The stamens of this variety are formed by loosely arranged fringed flowers, as if they were made of China silk. The plants are of strong growth, sending up spikes 6 to 7 feet high. Will bloom the first summer from seed. Finest Mixed. Pkt. 10c; ¼ oz. 35c.

**KOCIA SCOPARIA—Summer Cypress.**

A handsome ornamental annual plant, growing easily from seed sown in the open ground when the trees come into leaf. The plants are globular in shape, the stems being covered with slender light green leaves. Early in fall the shoots are covered with small scarlet flowers making the plant look like a ball of fire. Pkt. 5c.

**LARKSPUR—DELPHINIUM.**

Plants remarkable for their beauty, diversity of shape and ornamental qualities. The flowers are white, pink, blue, rose and violet.

**Annual Varieties—** These bloom early the first season from seed and die when frost comes. Sow in the open in April or May.

**Emperor—** A profuse bloomer and very double; many colors mixed. Pkt. 5c.

**Double Dwarf Rocket—** Finest colors; beautiful for bedding. Pkt. 5c; ¼ oz. 15c.

**Double Tall Rocket—** Long showy spikes; 2 feet. Pkt. 5c; ¼ oz. 15c.

**Perennial Varieties—** Taller than the usual varieties, thus requiring more room. Sow in house early and transplant. Cover slightly during winter.

**Flowers—** Brilliant blue, white, center; especially effective. Pkt. 5c.

**Zalzi—** A sulphur yellow variety of branching habit. Pkt. 10c.

**Nudicula—** The most brilliant of all, and the only pure scarlet. Flower stems of fine length. Pkt. 10c.

**Hunkel’s Best Mixed of Perennial Larkspur—** This mixture contains all the finest strains of the perennial Larkspur and will surely please. Pkt. 10c.

**LOBELIA.**

**Lobelia Bedding Queen—** All are annuals except *L. cardinalis,* which is a hardy perennial.

**White Gem—** Fine for bedding and pots. Pkt. 5c; ¼ oz. 20c.

**Crystal Palace Compacta—** Deep blue; dark foliage; best for bedding. Pkt. 10c; ¼ oz. 25c.

**Splendens—** (Bedding Queen.) Intense scarlet flowers. Pkt. 10c.

**Emperor William—** Dark Blue; dwarf. Pkt. 5c.

**Erinus Gracillis—** Best variety for hanging baskets. Pkt. 5c; ¼ oz. 15c.

**Cardinalis—** Cardinal Flower. An extremely brilliant scarlet bloomer, fine, high. Hardy perennial, of easy culture. Pkt. 10c.

**CHINESE KUDZU VINE.**

**Jack-and-the-Bean-Stalk Vine.** A vine that will grow everywhere. Flourishes where nothing else will grow and lasts for many years. The large bold leaves of the brightest green afford a dense shade. Its greatest feature is its wonderfully strong growth which makes it invaluable for covering arbors, fences, dead or old trees, etc. The Kudzu Vine is a native of China, where it is grown not only for the beauty of the plant, but also for the edible value of the roots. The vine is hardy grows 90 feet, with dense foliage to the ground. Pkt. 10c.

**LINUM.**

**Flowering Flax—** One of the most effective and showy bedding plants, of long duration, having fine foliage and delicate stems with brilliant scarlet-crimson flowers; hardy annual; 1 foot. Pkt. 5c.

**MARIGOLD.**

The African and French Marigolds are valuable for the flowers in autumn and are used for edging flower beds, their fiery-blooming qualities and brilliant colors making them popular. It is easy to grow and can be grown to advantage in little clumps with other plants in the front of shrubbery or in the garden border. The African varieties are the taller in growth, and produce large self-colored blossoms. The French varieties are shorter, some of them being elegantly striped and spotted. The dwarf-growing kinds adapt themselves to spots where the taller varieties would be unsuitable. Seeds can be sown in a cold-frame or in a seedbed in the open border, and the young plants transplanted late in the spring to where they are to remain. They succeed best in a light soil, with full exposure to the sun.

**Annual—**

**African, Eldorado, Double—** Immense flowers, 2 to 3 inches around; very double; 2 feet high; many shades and colors. Pkt. 5c; ¼ oz. 15c.

**Double African Mixed—** Flowers very large and double; about 18 inches high. They are very fine for bedding. Pkt. 5c; ¼ oz. 15c.

**French, Legion of Honor—** The handsomest of all the Marigolds. The plants grow about 12 inches high and are drought and insect proof. These flowers are a rich golden-yellow color, marked with a velvety brown; bloom from the middle of summer to late in the fall. Pkt. 5c; ¼ oz. 15c.

**Double French, Mixed—** Very fine, each plant almost forming a bouquet for itself. Pkt. 5c; ¼ oz. 15c.

**MAURANDIA.**

Beautiful, rapid, slender-growing climbers, blooming profusely until late in autumn; also fine for house or conservatory. Sow early and plant will flower first season; 10 feet high. Pkt. 5c.

**HUNKEL’S "MILWAUKEE PARK" LAWN SEED WILL MAKE A FINE LAWN IN SIX WEEKS.**
MIGNONETTE.—RESEDA.

This little annual is a favorite with nearly every flower lover and deserves to be, as it is always clean looking and gives forth its delicately sweet fragrance at all times and is at its best in the spring and late fall. For spring flowers sow the seed indoors in March or April and transplant, when weather is warm, in permanent beds. For fall or winter flowering plant the seed in June or July.

Mignonette makes a very splendid winter blooming house plant as well as being one of the best for beds and borders.

Giant Machet—Plants dwarf and vigorous, of good habits, producing very large spikes of very sweet scented red flowers. Fine for outdoor or pot culture. Pkt. 5c; ½ oz. 20c; oz. 65c.

Large Flowering Pyramid—The flowers are very sweet; stems very stiff. One of the best for cut flowers. Pkt. 5c; ½ oz. 10c; oz. 35c.

Nana Compacta Multiflora—Dwarf; flowers red and very sweet. Pkt. 5c; ½ oz. 10c; oz. 35c.

Golden Queen—A very pretty and distinct sort, with thick, compact tufts of a beautiful golden color. Pkt. 5c; ½ oz. 10c; oz. 35c.

Parson's White—Distinct white; 9 inches high. Pkt. 5c; ½ oz. 10c; oz. 30c.

MIMOSA.

Sensitive Plant—An interesting little plant, being so sensitive that if touched, the leaves will instantly fold up. When the hand is removed they will unfold again. The small flowers are pink. Pkt. 5c.

MIMULUS.

Moshatus, (Musk Plant)—Beautiful, free-blooming plants, suitable for vases or hanging baskets. The Flowers have a delicate musk-like scent; foliage is yellow. Pkt. 5c.

PHLOX DRUMMONDI.

Very pretty free-flowering annuals of quick compact growth, coming into bloom early, and lasting a long time. If sown in quantity the coloring is very brilliant.

Fine Mixed—Many fine sorts and colors. Pkt. 5c; ½ oz. 20c; oz. 65c.

Large Flowering Phlox—An improvement on the Drummondii, producing flowers almost twice the size. We offer the following colors: Intense Scarlet; Alba-Peachblush, White with eye; Large Yellow; Scarlet striped; Rosea Carmine, White eye; Alba, Pure white. Any of the above, per pkt. 5c; 6 pkts. 25c; ½ oz. 30c; oz. 1.00.

Large Flowering Sorts Mixed—Includes all the finest selected sorts. Finest colors. Pkt. 5c; ½ oz. 25c; oz. 75c.

Star of QUELLINBERG—This is the most distinct Phlox we have. The flowers have a star-like appearance and the edges of the retails are margined with white. Pkt. 5c.

Dwarf Phlox—The small, compact bush-like plants are covered with a profusion of flowers. Fine for pots, beds, etc. Finest Mixed. Pkt. 10c; 5 pkts. 25c.

Double Phlox—The flowers of the double Phlox last longer when in bloom than the single sorts, and are very fine cut flowers. Finest Mixed. Pkt. 10c.

Hardy Phlox—These plants are perfectly hardy and require no protection during winter. They succeed in any soil, but prefer rich, rather moist ground. Finest Mixed. Pkt. 10c.

NIGELLA.

Damnaseen Nana (Love in a Mist or Devil in a Bush) Compact growing, free-flowering plants, with curious-looking flowers and seed pods. Pkt. 5c.

HORMECKIA BICOLOR.

Grows about two feet high, forming a many-branched dense bush, and producing its long-stemmed flowers in great abundance. Disk Brown; flowers yellow, with brown spots at the base. Pkt. 5c.

SCARLET RUNNERS.

Fine climbers, growing about ten feet in a season and producing dazzling red flowers. Well known as the Fire Bean. Pkt. 5c.

MATRICARIA.

Double Feverfew—Bushy garden plants with double white flowers and pretty curled foliage. Pkt. 5c.

MORNING GLORY.

Undoubtedly one of the most profuse flowering vines in cultivation; easy of culture; it thrives well in almost any situation. The beauty and variety of its flowers are unsurpassed.

Mixed Varieties—All sorts and colors. Pkt. 5c; oz. 10c; ½ lb. 25c; lb. 60c.

Dwarf Morning Glory—This plant grows about 1 foot high and possesses all the richness of color peculiar to the climbing varieties. It is covered with flowers throughout the whole season. Pkt. 5c; oz. 10c.

Bona Nox (Evening Glory)—Violet; flowers large and fragrant, especially in the evening. Pkt. 5c.

Imperial Japanese Morning Glories—The flowers are of gigantic size and the colors and markings are beyond description, ranging from the lightest to the darkest shades of all colors. The foliage on some is green, while on others it is spotted and striped. Pkt. 5c; ½ oz. 10c; oz. 15c.

Imperial Japanese “Fancy Fringed”—This is a selection of the regular Japanese and contains only the finest. Flowers often times grow as large as saucers. Pkt. 10c; ½ oz. 20c.

MOONFLOWER.

Ipomoea—The flowers of this plant open at dusk or on cloudy days and emit a delicious odor. They are 5 to 6 inches in diameter, with 5 pointed star in the center. Start seeds in house. Pkt. 10c.
HUNKEL'S NASTURTIUMS.

These are without doubt the most admired of any of our summer flowering plants, and succeed well in any garden soil, even under the most ordinary conditions of culture. Light or gravelly soils produce the best results, for in rich soils they show a tendency to run to leaf. Nothing can equal the tall varieties for covering fences, verandas or unsightly outhouses. They flower profusely, giving an immense blaze of color, which greatly tends to heighten the appearance of the garden.

DWARF SORTS.

Price of any of the following: Pkt. 5c; oz. 10c; 4 lb. 25c.

**Aurora**—Deep chrome yellow.
**Beauty**—Scarlet, blotched canary.
**Empress of India**—Very dark leaves, crimson flowers.
**Golden King**—Brilliant yellow.
**King of the Tom Thumbs**—Very handsome, deep scarlet flowers, dark foliage.
**King Theodore**—Maroon, dark foliage.
**Pearl**—Creamy white.
**Ladybird**—Golden yellow, each petal barred with a vein of ruby crimson.

**Dwarf Nasturtiums, Mixed**—Pkt. 5c; oz. 10c; 4 lb. 25c; ½ lb. 40c; ½ lb. 75c.

**HUNKEL'S "ELITE" MIXTURE OF DWARF NASTURTIUMS.**

The Dwarf Nasturtiums are admirably adapted to beds and borders, and for that reason we have put up the Elite mixture. This mixture contains the greatest variety of colors, in even proportion, and includes not only all of the good named varieties, but many new sorts. This is just what you are looking for. Pkt. 10c; oz. 15c; ⅛ lb. 40c; ½ lb. 70c; lb. $1.25.

TALL SORTS.

Price of any of the following: Pkt. 5c; oz. 10c; ¼ lb. 25c.

**Edward Otto**—Velvety bronze.
**Tall Pearl**—Cream white.
**Heinemann**—Chocolate color.
**Hemisphericum**—Lemon yellow, with rosy scarlet blotches.
**King Theodore**—Deep red; dark foliage.
**Prince Henry**—Yellow, marbled scarlet.
**Dunnett's Orange**—Orange colored.
**Vesuvius**—Salmon rose, dark leaved.
**Luteum**—Yellow.
**Von Multha**—Beautiful rose.

**Tall Sorts Mixed**—Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 35c; lb. 65c.

**Lobbs Nasturtiums**—A finer sort than the ordinary; their flowers are more brilliant; they grow very rapid and bloom freely. Pkt. 5c; oz. 10c; ¼ lb. 20c; ½ lb. 40c; ½ lb. 75c.

**HUNKEL'S "ELITE" MIXTURE OF TALL NASTURTIUMS.**

Only the finest named sorts are used in this mixture, and those only that WE know will make good combinations in color. Pkt. 10c; oz. 15c; ¼ lb. 40c; ¼ lb. 70c; lb. $1.25.

NICOTIANA.

**Afinis (Sweet Scented Tobacco Plant)**—This plant attains a height of about 2 feet and produces an abundance of pure white, star-shaped flowers of delicious fragrance. If taken up and potted it will bloom all winter. Pkt. 5c.

**Sunderae (Carmine-Flowered Tobacco Plant)**—The plants are bushy and much branched, 2 feet in height, literally ablaze with handsome carmine-red blossoms. Its combined hardiness and character of producing flowers continuously in any kind of soil and situation is remarkable. Pkt. 10c.

PETUNIA

A highly ornamental and profuse flowering, easily cultivated garden favorite. The brilliancy and variety of its colors, combined with the duration of its blooming period, render it invaluable for planting out in beds or mixed borders. The seeds of the double Petunia do not possess as much vitality as those of the single and a great deal of care must be used to get them to germinate; nor will they all come double.

**Giants of California**—These new Petunias are specially selected and improved by an expert in California, and are now very large, and have become famous for their marking and combination of colors. Many are fringed, while others are ruffled. Pkt. 15c.

**Blotched and Striped**—Flowers with star-shaped blotches. Pkt. 5c.

**Pure White**—Suitable for cemetery. Pkt. 5c.

**Fringed**—Beautiful flowers with fringed edges. Pkt. 15c.

**Mixed**—Pkt. 5c; ¼ oz. 25c.

**Large Flowering Mixed**—A select mixture of all the large flowered sorts. Pkt. 10c.

**Hunkel's Mixture of Double Petunias**—This is a mixture of the finest large flowering and fringed Petunias. The seed is saved from pot-grown plants, and will produce fine large double flowers. Pkt. 25c.

**THE FINEST LAWNS ARE SEEDED WITH HUNKEL'S "MILWAUKEE PARK" LAWN SEED.**
HUNKEL'S PANSIES.

Our collection of Pansies contains the finest varieties now in cultivation. All the varieties here listed are of established merit and can be relied upon. Seeds sown in April or May will produce blooming plants by the last of June, which will give an abundance of flowers throughout the remainder of the season. About the middle of August is the best time for starting Pansy seeds for early spring blooming, as this allows the plants to go into winter in vigorous condition.

PRICE: Any of the following varieties, except where noted, pkt. 10c; 3 pkts. 25c.

Giant Adonis—A magnificent light blue with a white center which sets off the dark blotches on the petals in a most striking way.

Giant Aurora—Flowers are large; color pure white.

Giant Emperor William—Ultramarine blue with distinct dark eye.

Giant Fairy Queen—One of the finest of the giant sorts. The flowers are of a lovely sky blue color bordered with white.

Giant Fiery Faces—Rich scarlet with a gold edge and yellow center.

Giant Golden Queen—Clear golden yellow.

Giant King of the Blacks—A jet black of giant size.

Giant Lord Beaconsfield—Deep purple-violet, shading to white on the upper petals; very effective.

Giant Mauve Queen—A new and distinct color, being of a delicate mauve, each of the three lower petals marked with a large carmine blotch.

Giant Pres. McKinley—The ground color is golden-yellow, while each petal has a large blotch of dark violet.

Giant Prince Bismarck—Brown with black blotches.

Giant Peacock—Upper petals of a royal purple, while the lower petals are of a deep clarat, with white margins.

Giant Striped—Ground red, brown and mahogany; nicely striped.

Giant White—Pure white with a large violet blotch on the three lower petals. Flowers 8 inches in diameter.

Giant Yellow—A beautiful clear yellow, heavily blotched on the lower petals.

Type of Hunkel's "International" Pansies.

Bugnot—Of enormous size and circular form; the petals are of great substance and velvety appearance, each one bearing a large, deeply colored blotch that runs out in delicate veils to the edge; the shadings comprise tints of red, bronze and brown. Pkt. 10c.

Giant Cassier—A very rich and showy large flowered sort, beautifully blotched. The flowers are borne on long stems. Pkt. 10c.

Madam Perret—The colors are pleasing shades of dark wine, pink and red, finely veined and edged with white margin. The edge of the petal is frilled. Pkt. 10c.

Mammoth Butterfly—A selected strain, spotted and blotched, resembling the gorgeous hues on the butterfly's wings. Pkt. 10c.

Masterpiece—New Giant Curled—This strain comes nearer to double Giant Pansies than anything ever introduced under that name. In reality the number of petals is the same as that in other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 8 inches across, and the color variations and combinations are odd and striking. Pkt. 10c.

All Colors Mixed—This contains all colors and markings of many varieties. Pkt. 5c; 1/4 oz. 25c.

Giant Trimarédu Mixed—The flowers are large, with dark blotches on the three lower petals. An elegant mixture. Pkt. 10c; 3 pkts. 25c.

Hunkel's "Giant Mixture" of Pansies includes not only all of the named giant sorts, but many new fine sorts not sold outside of this mixture. Next to our "International" we consider this the finest mixture sold. Pkt. 10c; 3 pkts. 25c; 1/2 oz. $1.00.

HUNKEL'S INTERNATIONAL MIXTURE OF PANSIES.

The best mixture of Pansies on the market. It contains only the giant, well-rounded, perfect-shaped flowers and all the possible colors and markings. All the flowers have velvety petals and all stand erect on good stiff stems. Pkt. 25c; 3 pkts. 65c; 6 pkts. $1.00; 1/2 oz. $1.50.

PASSION FLOWER.

Magnificent ornamental climbers, with remarkably handsome blue and white flowers. Very fine for conservatories and gardens. Pkt. 5c.

PYRETHRUM— Feverfew.

The varieties grown for their flowers can be found under Matricaria. An old garden favorite very much used for borders; also used for bedding.

Aureum (Golden Feather)—Bright golden foliage for beds and borders. Pkt. 5c.

Selingoides (Fern Leaved)—Very dwarf; golden yellow foliage. Pkt. 5c.

SALPIGLOSSIS.

Plants about two feet high. Flowers are funnel-shaped, of brilliant colors, very beautifully veined and marbled. Bloom until late in fall. All the largest flowering sorts in mixture. Pkt. 5c; 1/4 oz. 25c.

NEMOPHILA.

Also called Love Grove. A bright colored annual. Colors blue, white, and all shades. Of compact habit, 1 foot high. Blooms freely in cool places and not too rich a soil. All colors mixed. Pkt. 5c.
Poppies.

If a show bed is wanted sow poppies. They are very effective in lines or groups, their brilliant colors showing them off to a fine advantage.

**SINGLE POPPIES.**

**Iceland Poppies**—Produce flowers the first year from seed. They are perfectly hardy and if once sown will bloom for years. The colors range from the purest white to the deepest orange-scarlet; they are especially fragrant. Yellow, Orange-Scarlet, White. Finest each per pkt. 5c.

**Tulip Poppy**—Single dazzling scarlet flowers, whose outer petals form a tulip-like cup. Pkt. 5c.

**Shirley Poppy**—The handsomely flowers are single and semi-double, beautiful in color, from pure white to deep crimson. The flowers, if cut when young, will keep in water for several days. Pkt. 5c; 1/4 oz. 15c.

**Oriental Poppies**—The flowers are very large, often measuring more than 6 inches across, while the colors range from soft flesh to the most brilliant scarlet. Hardy perennials and require very little protection during winter. Pkt. 5c.

**Double Poppies Mixed**—This mixture contains all of the above and many others besides. Pkt. 5c; oz. 25c.

**Dannebrog**—Flowers of deep red, petals marked with white blotch. Pkt. 5c.

**DOUBLE POPPIES.**

**Paeony Flowered**—The flowers resemble the Paeonies in size and color and are very fine for bedding. Pkt. 5c; 1/2 oz. 10c; oz. 15c.

**Primula or Primrose**—Double—dazzling bright pink, red, and white. These seed very easily and are ideal for forcing for early bloom. Each per pkt. 5c.

**Carnation Flowered**—Of large size and variety of colors. Pkt. 5c; oz. 20c.

**White Swan**—The plants grow about 18 inches high, in very bushy form, and are crowned by flowers of enormous size, very double and pure white. Pkt. 5c.

**Double Yellow**—A rare new kind; flowers pure yellow. Pkt. 10c.

**Double Poppies in Mixture**—All the above and others in mixture. Pkt. 5c; oz. 20c; 1/4 lb. 60c.

**PORTULACCA OR MOSS ROSE.**

A very pretty annual which will grow and bloom in dry, hot situations where most plants would die. It can be transplanted at any time, even when it is in full bloom. It blooms till frost.

**Extra Fine Single Mixed**—Small trailing plants which bear brilliant, delicate flowers. Succeed best in light sandy soil and should be exposed to the sun. Pkt. 5c; 1/4 oz. 20c.

**Double Sorts**—Flowers of the Double Portulacca make a grand display, remaining open all day in the burning sun. Mixed. Pkt. 10c; 3 pkts. 25c; 1/4 oz. 75c.

**Salvia**—Bonfire.

**Salvia or Flowering Sage.**

The Scarlet Salvia are among the most brilliant red-flowering bedding plants in cultivation. They bloom from middle of July to frost. Sow seed early indoors or in a frame in time to set good plants to set out of doors the latter part of May or when the weather is suitable. Massed in a bed, or a row or two around the verandah, they make a beautiful show. Set plants one foot apart.

**Clara Bedman (Bonfire)**—The plants are compact and produce long spikes, of which there are sometimes two hundred to a plant, bearing from twenty to thirty flowers each. For masses on the lawn or in the garden, or in rows along the walks its brilliant, dazzling scarlet flowers are simply gorgeous. Pkt. 10c; 3 for 25c; 1/4 oz. 50c.

**Beauregard**—This new, large flowering Salvia (Scarlet Sage), has three times the flowering capacity on each spike of the ordinary Salvia Splendens. The flowers are produced in great numbers, causing the spikes to droop by their weight. It is one of the most desirable plants for decorative purposes if planted either single, in groups or with other plants. The flowers are of the most brilliant, dazzling scarlet, produced in endless profusion and until late in the fall. Pkt. 10c; 3 for 25c; 1/4 oz. 40c.

**Splendens (Scarlet Sage)**—The long spikes are scarlet and almost cover the foliage. Pkt. 5c; 1/4 oz. 25c.

**HUNKEL'S WILD FLOWER GARDEN.**

Our Wild Flower Garden Mixture consists of many varieties of beautiful, easy-growing flowers, producing a constant and varied bloom the whole season, for sowing in shrubbery, under trees and in beds on which no care will be bestowed, or even for sowing in exposed situations, where wildness is preferred to order and precision. The mixture comprises all the popular garden favorites and will flower successfully and yield an abundance of bloom. Pkt. 5c; oz. 10c; 1/4 lb. 30c.
SCABIOSA, OR MOURNING BRIDE.

This is one of the most attractive of the old fashioned flowers. Its great abundance and long succession of rich colored fragrant blossoms borne on long stems make it one of the most useful of the decorative plants of the garden. It has been greatly improved of late years, producing larger and more double flowers of greater variety and brilliancy of color than in the old type. Hardy annual; twelve to eighteen inches high.

Dwarf Double—Flowers very double and 1½ bu- lar; plant dwarf. Pkt. 5c; ¼ oz. 10c; oz. 50c.

Tall Double—Large flowering, some of the flowers averaging three inches across; very double. Fine for cut flowers. All colors mixed. Pkt. 5c; ¼ oz. 10c; oz. 50c.

SCHIZANTHUS, OR BUTTERFLY FLOWER.

(The Poor Man's Orchid.)

This splendid annual has fringed flowers of rich and varied colors. It grows about 18 inches in height. The mixture we offer embraces many types. The colors are purple, white and rose, and the mark- ings and tints are beautiful. The flower is well named, being quite butterfly-like in appearance. Pkt. 5c.

SMILAX.

No twining plant in cultivation surpasses this in graceful beauty of foliage. Indispensable to flor- ista; its hard texture enables it to be kept several days after being cut, without wilting. THE SEED GERMINATES VERY SLOWLY. The process may be hastened somewhat by soaking the seed in hot water for ten hours before planting but even then it is often six or eight weeks before the plants make their appearance. Tender perennial climber; ten feet high. Pkt. 5c.

SOLANUM.

Jerusalem Cherry—Very pretty ornamental plants for house or garden culture. The flowers being followed by small, brightly colored fruit or berries, which almost completely cover the plants. Flowers, and sets fruit the first summer, from seed. Perennial. Pkt. 5c.

THUNBERGIA.

Beautiful, rapid-growing annual climbers, with pretty flowers (white, buff, or orange, with dark eyes) borne in profusion. Seeds start slowly at first, and should be sown in a hotbed. When the plants are a few inches high transplant to a light, rich, loamy soil in the garden. For house culture, baskets and vases, there are few plants superior to the Thunbergia. They may be used very effecti- vely in beds, pegged down. Mixed colors. Pkt. 5c.

VINCA.

Highly ornamental free-blooming plants. Seed should be sown early and the plants will bloom the first season. Can be taken up and potted in winter.

Pink, Pure White, Mixed Colors. Each, per pkt. 5c.

VIOLET.

Sweet—The old fashioned sort; much in demand on account of its abundant and fragrant bloom. Pkt. 5c.

STOCKS OF GILLI-FLOWERS.

(Lovkoycn.)

Among the best and most popular garden fa- vorites, being surpassed by no other flower in brilliancy of coloring and general effect. The plants grow from 10 to 18 inches in height and are of compact form. They commence to bloom in about 10 weeks from time of sowing and continue until killed by frost. They are thirsty plants and must be watered in dry weather.

Large Flowering Ten Weeks Stocks—Produce very large spikes of very large double flowers.

White, Brilliant Rose, Crimson, Canary Yellow, Purple, Light Blue. Each per pkt. 10c; 3 pkts. 25c; ¼ oz. 90c.

Large Flowering Finest Mixed—The above and others in excellent mixture. Pkt. 10c; 3 for 25c; ¼ oz. 50c.

Good Mixed—Also a good mixture. Pkt. 5c; ¼ oz. 50c.

Perfection (Cut and Come Again)—About 18 inches high; branches freely. This is an almost per- petual bloomer. The flowers are pure white, very large, and carried on stems about 3 inches long. Pkt. 10c; ¼ oz. 75c.

Snowball—The earliest Ten Weeks Stock. Flowers double and pure white. Pkt. 10c.

SWEET WILLIAM.

For display in the garden, the Sweet William is unsurpassed. The plants produce a succession of flower clusters, thus affording splendid bloom for several weeks. The colors are exceedingly varied, ranging from white through many shades of rose, lilac, red, carmine, crimson, maroon to nearly black, usually two shades to each plant. The seed can be planted in the spring in open ground and will bloom in the fall or the following spring; or it can be sown in August and will make fine blooming plants for the summer following. Hardy perennial; one and a half foot high.

Auricula Flowered—Mixed single varieties, showing a distinct eye. Pkt. 5c; ¼ oz. 15c.

Single Mixed—A mixture of all the finest single sorts. Pkt. 5c; ¼ oz. 15c.

Double Mixed—All the finest double sorts in even proportion. Pkt. 5c; ¼ oz. 20c.

SOW HUNKEL'S "MILWAUKEE PARK" LAWN SEED.
**SUNFLOWER.**

Cut-and-Come-Again Sunflower—A new class of branching Sunflowers, producing an abundance of flowers, 3 to 4 inches across and borne on long, stiff stems. The plants form pyramidal bushes 3 to 4 feet high. Fine for cut flowers. Pkt. 5c; ¼ oz. 10c.

"Cut-and-Come-Again" White Star—Almost pure white with black eyes. Pkt. 5c.

**TORENIA.**

Mammoth Russian—Both stalk and flower are of enormous size. Oz. 5c.

Double Mixed—Many double varieties in fine mixture. Pkt. 5c.

Single and Double Mixed—The above and others. Pkt. 5c.

**VERBENA.**

Very few plants will make such a gorgeous display during the summer months as the Verbenas, or furnish more flowers for cutting. Start seed in the house or under glass early in the spring, and transplant after three or four inches of growth. Good healthy plants can be produced from seed as readily as almost any tender annual. They flower in July, and continue strong and healthy until destroyed by frosts.

**WALLFLOWERS.**

If sown early with flower the first season from seed, blooming in profusion from early July until late autumn without injury. The blossoms are of large size and are borne in compact short spikes or clusters and are exceedingly sweet scented. The plants are not injured by fall frosts, and bloom until December. They are also hardy and bloom well the second year. The colors range from yellow to dark brown, striped, etc.

**ZINNIA.**

(Young and Old Age.)

Few flowers are so easily grown from seed sown in the open ground, or bloom so abundantly and continuously through the entire season as this hardy annual. Marvelous improvements have been wrought in the newer strains. During the month of August Zinnias are almost incomparably bright. We recommend a free use of them for groups, beds, borders, garden lines and summer flowers in the open ground early in spring. Average height, 1½ to 2 feet. The collections offered below are choice.

**WILD CUCUMBER.**

A well known vine, common in many sections, and the quickest climber known for covering verandas, old trees and houses, trellises, etc., never suffering from the heat, always retaining its fresh and lively color; never infested with insects and never profuse in bloom. Pkt. 5c; ½ oz. 10c; oz. 15c; ¼ lb. 40c.
HUNKEL'S SWEET PEAS.

CULTURAL NOTE—The plants should not be raised on the same ground for two or three consecutive seasons, neither should they be planted on the same ground after culinary peas. They will not thrive on poor land. They need sun. Bone meal is the best fertilizer to use. Manure is not desirable. Do not sow too thick. By sowing 50 seeds per square foot, the plants will bloom a trifle later but they will be stronger and bloom longer. Don't water so as to wet the surface but see when you water that it soaks into the ground about 6 inches. Cut the flowers continually. The more you cut the more they bloom. Remember that when you sow them with any seed they will stop blooming. The plants will bloom if planted in late May or early June in warm weather. We have found that the early sowing is better than late sowing if you want a long period of bloom. We have found that in warm weather the plants bloom in about 70 days. By careful fertilization and selection double flowers are produced, and they are very large and beautiful. About half the seedlings will produce double and semi-double flowers, which from their size and form are very attractive. Mixed. Pkt. 5c; oz. 10c; 4 lb. 25c; lb. 60c, postpaid.

White.

White Spencer—A pure white of enormous size and splendid substance, long, strong stems. Pkt. 10c; oz. 15c; 4 lb. 35c; lb. $1.00.

Nora Unwin—Pure white, finely waved or fluted; of good substance. ¼ lb. 35c; lb. 85c.

Dorothy Eckford—Flowers pure white and very large and enormously productive.

Emily Henderson—Early white.

Mont Blanc—Pure white; very graceful habit, throwing the flowers well above the foliage. Very early.

Yellow or Primrose.

Hon. Mrs. E. Kenyon—The finest primrose yellow.

Primrose Spencer—True primrose color; both wings and standard are waved. Pkt. 10c; oz. 15c; ¼ lb. 35c; lb. $1.00.

Stella Morse—Delicate primrose flushed with pink.

Pink and Rose.

Apple Blossom—Rosy pink with blush wings.

Bolton's Pink—Standards self-pink shaded delicately and pale pink. ½ lb. 25c; lb. 75c.

Countess Spencer—A lovely clear pink shading deeper at the edges. Pkt. 10c; oz. 20c; ¼ lb. 50c; lb. $1.50.

Gladys Unwin—Pale-rose pink; early and valuable for cutting. Very long stems.

Helen Lewis—Fine apricot-pink, large flower and showing wavy standard. ¼ lb. 25c; lb. 75c.

Janet Scott—Clear, deep, bright pink; large size; somewhat raised. ¼ lb. 25c; lb. 75c.

Katherine Tracy—Soft brilliant carmine pink; flower large and of good substance.

Mrs. A. Watkins—Superb pink with large flowers borne on long stems. ¼ lb. 35c; lb. 90c.

Phillips Unwin—Deep rose carmine, wavy standard. Flowers very large and heavily produced. ¼ lb. 25c; lb. 85c.

Flora Donna—Soft pink.

Queen of Spain—Peach blossom pink with slight apricot tinge; hooded form. ½ lb. 35c; lb. 90c.

Golden Yellow.

Blanche Ferry—The popular pink and white. Earliest of All—Same as the Blanche Ferry but 10 days earlier.

Red.

King Edward VII.—Bright crimson; large open flowers; long stems.

Queen Alexandra—The nearest approach to pure scarlet. Standard hooded or shell shaped.

Salopian—Deep scarlet or cardinal; of fine grandiflora form; stands the sun well.

Othello—Beautiful deep glossy chocolate red; flowers very large of hooded form.

Lavender.

Countess of Radnor—Pale mauve. Dorothy Tennant—Rose-mauve.

Flora Norton—Clear bright blue.

Lady Grisel Hamilton—Mauve, light blue wings; extra large, beautiful, fully stop blooming.

Mrs. Walter Wright—A beautiful shade of mauve with bright shaded wings. ¼ lb. 25c; lb. 85c.

Blue and Purple.

Capt. of the Blues—Bright purple-blue; grand.

David R. Williamson—Standards bright indigo blue; wings lighter shade.

Rosa Duke of Westminster—Purple; flowers of large size.

Variegated.

American—Bright blood red striped on white ground.

Auvergne—Orange-flaked striped white.

Dainty—White with pink edges.

Helen Piercer—Flowers pure white, veined, mottled and marbled with bright blue. ¼ lb. 25c; lb. 75c.

Lottie Eckford—White, edged with blue.

Maid of Honor—Flowers light blue on white ground; bold edge of deep lavender. Showy.

HUNKEL'S "CREAM CITY" MIXTURE OF SWEET PEAS.

This mixture contains the cream of the new and standard sorts. It consists mainly of light shades, but enough dark shades are sprinkled in to give it tone. Only the large flowering sorts are used, and we make the claim that no better Sweet Pea mixture can be bought anywhere at any price. Price, by mail, postpaid, Large pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 65c; lb. $1.60. By express, ¼ lb. 30c; ½ lb. 65c; lb. 90c; 5 lbs. $4.00.

The Park Mixture—This excellent mixture is composed of all the varieties of all the large flowering types, in even quantities of color. Pkt. 5c; oz. 15c; ¼ lb. 25c; lb. 85c. Postpaid. By express, ¼ lb. 30c; ½ lb. 65c; lb. 90c. 5 lbs. $1.75.

All Colors Mixed—Also a good mixture. It contains many different colors and will bloom throughout the season. Oz. 5c; ¼ lb. 25c; lb. 60c. Postpaid. By express, ¼ lb. 30c; ½ lb. 65c; lb. 90c; 5 lbs. $1.35.

DWARF OR CUPID SWEET PEAS.

The Cupid Sweet Peas are not climbers. The plants grow only about 5 to 6 inches high, and spread to a diameter of 15 inches. They are constantly laden with flowers from early June until late in the summer. Finest Sorts in Mixture. Pkt. 5c; oz. 15c; ¼ lb. 25c; lb. 60c, postpaid.

DOUBLE SWEET PEAS.

By careful fertilization and selection double flowered sweet peas have been produced, and they are very large and beautiful. About half the seedlings will produce double and semi-double flowers, which from their size and form are very attractive. Mixed. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 60c, postpaid.
HUNKEL'S SUMMER FLOWERING BULBS AND ROOTS.

Special Offer to Cash Buyers—With each dollars worth of bulbs ordered, purchaser may select 15 cents worth extra. This offer does not apply to collections, these being sold at reduced prices.

UNLESS OTHERWISE NOTED, THE PRICES ON BULBS INCLUDE POSTAGE.

BEGONIAS, TUBEROUS ROOTED.

The Begonias are among the handsomest of our summer flowering bulbs. They bloom continuously throughout the summer, until the frost cuts them. To those of our customers who are tired of planting Geraniums, we recommend a bed of Begonias. The flowers are very large, often measuring 4 inches in diameter, and are produced in all shades of rose, scarlet, white, orange and yellow. Their roots become dormant in fall and can be carried over winter until spring, when nature will cause them to renew their growth.

Single Sorts—White, Yellow, Scarlet, Pink. Each, 7c; doz. 70c; 100, $5.00. Mixed Colors: Each, 5c; doz. 50c; 100, $3.75.

Double Sorts—White, Yellow, Scarlet, Pink. Each, 12c; 4 for 45c; doz. $1.25; 100, $7.50. Mixed Colors: Each, 10c; doz. $1.00; 100, $7.00.

CANNAS.

Canna tubers should not be put into the ground until soil has become warm. The plants commence to bloom in June and continue until late in September. Every shoot bears a flower, and these shoots are being constantly produced during the flowering season. The dormant roots that we offer are large, clean, healthy pieces, containing many eyes, and will stand subdivision, and should not be classed with the small shrivelled-up pieces of root that are often sent out. We can furnish these roots until about April 20th.

We consider the following named varieties as the best:

Price of any variety: Each, 10c doz. $1.00; 100, $6.00, postpaid. By express, 100, $5.00.

Chicago—Foliage green; flowers are a clear, deep vermilion scarlet. The flowers are very large and open, being nearly flat, and consisting of 5 petals, each being 1½ inches wide, 4 feet high.

Chas. Henderson—Excellent bedder; rich crimson flowers; very large and abundantly produced; foliage dark green margined bronze. 4 feet high.

Eugandie—Purple foliage; strong, compact flower spikes; flowers are large and of a bright cherry red color. 4 feet high.

Mrs. Crozy—Flowers borne in great clusters; color, a glossy brilliant vermilion, bordered with gold; foliage bright green. 4 feet high.

President McKinley—Plant dwarf and bushy; foliage deep green; flowers large and freely produced all summer; color, a fiery, deep crimson. 3 feet high.

DAHLIAS.

The interest displayed in the Dahlias in the last few years shows that this plant has again recovered the popularity that it justly deserves. We have paid especial attention to this plant with the object of selecting the best varieties, and we know that the sorts listed here will yield satisfaction. All varieties a free bloomers.

SIX DAHLIAS OF SPECIAL MERIT.

Kriemhilde—(Cactus)—Delicate pink shading to white in the center; perfect form, profuse bloomer. Fine for cutting as stems are very strong.

Britannia—(Cactus)—A delicate shade of soft salmon-pink, passing toward base of petal to apricot. 4 feet.

Mrs. Chas. Turner—(Cactus)—Extra large, of perfect form; petals long and pointed. Color, clear bright lemon yellow.

Little Blue Ohau—(Decorative)—The only true blue dahlia; very handsome.

Wm. Fawcett—(Fancy)—A pleasing combination of cream, peach-blossom and purple shades. Very effective.

Sylvia—(Fancy)—Flowers of fine form and full to the center, which is white shading to soft pink on the rim. Very profuse bloomer.

Price of any of the above, 25c each; $2.50 per dozen; postpaid.

SIX HIGH GRADE STANDARD DAHLIAS.

Black Prince—(Decorative)—A beautiful variety. Color, deep velvety maroon, almost black.

Burleigh—(Fancy)—Bright crimson dotted with small white spots.

A. D. Livoal—(Show)—Beautiful clear pink, with quilted petals and full to the center; a very early bloomer.

Philadelphia—(Show)—A free flowering pure lemon.

Snowclad—(Pompom)—Unquestionably the finest white, the plant being enveloped with a mass of flowers.

Thomas Lisbon—(Fancy)—A very strong grower and profuse bloomer. Color, a beautiful pink shading to white towards the center.

Price of any of the above, 15c each; $1.50 per dozen; postpaid.

TWENTIETH CENTURY SINGLE DAHLIA.

A grand single variety, entirely distinct. Rosey crimson with white tips and white disc around the yellow center; this does not fade or change like many other flowers, but in each new flower the dark-colored zone becomes lighter as the season advances, really giving a new and distinct flower each time. Each 20c; $2.00 per dozen; postpaid.
CALADIUM, OR ELEPHANT'S EAR.

One of the most effective plants now in cultivation for planting in the lawn, or for border use. Unequaled for use as border of bed of Cannas or Caster Oil Plants. The plants grow 5 feet high, with handsome leaves often 2 to 3 feet long and about 20 inches wide. They will grow in any good garden soil and are of very easy culture. Bulbs should be taken up in winter and stored away.

First Size—1 1/2 to 2 inches in diameter. Each 75c; doz. $1.50; 100, $5.00. By mail, 3c each. extra.

Select Size—2 1/2 to 3 inches. Each 10c; doz. $1.00; 100, $7.00. By mail, 5c each. extra.

Extra Large Size—3 to 4 inches. Each 15c; 3 for 40c; doz. $1.50; 100, $10.00. By mail, 10c each. extra.

CINNAMON VINE, OR CHINESE YAM.

A rapid growing climber which shows up well if trained around windows or on a trellis. Its foliage is glossy-green, heart-shaped. During summer, white, cinnamon-scented flowers are freely produced. Each 5c; 6 for 25c; doz. 48c.

GLOXINIAS.

Beautiful house plants of easy culture. Flowers are trumpet-shaped with beautiful markings, shaded violet, rose, blue or crimson. One bulb planted in a 5 inch pot will make a magnificent show, and if planted at intervals will give continuous bloom for a long time.

Finest Mixed—Each, 12c; doz., $1.00, postpaid.

MADEIRA VINE.

A rapid grower with dense and beautiful foliage, twining to a great height. It thrives best in a warm, sunny, sheltered location, though it will grow anywhere. Can be trained around the windows. Each, 5c; doz. 45c.

GLADIOLUS.

No Garden is Complete Without Some of These Beautiful Summer Flowering Bulbs.

The easiest grown and most attractive summer flowering bulb. Invaluable for cut flower decorations, will live a week in water. Plant the bulbs in May or June in any good garden soil, 6 inches apart and 4 inches deep. The strongest bulbs should be kept for the last planting. If a succession is wanted, lift bulbs in fall and store away in cellar until wanted in spring.

New Gladiolus "Americas"—The finest variety for cutting or bedding ever introduced. Color a beautiful soft flesh pink, slightly tinged with lavender, which give it the delicate coloring of the finest orchid. The flowers are unusually large and perfect. Each 10c; doz. $1.00; postpaid.

Augusta—Pure white with blue anthers. Each 5c; doz. 50c; postpaid. By express, 100, $5.50.

Breschleyensis—Intense fiery scarlet; very effective for masses. Each 3c; doz. 25c; postpaid. By express, 100, $1.50.

May—White ground penciled with crimson, fine for cutting. Each 4c; doz. 35c; postpaid. By express, 100, $5.25.

GLADIOLUS IN MIXTURE.

Hunkel's "Cream City" Mixture—We think that this is the finest mixture of Gladiolus that has ever been put on the market. It is composed of selected strong bulbs grown by prominent specialists throughout the country. It includes the very best varieties in every color and shade, and represents the best type of perfection yet attained in these popular bulbs. Each 5c; doz. 50c; postpaid. By express, 100, $3.25.

Extra Finest Mixed—This is sold by many as their best mixture, and at a price almost double of ours. While it is not as good as our "Cream City" Mixture, it will produce many grand flowers. At the price we name, a fine bed can be planted at a small cost. Each 4c; doz. 35c; postpaid. By express at purchaser's expense, 50, $1.00; 100, $4.75.

Good Mixed—Just what the name indicates; composed of bulbs of many varieties and will produce many flowers. Each 3c; doz. 55c; postpaid. By express at purchaser's expense, 50, 75c; 100, $1.25.

Scarlet and Crimson Shades Mixed—Each 4c; doz. 35c; postpaid. By express, 50, 85c; 100, $1.50.

Pink and Rose Shades Mixed—Each 5c; doz. 40c; postpaid. By express, 50, $1.10; 100, $2.00.

Light and White Shades Mixed—Each 5c; doz. 40c; postpaid. By express, 50, $1.10; 100, $2.00.

Striped and Variegated Shades Mixed—Each 5c; doz. 50c; postpaid. By express, 50, $2.00; 100, $3.50.

Yellow Shades Mixed—Each 7c; doz. 65c; postpaid. By express, 50, $2.50; 100, $4.50.

LILIES.

Auratum (Gold Banded Lily)—Large, graceful flowers, composed of six petals of a delicate white, thickly studded with chocolate-crimson spots, and striped through the center a golden yellow. Each 15c; per doz. $1.50; if by mail add 5 cents each.

Album—Large white flowers of great substance, with a greenish band running through the center of each petal. Each, 15c; doz. $1.50; if by mail add 5 cents each.

Rubrum—Flowers white, with a deep rose crimson band on each petal, with deeper colored spots between. Very fragrant. Each, 15c; doz. $1.50; if by mail add 5 cents each.

Melpomene—Rich crimson, heavily spotted and bearded; frosted white. Each, 15c; doz. $1.50; if by mail add 5 cents each.

Tigrinum Splendens (Improved Single Tiger Lily)—Very hardy native lily; orange-red, spotted purple-black. Pretty and bears 5 to 20 flowers when well established. Each, 10c; doz. $1.00; postpaid.

Tigrinum Flore Pleno—The well-known double Tiger Lily; grows from 4 to 6 feet high, and bears an immense number of bright orange flowers. Each, 12c; doz. $1.25; postpaid.
IRIS.

The Iris, or Fleur-de-Lis, is one of the most beautiful hardy garden plants grown. It is of easy culture and will succeed in any good garden soil.

German Iris—The national flower of France. It is one of the most desirable of the early spring flowering plants, being especially fine if planted in moist places. It blooms and grows luxuriantly, producing large orchid-like flowers of exquisite colors. Each, 15c; doz. $1.50. By mail, 5c each extra.

Japanese Iris—One of the most beautiful of our summer flowering plants. The flowers are of enormous size, measuring from 6 to 8 inches across, and of indescribable and charming hues and colors, every flower usually representing several shades. They bloom in June and July and attain their greatest perfection if grown in moist soil. Perfectly hardy; once planted will last a lifetime. Each 20c; doz. $2.00. By mail 5c each extra.

PAEONIES.

The Herbaceous Paeonies have always held an important place among hardy plants, and with the wonderful improvements made upon them in the last few years have established themselves among the leaders for popular favor. No plants are easier grown than the Paeonies. They will succeed in almost any soil, but do best if planted in deep, rich soil, and in a sunny location. Liberal watering will produce extra fine results in the flowers. They are perfectly hardy and require no protection whatever, even in the most severe climate, and once planted will last a lifetime, with very little care.

Separate Colors—DOUBLE RED; DOUBLE WHITE; DOUBLE PINK;—Large clumps, each 25c; doz. $2.50, postpaid. Extra Large Clumps, each 35c; doz. $3.50, postpaid.

Mixed Colors—Embracing many beautiful and various sorts, each 25c; doz. $2.50, postpaid.

TUBEROSES.

Charming and fragrant summer flowering bulbs. The flowers are pure white and very double, and are very fine for decorative work. Plant in the open ground about the beginning of May.

Excelsior Pearl—First size, especially selected for our retail trade. Each, 5c; 3 for 15c; dozen 40c, postpaid. By express at purchaser’s expense, 3 for 10c; doz. 35c; 100, $2.00.

BULBS FOR WINTER AND SPRING BLOOMING.

During September, October and November we carry in stock a complete assortment of Hyacinths, Tulips, Narcissus, Jonquils, Callas, Chinese Lilies, etc. If you are interested in any of these bulbs, write for our Fall Catalog, ready about Sept. 1st.

STERLINGWORTH PLANT FOOD TABLETS.

Contain Nitrogen, Ammonia, Phosphoric Acid and Potash.

A New Scientific, Odorless, Concentrated Fertilizer for Plants.

Takes the place of liquid manure; used by dissolving in water. It starts the plants at once into healthy and vigorous growth and makes them grow and bloom luxuriantly. These Tablets drive troublesome insects and worms from the soil. They are odorless, non-poisonous, unirritating and are clean and easy to handle. If your plants are not doing well, try Sterlingworth Plant Food Tablets, and see how quickly they are benefited. Triol size box, sufficient for 10 house plants for 3 months, 10 cents, postpaid. Large size, box, sufficient for 35 plants for 3 months, 25 cents, postpaid.

SULPHO-TOBACCO SOAP.

A Wonderful and Inexpensive Insecticide.

Destroys cabbage, squash and potato-bugs, currant-worms, lice, greenfly, mealy bug, red spider, etc. Sure death to all plant insects indoors and outdoors. Of special value for spraying shrubs, fruit trees and vines. Produces luxuriant roses if bushes are sprayed liberally before blooming time.

3-oz. Cake makes 1-1/2 gallons prepared solution. 10 cents. Mailed, postpaid, for 13 cents.

3-oz. Cake makes 4 gallons prepared solution. 20 cents. Mailed, postpaid, for 22 cents.

INSECTS

Free with every order, "The Window Garden," a booklet by Eben E. Rexford, giving valuable information on the cultivation of plants and the extermination of insects.
FERTILIZERS.

FOR FARM, LAWN, GARDEN AND GREENHOUSE.
PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

PURE BONE MEAL.
Guaranteed pure bone. It is ground fine and is an excellent top dressing for lawns, grass lands, farm and field crops; also for mixing with potting soil. The Bone Meal that we handle is pure bone accumulated in the large slaughter houses and not from dry bones picked up at random and ground. 5 lbs. 25c; 25 lbs. 75c; 50 lbs. $1.25; 100 lbs. $2.50.

Coarse Bone Meal—Used around fruit trees, grape vine borders, etc. 5 lbs. 25c; 25 lbs. 85c; 50 lbs. $1.50; 100 lbs. $2.75.

HUNKEL'S SHEEP MANURE (Pulverised).
This is natural manure, dried, clean and easy to handle, and highly recommended for all fertilizing purposes. Its effect is immediate and permanent. For lawns use at the rate of 500 lbs. per acre. For the vegetable garden, place directly in hils and drills, thus promoting rapid, steady growth. For pot plants used to go by soil. It also makes the richest, safest, and quickest Liquid Fertilizer; one pound to 5 gallons of water. 2 lbs. 10c; 5 lbs. 20c; 10 lbs. 35c; 25 lbs. 60c; 50 lbs. $1.00; 100 lbs. $1.75; 500 lbs. $8.00.

HUNKEL'S SHEEP MANURE MAN'F'D FOR HUNKEL'S SHEEP STORE MILWAUKEE.

MURATE OF POTASH.
A form of Potash to be used both with Bone Meal, Dried Blood or Farm Manures on fruits, celery, asparagus, oats, corn, cucumbers, turnips, grapes, clover, and other crops. It is also used on hops, potatoes, tobacco, flax, sugar beets, cabbage or cauliflower. 5 lbs. 30c; 10 lbs. 50c; 25 lbs. $1.00; 50 lbs. $1.85; 100 lbs. $2.10; 100 lbs. $4.00.

SULPHATE OF POTHAS.
A desirable form of Potash to be used on all crops, but especially tobacco, hops, potatoes, flax, sugar beets, cabbage and cauliflower. It is the best form for greenhouse use and may be applied either broadcast and mixed with the soil (a tablespoon to a bushel will be the correct quantity), or by spraying directly on the leaves. 5% Murate of Potash and Sulphate of Potash is the most suitable fertilizer for all purposes, as it is used in very small quantities and yet is effective. 5 lbs. 30c; 10 lbs. 50c; 25 lbs. $1.10; 50 lbs. $2.00; 100 lbs. $3.75.

NITRATE OF AMMONIA.
A fertilizer for all crops. It is very quick in action, and hastens maturity of crops fully two weeks. Being soluble, it should not be applied until the plants are above ground. Sow broadcast and evenly at the rate of 100 to 300 lbs. to the acre. 5 lbs. 30c; 10 lbs. 50c; 25 lbs. $1.10; 50 lbs. $2.10; 100 lbs. $4.00.

BOWKER'S PLANT FOOD.
This is the most useful fertilizer for all kinds of pot plants. It produces a vigorous and rapid growth and an abundance of flowers with a deep rich color. It drives the insects out of the soil. Can be used in either dry or liquid form; the latter much the best, as no fertilizer acts until affected by moisture. Put up in 1/2 and 1 lb. boxes. Full directions are given in each package. Price, 15 and 25 cts; by mail, 25 and 40 cts.

INSECTICIDES.
If by Mail, Add 10c Per Lb.

Arsenate of Lead—This is a very popular remedy for use against all eating insects that attack foliage and fruit trees. It is used with great effect, in any way, the foliage. Use two or three pounds to fifty gallons water. 1 lb. 25c; 5 lbs. $1.00; 10 lbs. $1.30; 25 lbs. $3.75.

Slug Shot, Humphon's—One of the cheapest and most popular Insecticides. It kills potato bugs, Colorado potato beetle, slugs, snails and other fungoid diseases on fruits and plants. 1 pound will make 5 gallons of liquid. Lb. 25c; 5 lbs. 85c. Add 1 cent per ounce in 10 cent lots.

Bordeaux Mixture (Dry)—For black rot, mildew, potato pot, late bloom rot, for other fungoid diseases on fruits and plants. 1 pound will make 5 gallons of liquid. Lb. 25c; 5 lbs. 85c. 1 quart $1.00; 2 quarts $1.50; 5 lbs. 35c; 50 lbs. 50c; 12½ lbs. $1.00; 100 lbs. $7.50.

Dicyck Duster—For applying dry. Each 25c.

Florin Duster—For applying liquid. 1 lb. 25c; 10 lbs. $2.00.

Hellebore, Powdered White—Destroys slugs, cutworms, caterpillars, etc. Lb. 25c; by mail, 40c; 1 lb. $1.00.

Kerosene Emulsion—For cabbage worms, scale on trees, caterpillars, melon louse, rose bugs, green fly, lice and all kinds of insects, and fly, either on plants or animals. Qt. 40c; gal. $1.00; 5 gals. $4.50.

Lime-Sulphur Solution—The best remedy for San Jose scale. One gallon makes ten. Also one of the best summer sprays, as it is an excellent fungicide. When used in Summer dilute with 20 to 30 parts water. Qt. 40c; gal. $1.00; 5 gals. $4.50.

Naphthal Flakes—A most effective article against cutworms. Either top-dressing or spacing into the surface of the soil, will be very effective. Lb. 40c; 10 lbs. 75c; 50 lbs. $5.00.

Paris Green—Proves effective against all kinds of insects that chew. Use one pound to 100 gallons of water. 40c; 1 lb. $1.00; 10 lbs. $10.00.

Persian Insect Powder—Effective against all kinds of insects, suffocating them by filling up their breathing pores. Lb. 25c; 10 lbs. $2.00.

Tobacco Dust—One of the best remedies for all insects on plants or on the ground. Lb. 10c; by mail 25c; 10 lbs. $1.00.

Tobacco Stems—For fumigating. Also for covering lawns during the Winter. It not only acts as a protector, but imparts large quantities of ammonia, and drives away insects and moles. 200 lb. bale $2.00.

Sliphate of Iron—This will effectively kill dandelion on the lawn; also mustard and other foul weeds on the farm. Use two pounds to a gallon of water. Price, by freight or express, 5 lbs. 25c; 10 lbs. 40c; 50 lbs. $1.25; 100 lb. bag $2.50. Special prices in large lots.

Whale Oil Soap—Makes an excellent wash for trees and insects. It is very effective when intermixed with Farmogerm, and has been used extensively in the greenhouse. Use it at the rate of 10 lbs. 100 bushels of potatoes. It is also used for smearing on trees to prevent worms from crawling up. Made from pure fish oil. Lb. 100 lb. by mail add 1c per ounce.

Suffring Water—4½ lb. 12c; 1½ lb. 20c; 1 lb. 35c, If by mail add 10c per lb.

Grafting Wax—4½ lb. 12c; 1½ lb. 20c; 1 lb. 35c, If by mail add 10c per lb.

FARMOGERM.

High-Bred Nitrogen Fixing Bacterium. The Fertilizing Sensation of the Year. All the Nitrates Needed for legumes.

Bacteria produce nodules on the roots of legumes such as peas, beans, clovers, etc. The nodules are 8 per cent pure nitrites; nitrates mean big crops. If Farmogerm is used it is absolutely unnecessary to use any fertilizers that contain Nitrogen or Ammonia. Alfalfa, the greatest forage crop of the country, can be grown and cultivated successfully every year without the intermixing of Farmogerm. Farmogerm, not only means larger and earlier crops, but it adds a large amount of Nitrogen to the soil to benefit future crops of other kinds.

In our all time offer we have prepared for Clover, Alfalfa, Garden Beans, Garden Peas, Canadian Pea and Pea, Chinese Field Peas, Soy Beans, Cow Peas, Vetch, and all other legumes. One acre size, $2.50 postpaid. Garden 50c postpaid. In ordering state what legume you wish to plant. Write for 32 page booklet on Farmogerm.
**SPRAYERS.**

**THE AUTO SPRAY.**

A self-operating or automatic sprayer. Eight or ten strokes of the plunger in air chamber will compress enough air to discharge the entire contents and make a continuous spray for nine minutes. The "Auto Spray" has been improved by the addition of the "Auto Pop" shown in illustration. This is an automatic valve which is closed by the air pressure used to operate the "Auto Spray." In operation a lever is moved by simply closing the hand, thus opening the valve and allowing an instantaneous discharge of spray. By releasing the lever it closes itself automatically, hence the spray is in perfect control. The Auto Spray will spray any liquid and is also excellent for whitewashing. Complete descriptive circular upon request.

**PATENTED.**

Galvanized Tank, with Stop-Cock $4.50
Galvanized Tank, "Auto-Pop," (recommended) 5.40
Brass Tank, with Stop-Cock 5.50
Brass Tank, with "Auto-Pop" 7.60
"Auto-Pop," Supplied Separately, 1.25
Brass 2 Foot Extensions 4.60
Brass Elbow Extensions 4.50
Two Row Attachment 1.35
Brass Strainer 3.90

**THE "KANT-KLOG" SPRAYER.**

A high grade compressed air sprayer. Easily operated by a few strokes of the air pump thoroughly agitating the solution and charging the sprayer with compressed air. This being a very powerful and elastic force, will, as soon as the thumb presses the "Shut-Off," force out the liquid in the form of either a spray or solid continuous stream, as desired. A slight pressure of the finger on the "Kant-Klog" nozzle, which can be successfully cleaned without stopping the spray or removing the nozzle, is the only nozzle that gives both flat and round sprays, or solid streams. After the sprayer is charged you need not stop for anything; the machine will work as fast as you can walk. Holds between 4 and 6 gallons, enough to spray a row a mile long, with one filling. Galvanized Steel Tank. Price, $5.00. Two row attachment, $1.50.

**THE PERFECTION SPRAY PUMP.**

This pump requires no fastening of any kind, it holds itself down. All the operator needs do is to press the plunger down; it rises of itself, and the upward stroke being made by a brass spring forcing the cylinder apart. The pump is all brass, with no leather or rubber packing. It works easy and will do many different kinds of work. Pumps from pail, barrel, tank, spring or creek, without fastenings of any kind, and stands firmly wherever placed. Throws three sizes of solid continuous streams and two sizes of solid streams. It has automatic mixer to keep solution stirred. It is also used for whitewashing. Price, each $3.50.

**LITTLE GIANT SPRAY PUMP.**

A well known and reliable hand sprayer. The working parts are made of solid brass. It has two nozzles to throw either a solid stream or a large spray. Designed to be set in a pail with the foot-rest outside and being very light can be easily carried around in a bucket, making it just the thing for spraying bushes, trees, etc., as well as window cleaning and washing buggies. It is a good spray pump for whitewashing poultry houses. Each, $3.50.

**THE STANDARD SPRAY PUMP.**

 Entirely different from all other Spray Pumps. The illustration below shows the Standard Spray Pump furnished with three feet of hose and strainer when used with bucket, enabling the operator to walk around without moving the bucket, spraying the entire tree from the ground without the use of elevated platforms, etc. Can also be used with the knapsack, or barrel with any length of hose. The operator does the pumping and spraying which is done with one hand, as shown. It is the best pump for whitewashing that we have ever seen. The Standard Spray Pump is at least five times more powerful than any other pump, does the work in much less time and much less effort; in fact it is the best thing of its kind on the market. It must be seen to be appreciated; those who have used this pump could not get along without it. Complete with two nozzles and three feet of hose, each $4.25.
HUNKEL’S NEW CONTINUOUS SPRAYER.

This new Sprayer differs from the other styles offered in that the spray is continuous. The old styles spray only when the plunger is pushed in; this new style continues to spray while the plunger is being pulled back. The superstition is instantly apparent: having a continuous spray the work is done in half the time and with half the number of strokes required with the old styles. Probably the most important point in its construction is that instead of putting a leather pressure valve inside the sprayer where it is impossible to adjust without un-soldering the sprayer, a solid brass valve is put right in the screw top in plain sight of the operator. It is the best hand sprayer on the market. Price, 75c.

THE ELECTRIC SPRAYER.

Used for applying insecticides in the form of a mist or vapor. The reservoir of this sprayer is made of a Mason fruit jar, which enables the operator to see the ingredients mixing and just how they are working. The glass sprayer will not corrode or rust, and if accidentally broken can be instantly replaced. Price, each, 65c.

USEFUL GARDEN TOOLS.

Prices given below do not include Prepayment of Charges, unless noted.

Asparagus Knife—(Fig. 1.) Formed similar to a chisel; very handy. Each 35c; by mail 40c.

Ballard’s Dandelion Puller—The handiest and most effective dandelion puller on the market. Each 60c; by mail 75c.

Dandelion Spuds—Long handle with a sharp round cutter. A fine tool at a reasonable price. Each 25c.

Dibber—(Fig. 2)—For planting vegetables, plants or bulbs; steel point. Each 30c; by mail 40c.

Grass Hooks or Sickle—(Fig. 3)—AMERICAN—Cast steel bevelled both sides. Each 25c. GERMAN—Made of hammered blue steel and is very sharp. Each 30c.

Rake, Lawn Queen—(Fig. 4)—24 steel wire teeth, reversible head. Each 45c.

Shears, Grass—(Fig. 5)—For trimming grass along the edges and along flower beds. Made good and strong. Each 50c; with thumb guard, 55c.

Shears, Hedge, Wilkensons—(Fig. 6)—Cast steel blades, wood handles. Blades, 9 inches, with notch to cut small branches. Each $1.55.

Shears, Pruning, German—(Fig. 7)—Length 9

We aim to carry a full line of Garden Requisites.

Continued.

HUNKEL’S LIGHTNING SPRAYER.

An excellent low priced sprayer. The reservoir is made of good tin and holds one quart. It throws a very fine spray and is invaluable for use on plants, shrubs, poultry houses and on the poultry themselves, if necessary. Price, each, 50c.

IMPROVED LITTLE GIANT DUSTER.

The best dry powder gun; will distribute any insecticide or fungicide. Will do as much work in a day as a horse sprayer. Does two rows at once as fast as a man can walk, and is adjustable to any width of rows. Length of machine is such that the poison is kept at a safe distance from the operator. The reservoir of machine holds over one quart of powder. Each machine is packed in a case complete, comprising 4 tubes, 6 nozzles, 2 straps and oil can. Will not get out of order and will last for years. Price, $6.00.

DRY POWDER DUSTER.

Used to apply insecticides in powder from, either on plants, stock or poultry. Similar to the Lightning Sprayer except that the air pump and tank are larger and powder is blown direct from tank through specially constructed device attached to filler cap. Equipped with funnels and elbow to dust powder straight ahead, down or up; nicely painted. Each 75c.

Colonel Brooder No. 2. $16.00
Colonel Brooder No. 3. $12.00

THE PRAIRIE STATE UNIVERSAL HOVER.

The handiest brooding device ever offered the poultryman. It can be attached to any dry goods box, piano box, coop or barn and make an excellent brooder. Used by all the largest poultry farms. By mail, lamp box, smoke conductors and thermometer, $7.00; regulator attached $1.00 extra.

Prairie State Colony Brooder No. 1.

The Keystone Incubators and Brooders.

A new line of medium priced Incubators and Brooders manufactured by the Prairie State Incubator Co. They include all the special features that have made the Prairie State machines so very successful, and are without doubt the best low priced machines on the market. We heartily recommend them to our customers. The incubator is made in one size only, capacity about 60 hens eggs. Price $1.00. The brooder is also only made in one size. Price $8.00. Special offer: We will make a special combination of the two for both incubator and brooder (if taken together) and we assure our customers that this is the best value for the money that has ever been offered.
**IRON AGE**

FARM AND GARDEN TOOLS

FOR 1911

A COMPLETE DESCRIPTIVE "IRON AGE" CATALOGUE SENT FREE ON APPLICATION.

The "Iron Age" Garden Tools are made "on honor" from the best material and with the best workmanship. They cover all the requirements of cultivation and sowing. They do all that garden tools can do to keep the garden tidy and productive. No other garden tool can do it so well.

Prepaid—Orders for these Tools or for Seeds and Tools (Seeds not prepaid unless so offered on other pages) amounting to $7.50 will be prepaid to any railroad station in the United States east of the Rocky Mountains. We can furnish promptly any tool always kept.

No. 6 "Iron Age" Combined Double Wheel Hoe, Hill and Drill Seeder—This tool is without question the most practical and complete combined garden tool ever offered the public. The ease and simplicity of adjustment, the lightness combined with great strength, the accuracy by which it drills or hills the seed, and the small amount of power required to operate it, are the important features. The tool is made of steel, 16 inches high, the frame of pipe, coupled to malleable castings. In each form, whether a Seed Drill, a Double Wheel Hoe, or a Single Wheel Hoe it is equal to any tool or tools made especially for the one purpose. It places the seed in drills or in hills at 4, 5, 8, 12 or 24 inches apart. Complete as in cut. Price, $12.00.

No. 15 "Iron Age" Combined Single Wheel Hoe, Hill and Drill Seeder—Combined in this tool is the best Hill and Drill Seeder and the Single Wheel Hoe ever offered the public. In combining these tools not a single advantage is lost of a Single Wheel Hoe or Seed Drill. As each they are in themselves complete. Changed from one form to another almost instantly, completely filling every desire both as to method of handling seed and soil. It places the seed in hills or drills. Price, $11.00. As a Hill and Drill Seeder only (No. 16.) Price, $8.50.

No. 17 "Iron Age" combined Single Wheel Hoe and Drill Seeder. Same as combined tool shown in cut except being furnished without hill dropping device. Price, $10.00.

No. 1 "Iron Age" Combined Harrow and Cultivator—Price as in cut, $5.80. Plain harrow (without lever or wheel) $4.40. Its teeth are diamond shaped, with a small cultivator tooth forged on one end. For very close work every other tooth can be quickly removed. This tool is designed especially for the cultivation of berries and small crops.

"PLANET JR." TOOLS.

Space will not permit our showing and describing the "Planet Jr." tools but we will send a fully illustrated catalogue free for the asking, and we can supply promptly anything ordered at bottom prices.

NEW MODEL SEED DRILL.

Conceived to be one of the best Seed Drills on the market. The regulating device is the best of the world. The Index is plain, convenient and reliable. The best value in material, durability and ease of merit. One hundred and fifty pounds weight 50 pounds. Price, $8.00. Freight prepaid.

AMMONIATED LAWN LIME.

For Destroying Weeds and making Grass Grow.

KILLS ALL FLAT-LEAVED WEEDS, SUCH AS DANDELION, DAISY, PLANTAIN, DOCK, SORREL, CHICKWEED, ETC.

Makes Lawn Grasses Grow Luxuriantly without other Fertilizer.

Ammoniated Lawn Lime is a Lawn Dressing, adheres to the flat leaves of weeds, absorbing their juices and burning them up, in most cases killing leaf, bud and root. The narrow leaves of the grasses do not retain much of the material on their surface, but it is immediately converted into a splendid fertilizer, stimulating and producing a luxuriant growth of grass, besides eradicating practically every weed.

In many lawns weeds are so thick that hand weeding is out of the question. Ammoniated Lawn Lime applied on a bright sunny day will destroy all the weeds in evidence in about 48 hours, besides causing the grass to grow luxuriantly afterward.

Apply at the rate of one pound to forty square feet, one hundred pounds to four thousand square feet.

PRICES—2 lb. tin, 25c; 5 lb. tin, 50c; 25 lb. bag, $2.00; 50 lb. bag, $3.50; 100 lb. bag, $6.00.
HUNKEL'S LAWN SEED MIXTURES

A SEEDED LAWN IS ALWAYS BETTER THAN A SODDED ONE.

Our Mixtures are suitable for large lawns, professional grounds, and the most fastidious. HUNKEL'S unique mixture of grass seed makes lawns of the greatest beauty from the very first. We have found that a mixture of grass seed that is perfect for one climate or very fast growing, may be imperfect for another climate or varying growth conditions. We are a professional lawn seed mix company and our Mixtures are designed to create the most beautiful lawns. HUNKEL'S lawn seed mixtures are made up from only the finest and choicest Grades of seed and are composed of Evergreen Grasses suitable for our American climate and made up from only the finest and choicest Grades of seed.

HUNKEL'S "MILWAUKEE PARK" LAWN SEED

AN EXTRA CHOICE MIXTURE

There is nothing that attracts more attention and favorable comment than a well designed house and artistically treated grounds and one of the essential features of such grounds is a beautiful lawn. A perfect and enduring lawn of this kind is only created by sowing a combination of various and suitable grasses. Several varieties are needed so that the lawn will be verdure-clad in all seasons, and the seed should be sown liberally, not only to produce a lawn quickly, but to prevent the weeds from developing, the seeds of which are in all soils. The coarse pasture grasses will never produce a fine lawn. We have made the formation of lawns a study, and know that if Hunkel’s “Milwaukee Park” Lawn Grass seed is used and instructions are followed, a perfect and permanent lawn may be established. This lawn grass is composed of a balanced combination of native and foreign grasses that flourish under varied conditions of soils and climates, growing during different seasons of the year, so that a beautiful lawn is maintained from snow to snow. No annual grasses are used in this mixture.

The quantity required for making new lawns: 100 lbs. per acre, or for renovating old lawns, about half this amount. One pound will seed a plot 20x20 feet (400 sq. feet.)

Price—1/2 lb. 15c; lb. 30c; 3 lbs. 85c; 5 lbs. $1.25; 10 lbs. $2.40; 15 lbs. $3.60; 25 lbs. $5.90; 50 lbs. $11.50; 100 lbs. $22.50. If wanted by mail, add 10c per lb.

HUNKEL'S "STANDARD" LAWN SEED.

Also an excellent mixture but not to be compared with our “Milwaukee Park” mixture. 1/2 lb. 15c; 1 lb. 25c; 5 lbs. $1.10; 10 lbs. $2.10; 100 lbs. $20.00.

HUNKEL'S "SHADY-PLACE" LAWN GRASS MIXTURE.

For Shady Places and Sandy Soils.

This mixture is composed of fine grasses which thrive naturally in the shade of trees or buildings, or are suitable for light sandy soil. They are the dwarf-growing evergreen varieties. These grasses are native to the state of Wisconsin and the United States. This mixture is suitable for shady parts of lawns and gardens. The grasses grow slowly and are long-lived. They require very little care and do not require frequent mowing.

Price: Same as the "Milwaukee Park" Mixture.

HUNKEL'S MIXTURE FOR TENNIS COURTS, BOWLING GREENS, ETC.

A mixture of perennial grasses without clovers. This mixture is especially adapted to produce a firm, elastic, smooth and durable sward. Per 1 lb. 30c; 5 lbs. $1.25; 15 lbs. $3.60; 25 lbs. $5.90; 50 lbs. $11.50; 100 lbs. $22.50.

White Clover—Extra choice seed for lawns. Lb. 40c; 5 lbs. $1.90; 10 lbs. $3.60. If by mail, add 10c per lb.

WE SHALL AT ALL TIMES BE WILLING TO MAKE 1 P MIXTURES FOR SPECIAL REQUIREMENTS AND SITUATIONS. Correspondence Solicited.
